One Square Inch of Silence Gordon Hempton,John Grossmann,2009-03-31 In the visionary tradition of Rachel Carson s Silent Spring One Square Inch of Silence alerts us to beauty that we take for granted and sounds an urgent environmental alarm Natural silence is our nation s fastest disappearing resource warns Emmy winning acoustic ecologist Gordon Hempton who has made it his mission to record and preserve it in all its variety before these soul soothing terrestrial soundscapes vanish completely in the ever rising din of man made noise Recalling the great works on nature written by John Muir John McPhee and Peter Matthiessen this beautifully written narrative co authored with John Grossmann is also a quintessentially American story a road trip across the continent from west to east in a 1964 VW bus But no one has crossed America like this Armed with his recording equipment and a decibel measuring sound level meter Hempton bends an inquisitive and loving ear to the varied natural voices of the American landscape bugling elk trilling thrushes and drumming endangered prairie chickens He is an equally patient and perceptive listener when talking with people he meets on his journey about the importance of quiet in their lives By the time he reaches his destination Washington D C where he meets with federal officials to press his case for natural silence preservation Hempton has produced a historic and unforgettable sonic record of America With the incisiveness of Jack

Kerouac's observations on the road and the stirring wisdom of Robert Pirsig repairing an aging vehicle and his life *One Square Inch of Silence* provides a moving call to action. More than simply a book, it is an actual place too, located in one of America's last naturally quiet places in Olympic National Park in Washington State. **Black World/Negro Digest**, 1975-11. On the Role of Contrast in Information Structure Jorina Brysbaert, Karen Lahousse, 2024-06-04. In research on Information Structure, there is an ongoing discussion about the role of contrast. While most linguists consider contrast to be compatible with both focus and topic, some argue that it is an autonomous IS category. Contrast has been shown to be encoded by different linguistic means such as specific morphemes, adverbials, clefts, prosodic cues. Hence, this concept is also related to other domains, in particular morphosyntax and prosody. The precise way in which they interact is, however, not yet entirely clear. Moreover, from a methodological point of view, the identification and annotation of contrast in corpora is not straightforward. This volume provides a selection of articles discussing the definition of contrast, the importance of distinguishing different types of contrast, the use of several encoding strategies, and the annotation of contrast in corpora using the Question Under Discussion Model. The contributions offer data on English, French, French Belgian Sign Language, German, Hindi, Italian, and Spanish.

The Measurement and Analysis of Housing Preference and Choice Sylvia J.T. Jansen, Henny C.C.H. Coolen, Roland W. Goetgeluk, 2011-05-12. What are the current trends in housing? Is my planned project commercially viable? What should be my marketing and advertisement strategies? These are just some of the questions real estate agents, landlords, and developers ask researchers to answer. But to find the answers, researchers are faced with a wide variety of methods that measure housing preferences and choices. To select and value a valid research method, one needs a well-structured overview of the methods that are used in housing preference and housing choice research. This comprehensive introduction to this field offers just such an overview. It discusses and compares numerous methods, detailing the potential limitation of each one, and it reaches beyond methodology, illustrating how thoughtful consideration of methods and techniques in research can help researchers and other professionals to deliver products and services that are more in line with residents' needs.
