Quoting Caravaggio Mieke Bal, 2001-03 The author's primary object of investigation in this text is not the Caravaggio but rather the issue of temporality in art She analyzes the productive relationship between Caravaggio and a number of late 20th century artists who quote the baroque master in their own works

Artistic Reconfigurations of Rome Kaspar Thormod, 2019-04-09 In *Artistic Reconfigurations of Rome* Kaspar Thormod examines how visions of Rome manifest themselves in artworks produced by international artists who have stayed at the city's foreign academies Structured as an alternative guide to Rome the book represents an interdisciplinary approach to creating a dynamic visual history that brings into view facets of the city's diverse contemporary character Thormod demonstrates that when artists successfully reconfigure Rome they provide us with visions that being anchored in a present undermine the connotations of permanence and immovability that cling to the Eternal City epithet Looking at the work of these artists the reader is invited to engage critically with the question what is Rome today or perhaps better what can Rome be

The Fascist Turn in the Dance of Serge Lifar Mark Franko, 2020-06-19 Ukrainian dancer and choreographer Serge Lifar 1905-86 is recognized both as the modernizer of French ballet in the twentieth century and as the keeper of the flame of the classical tradition upon which the glory of French ballet was founded Having migrated to France from Russia in 1923 to join Diaghilev's Ballets Russes Lifar was appointed star dancer and ballet

director at the Paris Opéra in 1930. Despite being rather unpopular with the French press at the start of his appointment, Lifar came to dominate the Parisian dance scene through his publications as well as his dancing and choreography until the end of the Second World War, reaching the height of his fame under the German occupation of Paris 1940-44. Rumors of his collaborationism having remained inconclusive throughout the postwar era, Lifar retired in 1958. This book not only reassesses Lifar's career both aesthetically and politically but also provides a broader reevaluation of the situation of dance, specifically balletic neoclassicism, in the first half of the twentieth century. *The Fascist Turn in the Dance of Serge Lifar* is the first book not only to discuss the resistance to Lifar in the French press at the start of his much mythologized career but also the first to present substantial evidence of Lifar's collaborationism and relate it to his artistic profile during the preceding decade. In examining the political significance of the critical discussion of Lifar's body and technique, author Mark Franko provides the ground upon which to understand the narcissistic and heroic images of Lifar in the 1930s as prefiguring the role he would play in the occupation. Through extensive archival research into unpublished documents of the era, police reports, the transcript of his postwar trial, and rarely cited newspaper columns, Lifar wrote Franko reconstructs the dancer's political activities, political convictions, and political ambitions during the Occupation. [The Art of Maria Tomasula](#) Soo Y.

Kang, 2022-11-15. Maria Tomasula's still life paintings are absolutely captivating, dramatizing luscious objects of saturated colors and meticulous details through the spotlight effect against a dark backdrop. Beyond their immediate appeal, however, the still lifes usually contain disturbing features such as flowers being sharply pierced by hooks and nails or isolated body parts such as bones and organs that seem to be fiercely alive. Although the pictures are materialistically appealing due to the illusionistic style of the artist, they lend themselves to a depth of iconography that has not been accounted for in previous writings on her art. This book is the first comprehensive monograph on Tomasula, b. 1958, unraveling her complex iconography that is founded on her Mexican American heritage and Catholicism but also tracing the European still life tradition. It shows that her paintings reflect her feminist and philosophical leanings influenced by various intellectuals including Baruch Spinoza, Gilles Deleuze, and the proponents of New Materialism. Her still life converges the old with new interests; it pays tribute to traditional Mexican and European motifs but also reflects ideas and mannerism that speak to the contemporary audience. This research evidences the complexity of the Mexican American experience which merges divergent cultural and ideological perspectives from Latin America, North America, and Europe in varied ways for different and unique individuals. [Mysticism in the French Tradition](#) Louise Nelstrop, Bradley B. Onishi, 2016-03-09. In the nineteenth and early twentieth centuries, secular French scholars started re-engaging with religious ideas, particularly mystical ones. *Mysticism in the French Tradition* introduces key philosophical undercurrents and trajectories in French thought that underpin and arise from this engagement, as well as considering earlier French contributions to the development of mysticism. Filling a gap in the literature, the book offers critical reflections on French scholarship in terms of its engagement with its mystical and apophatic dimensions. A

multiplicity of factors converge to shape these encounters with mystical theology feminist devotional and philosophical treatments as well as literary historical and artistic approaches The essays draw these into conversation Bringing together an international and interdisciplinary range of contributions from both new and established scholars this book provides access to the melting pot out of which the mystical tradition in France erupted in the twenty first century and from which it continues to challenge theology today Natural History Dioramas Sue Dale Tunnicliffe,Annette Scheerso,2014-12-05 This book brings together in a unique perspective aspects of natural history dioramas their history construction and rationale interpretation and educational importance from a number of different countries from the west coast of the USA across Europe to China It describes the journey of dioramas from their inception through development to visions of their future A complementary journey is that of visitors and their individual sense making and construction of their understanding from their own starting points often interacting with others e g teachers peers parents as well as media e g labels Dioramas have been hitherto a rather neglected area of museum exhibits but a renaissance is beginning for them and their educational importance in contributing to people s understanding of the natural world This volume showcases how dioramas can reach a wide audience and increase access to biological knowledge Visual Studies James Elkins,2013-09-13 In his latest book James Elkins offers a road map through the field of visual studies describing its major concerns and its principal theoretical sources Then with the skill and insight that have marked his successful books on art and visibility Elkins takes the reader down a side road where visual studies can become a more interesting place Why look only at the same handful of theorists Why exclude from one s field of vision non Western art or the wealth of scientific images **The Persistence of Melancholia in Arts and Culture** Andrea Bubenik,2019-07-04 This book explores the history and continuing relevance of melancholia as an amorphous but richly suggestive theme in literature music and visual culture as well as philosophy and the history of ideas Inspired by Albrecht Dürer s engraving Melencolia I 1514 the first visual representation of artistic melancholy this volume brings together contributions by scholars from a variety of disciplines Topics include Melencolia I and its reception how melancholia inhabits landscapes soundscapes figures and objects melancholia in medical and psychological contexts how melancholia both enables and troubles artistic creation and Sigmund Freud s essay Mourning and Melancholia 1917 **Baroque Aesthetics in Contemporary American Horror** Gabriel Eljaiek-Rodríguez,2021-12-10 This book traces a trend that has emerged in recent years within the modern panorama of American horror film and television the concurrent and often overwhelming use of multiple stock characters themes and tropes taken from classics of the genre American Horror Story Insidious and The Conjuring are examples of a filmic tendency to address a series of topics and themes so vast that at first glance each taken separately would seem to suffice for individual films or shows This book explores this trend in its visible connections with American Horror but also with cultural and artistic movements from outside the US namely Baroque art and architecture Asian Horror and European Horror It analyzes how these hybrid products are constructed and

discusses the socio political issues that they raise The repeated and excessive barrage of images tropes and scenarios from distinct subgenres of iconic horror films come together to make up an aesthetic that is referred to in this book as Baroque Horror In many ways similar to the reactions provoked by the artistic movement of the same name that flourished in the XVII century these productions induce shock awe fear and surprise Eljaiek Rodr guez details how American directors and filmmakers construct these narratives using different and sometimes disparate elements that come together to function as a whole terrifying the audience through their frenetic accumulation of images tropes and plot twists The book also addresses some of the effects that these complex films and series have produced both in the panorama of contemporary horror as well as in how we understand politics in a divisive world that pushes for ideological homogenizations
