Genius Denied Jan Davidson,Bob Davidson,Laura Vanderkam,2007-11-01 With all the talk of failing schools these days we forget that schools can fail their brightest students too We pledge to leave no child behind but in American schools today thousands of gifted and talented students fall short of their potential In Genius Denied Jan and Bob Davidson describe the quiet crisis in education gifted students spending their days in classrooms learning little beyond how to cope with boredom as they relearn material they ve already mastered years before This lack of challenge leads to frustration underachievement and even failure Some gifted students become severely depressed At a time when our country needs a deep intellectual talent pool the squandering of these bright young minds is a national tragedy There are hundreds of thousands of highly gifted children in the U S and millions more whose intelligence is above average yet few receive the education they deserve Many school districts have no gifted programs or offer only token enrichment classes Education of the gifted is in this sorry state say the Davidsons because of indifference lack of funding and the pernicious notion that education should have a leveling effect a one size fits all concept that deliberately ignores the needs of the gifted But all children are entitled to an appropriate education insist the authors those left behind as well as those who want to surge ahead The Davidsons show parents and educators how to reach and challenge gifted students They offer practical advice based on their experience as founders of a nonprofit organization that assists gifted children They show parents how to become their children s advocates how to win support for gifted students within the local schools and when and how to go outside the school system They discuss everything from acceleration skipping a grade to homeschooling and finding mentors for children They tell stories of

real parents and students who overcame poor schooling environments to discover the joy of learning *Genius Denied* is an inspiring book that provides a beacon of hope for children at risk of losing their valuable gift of intellectual potential

Prisoners of Conscience Gerard A. Hauser, 2012-08-16 *Prisoners of Conscience* continues the work begun by Gerard A. Hauser in *Vernacular Voices: The Rhetoric of Publics and Public Spheres*, winner of the National Communication Association's Hochmuth Nichols Award. In his new book, Hauser examines the discourse of political prisoners, specifically the discourse of prisoners of conscience as a form of rhetoric in which the vernacular is the main source of available appeals and the foundation for political agency. Hauser explores how modes of resistance employed by these prisoners constitute what he deems a thick moral vernacular rhetoric of human rights. Hauser's work considers in part how these prisoners convert universal commitments to human dignity, agency, and voice into the moral vernacular of the society and culture to which their rhetoric is addressed. Hauser grounds his study through a series of case studies, each centered on a different rhetorical mechanism brought to bear in the act of resistance. Through a transnational rhetorical analysis of resistance within political prisons, Hauser brings to bear his skills as a rhetorical theorist and critic to illuminate the rhetorical power of resistance as tied to core questions in contemporary humanistic scholarship and public concern. Catalog of Copyright Entries. Third Series. Library of Congress. Copyright Office, 1978. *Congressional Record Index*, 1955. Includes history of bills and resolutions. Between Two Ages William Van Dusen Wishard, 2001-06-29 In *Between Two Ages*, Van Wishard has provided us with a masterful synthesis of the main currents of history ranging over the centuries with an expert's eye to identify the key trends in economics, technology, and culture that have led us to this place in time. By itself, this would be an important contribution to our understanding. But the true significance of *Between Two Ages* lies in his placing this analysis within a profoundly moral and ethical framework. Van Wishard has not simply diagnosed the reasons for our spiritual malaise. He has also suggested how each of us can overcome this malaise and find a larger purpose or meaning to our lives. From the foreword by Dr. Mitchell B. Reiss, Dean of International Affairs, College of William and Mary: it is change at the very core of life. Culture smashing change. Identity shattering change. Soul crushing change. Prior generations faced change within a context of stable institutions that functioned more or less effectively. Earlier generations had a more stable, if less comfortable framework as well as more clearly defined reference points. Our era doesn't have such guides for all of America's institutions, from government to family, from business to religion, are in upheaval. The past century has seen civilized life increasingly ripped from its moorings. The immutable certainties that anchored our ancestors no longer seem to hold in a world where the tectonic plates of life are clashing, where human antagonisms obliterate tens of thousands of people in Africa, Bosnia, or Chechnya in a matter of a few days or weeks, where a stray bullet ends the life of an elderly lady quietly walking home from church in Washington, D.C. In so many ways, a life that has lost its essential meaning has cut giant swaths across humanity. Clearly, we have been standing at a unique historical dividing line: the end of the modern era as well as the Industrial Age, the

end of the colonial period the end of the Atlantic based economic political and military global hegemony the end of Americas culture being drawn primarily from European sources the end of the masculine patriarchal hierarchical epoch and as Joseph Campbell suggests the end of the Christian eon Obviously one era doesnt stop and a new one start in a week Yearseven decades or generationsof overlap take place The sense of an age ending and something new emerging was evident during the earliest years of the 20th century In 1913 Harvard philosopher George Santayana noted The civilization characteristic of Christendom has not yet disappeared yet another civilization has begun to take its place In 1928 at the height of the Roaring Twenties historian Will Durant wrote Human conduct and belief are now undergoing transformations profounder and more disturbing than any since the appearance of wealth and philosophy put an end to the tradition Manhood of Humanity Alfred Korzybski,1921 Treasure in Clay Fulton J.
