The Origins of U.S. Policy in the East China Sea Islands Dispute Robert Eldridge, 2014-01-03 Ownership of the Senkaku Islands in the East China Sea is disputed between China and Japan though historically the islands have been part of Okinawa the southernmost islands of the Japanese archipelago The dispute which also involves Taiwan has the potential to be a flashpoint between the two countries if relations become more strained especially as the exploitation of gas reserves in the adjoining seabed is becoming an increasingly important issue A key aspect of the dispute is the attitude of the United States which surprisingly has so far refrained from committing itself to supporting the claims of one side or the other despite its long standing strong alliance with Japan This book charts the development of the Senkaku Islands dispute and focuses in particular on the negotiations between the United States and Japan prior to the handing back to Japan in 1972 of Okinawa The book shows how the detailed progress of these negotiations was critical in defining the United States neutral attitude to the dispute and the problems this position presents

US Arms Policies Towards the Shah's Iran Stephen McGlinchey, 2014-06-05 This book reconstructs and explains the arms relationship that successive U S administrations developed with the Shah of Iran between 1950 and 1979 This relationship has generally been neglected in the extant literature leading to a series of omissions and distortions in the historical record By detailing how and why Iran transitioned from a primitive military aid recipient in the 1950s to America's primary military credit customer in the late 1960s and 1970s

this book provides a detailed and original contribution to the understanding of a key Cold War episode in U S foreign policy By drawing on extensive declassified documents from more than 10 archives the investigation demonstrates not only the importance of the arms relationship but also how it reflected and contributed to the wider evolution of U S Iranian relations from a position of Iranian client state dependency to a situation where the U S became heavily leveraged to the Shah for protection of the Gulf and beyond until the policy met its disastrous end in 1979 as an antithetical regime took power in Iran This book will be of interest to students and scholars of Middle East studies US Foreign Policy and Security studies and for those seeking better foundations for which to gain an understanding of U S foreign policy in the final decade of the Cold War and beyond

The Reagan-Gorbachev Arms Control Breakthrough David T. Jones,2012-10-12 An analysis of the negotiations both international and domestic behind this landmark treaty through the words of those directly involved This book analyzes the elimination of intermediate range nuclear force missiles through vivid fresh impressions by those who conducted the INF negotiations The Reagan Gorbachev Arms Control Breakthrough brings this period to life through the writing of key participants in the seminal negotiations leading to the completion of the INF Treaty and the ensuing epic struggle to secure its ratification by the U S Senate The book provides an astute balance between the assessments of senior negotiators nuts and bolts observations on specific elements of the Treaty by in the trenches negotiators the tangles that challenged the keenest of legal minds and the political maneuvers required to bring it through the pits and deadfalls of the Senate Additionally The Reagan Gorbachev Arms Control Breakthrough provides an often forgotten perspective of the moment offering the opportunity for retrospective judgment Is there a test that time demands Are there lessons learned conceived at the time that still pass that test

Decolonization and the Evolution of International Human Rights Roland Burke,2011-06-06 In the decades following the triumphant proclamation of the Universal Declaration of Human Rights in 1948 the UN General Assembly was transformed by the arrival of newly independent states from Asia Africa and the Middle East This diverse constellation of states introduced new ideas methods and priorities to the human rights program Their influence was magnified by the highly effective nature of Asian Arab and African diplomacy in the UN human rights bodies and the sheer numerical superiority of the so called Afro Asian bloc Owing to the nature of General Assembly procedure the Third World states dominated the human rights agenda and enthusiastic support for universal human rights was replaced by decades of authoritarianism and an increasingly strident rejection of the

ideas laid out in the Universal Declaration In Decolonization and the Evolution of International Human Rights Roland Burke explores the changing impact of decolonization on the UN human rights program By recovering the contributions of those Asian African and Arab voices that joined the global rights debate Burke demonstrates the central importance of Third World influence across the most pivotal battles in the United Nations from those that secured the principle of universality to the passage of the first binding human rights treaties to the flawed but radical step of studying individual pleas for help The very presence of so many independent voices from outside the West and the often defensive nature of Western interventions complicates the common presumption that the postwar human rights project was driven by Europe and the United States Drawing on UN transcripts archives and the personal papers of key historical actors this book challenges the notion that the international rights order was imposed on an unwilling and marginalized Third World Far from being excluded Asian African and Middle Eastern diplomats were powerful agents in both advancing and later obstructing the promotion of human rights

US Foreign Policy and the Modernization of Iran Ben Offler, 2015-07-19 US Foreign Policy and the Modernization of Iran examines the evolution of US Iranian relations during the presidencies of John F Kennedy Lyndon B Johnson and Richard M Nixon It demonstrates how successive administrations struggled to exert influence over the Shah of Iran s regime domestic and foreign policy

The End of Ambition Mark Atwood Lawrence, 2024-11-26 A groundbreaking new history of how the Vietnam War thwarted U S liberal ambitions in the developing world and at home in the 1960s At the start of the 1960s John F Kennedy and other American liberals expressed boundless optimism about the ability of the United States to promote democracy and development in Asia Africa the Middle East and Latin America With U S power resources and expertise almost anything seemed possible in the countries of the Cold War s Third World developing postcolonial nations unaligned with the United States or Soviet Union Yet by the end of the decade this vision lay in ruins What happened In *The End of Ambition* Mark Atwood Lawrence offers a groundbreaking new history of America s most consequential decade He reveals how the Vietnam War combined with dizzying social and political changes in the United States led to a collapse of American liberal ambition in the Third World and how this transformation was connected to shrinking aspirations back home in America By the middle and late 1960s democracy had given way to dictatorship in many Third World countries while poverty and inequality remained pervasive As America s costly war in Vietnam dragged on and as the Kennedy years gave way to the administrations of Lyndon B Johnson and Richard M Nixon America became increasingly risk averse and embraced a new policy of promoting mere stability in the Third World Paying special attention to the U S relationships with Brazil India Iran Indonesia and southern Africa *The End of Ambition* tells the story of this momentous change and of how international and U S events intertwined The result is an original new perspective on a war that continues to haunt U S foreign policy today

Nixon, Kissinger, and the Shah Roham Alvandi, 2016-11 In this revisionist account of U S Iran relations during the Cold War Roham Alvandi provides a detailed historical study of the partnership that Shah Mohammad Reza Pahlavi of Iran

forged with U S President Richard Nixon and his adviser Henry Kissinger in the 1970s *Fifty Years In USAID* Janet Campbell Ballantyne, Maureen Dugan, 2012 **Arabian Nights and Daze** Susan Clough Wyatt, 2010 A United States Foreign Service couple renews an official presence in Yemen Set only eight years after the Republican Revolution had ousted a thousand year old dynasty of Shiite Zaydi Muslim imams the memoir describes with both humor and respect the country's struggles in the early throes of becoming a modern viable state **Memoirs of an Agent for Change in International Development** Ludwig Rudel, 2014 In his memoir Ludwig Rudel recounts his experiences with U S foreign economic aid programs since WWII He provides a firsthand account of the political changes of the Group of 77 nations as they attempted to employ the UN's economic development agencies to press for a New International Economic Order and he examines global trends of the past eighty years in four areas of change population growth science and technology economic systems and political structures USAID is discussed in several chapters *Counterinsurgency In Eastern Afghanistan 2004-2008: A Civilian Perspective* Robert Kemp, 2014-12-22 After the 2001 ouster of the Taliban from Afghanistan the United States and its allies found themselves in a country devastated by a series of wars This book looks at how working with their Afghan counterparts they engaged in a complex effort to rebuild security development and governance all while fighting a low intensity war **The Unofficial Diplomat** Joanne Grady Huskey, 2009 A compelling political thriller colorful adventure story and well written travelogue The Unofficial Diplomat provides a revealing behind the scenes glimpse of what life is really like for diplomats and their families as they face the challenges of representing the United States while seeking to carve out a semblance of normal existence in a tumultuous world *Losing Hearts and Minds* Matthew K. Shannon, 2017-12-15 Matthew K Shannon provides readers with a reminder of a brief and congenial phase of the relationship between the United States and Iran In *Losing Hearts and Minds* Shannon tells the story of an influx of Iranian students to American college campuses between 1950 and 1979 that globalized U S institutions of higher education and produced alliances between Iranian youths and progressive Americans *Losing Hearts and Minds* is a narrative rife with historical ironies Because of its superpower competition with the USSR the U S government worked with nongovernmental organizations to create the means for Iranians to train and study in the United States The stated goal of this initiative was to establish a cultural foundation for the official relationship and to provide Shah Mohammad Reza Pahlavi with educated elites to administer an ambitious program of socioeconomic development Despite these goals Shannon locates the incubation of at least one possible version of the Iranian Revolution on American college campuses which provided a space for a large and vocal community of dissident Iranian students to organize against the Pahlavi regime and earn the support of empathetic Americans Together they rejected the Shah's authoritarian model of development and called for civil and political rights in Iran giving unwitting support to the rise of the Islamic Republic of Iran **Cyberwars in the Middle East** Ahmed Al-Rawi, 2021-07-16 *Cyberwars in the Middle East* argues that hacking is a form of online political disruption whose influence flows vertically in two

directions top bottom or bottom up or horizontally These hacking activities are performed along three political dimensions international regional and local Author Ahmed Al Rawi argues that political hacking is an aggressive and militant form of public communication employed by tech savvy individuals regardless of their affiliations in order to influence politics and policies Kenneth Waltz s structural realism theory is linked to this argument as it provides a relevant framework to explain why nation states employ cyber tools against each other On the one hand nation states as well as their affiliated hacking groups like cyber warriors employ hacking as offensive and defensive tools in connection to the cyber activity or inactivity of other nation states such as the role of Russian Trolls disseminating disinformation on social media during the US 2016 presidential election This is regarded as a horizontal flow of political disruption Sometimes nation states like the UAE Saudi Arabia and Bahrain use hacking and surveillance tactics as a vertical flow top bottom form of online political disruption by targeting their own citizens due to their oppositional or activists political views On the other hand regular hackers who are often politically independent practice a form of bottom top political disruption to address issues related to the internal politics of their respective nation states such as the case of a number of Iraqi Saudi and Algerian hackers In some cases other hackers target ordinary citizens to express opposition to their political or ideological views which is regarded as a horizontal form of online political disruption This book is the first of its kind to shine a light on many ways that governments and hackers are perpetrating cyber attacks in the Middle East and beyond and to show the ripple effect of these attacks
