distinctive take on the actual belief and enculturation of the sacraments in the Latino experience and context Due to the growing presence of Hispanics in this country churches are looking for new and innovative ways to fit them into their congregations The existence of Hispanics and more importantly the value of their religious experiences are being gradually accepted in theological societies Eduardo Fern ndez and James Empereur s new book fills the need for a more comprehensive and richer context for sacramental theology As the newest book in the Celebrating Faith Series it is ideal for theology courses as well as directors of ministerial programs and their students who are looking to place Hispanic sacramentality in the larger framework of sacramental theology **Capitan de Quince Años, Un** Julio Verne,2010 , **Working Papers** ,1990-07 **Unauthorized Migration** ,1990 The Beauty Trade Angela B. McCracken,2014-03 While it is frequently trivialized the business of beauty is one of the most important global industries generating millions of dollars and implicating many more the world over from consumers to corporate elites As trends spread so do ideas about standards of appearance and what is necessary to look good and fit in standards that are often influenced by ideas about race class and gender norms In looking at beauty products practices and ideas of youth in Guadalajara Mexico The Beauty Trade takes seriously the question of whether and how beauty norms are changing in relation to the globalizing beauty economy Angela B V McCracken considers who benefits and who loses from beauty globalization and what this means for gender norms among youth Weaving together fascinating ethnographic research on beauty practices and insights from political economy theory the book presents a feminist analysis of the global economy of beauty Rather than a sign of frivolity the beauty economy is intimately connected to youth s social and economic development Cosmetic makeovers have become a modern rite of passage for girls enabling social connections and differentiations as well as entrepreneurial activities The global beauty economy is a phenomenon generated by young people mostly women laboring in teaching and consuming beauty and eager for belonging and originality using every mechanism at their disposal to enhance their appearance As McCracken shows globalization is not homogenizing beauty standards to a Western ideal rather it is diversifying beauty standards The Beauty Trade explains how globalization combined with youth s desires for uniqueness is enabling the spread of a diversity of beauty cultures including alternative visions of gender appropriate looks and behavior *La transformacion total de su dinero* Dave Ramsey,

feminine bodies were visually constructed and politicized across media Participation of women was increasing in the public sphere and the exclusive emphasis on written culture was giving way to audio visual communications Motivated by a desire for self representation both visually and in politics female artists and activists transformed existing regimes of media and visibility Women Made Visible by Gabriela Aceves Sep lveda uses a transnational and interdisciplinary lens to analyze the fundamental and overlooked role played by artists and feminist activists in changing the ways female bodies were viewed and appropriated Through their concern for self representation both visually and in formal politics these women played a crucial role in transforming existing regimes of media and visibility increasingly important intellectual spheres of action

Foregrounding the work of female artists and their performative and visual rather than written interventions in urban space in Mexico City Aceves Sep lveda demonstrates that these women feminized Mexico s mediascapes and shaped the debates over the female body gender difference and sexual violence during the last decades of the twentieth century Weaving together the practices of activists filmmakers visual artists videographers and photographers Women Made Visible questions the disciplinary boundaries that have historically undermined the practices of female artists and activists and locates the development of Mexican second wave feminism as a meaningful actor in the contested political spaces of the era both in Mexico City and internationally
