RA-5C Vigilante Lindsay T. Peacock,1987 RA-5C Vigilante Units in Combat Robert R Powell,2012-10-20 Developed from the A 5 nuclear bomber and used in a reconnaissance role the RA 5C Vigilante was the largest and fastest aeroplane ever to operate from the deck of an aircraft carrier During the Vietnam War it sustained the highest loss ratio of any American aircraft in that conflict This volume includes compelling accounts of combat missions over key communist targets where crews dodged Surface to Air Missiles SAMs and anti aircraft fire to secure all important mission photographs Written by a Vigilante combat veteran this book is crammed full of action packed first hand accounts F-104 Starfighter Units in Combat Peter E. Davies,2014-11-20 This title covers the technical characteristics of the F 104 Starfighter one of the most widely used and popular aircraft in history Although built in small numbers for the USAF the F 104C fought and survived for almost three years in Vietnam There it was engaged in some of the war s most famous battles including the legendary operation Bolo where seven North Vietnamese MiGs were destroyed without the loss of a single US fighter This small tough and very fast fighter dubbed The Missile with a Man in It was called upon to do things it was not specifically designed for and did them admirably Featuring illustrations and photographs detailing the variety of nose paint schemes and weapons configurations this comprehensive appraisal of the F 104 Starfighter is ideal for modelling and aviation enthusiasts alike

F9F Panther Units of the Korean War Warren Thompson,2014-06-20 In 1948 the USAF Marine Corps and US Navy were concentrating on converting over to an all jet force When the Korean War started in June 1950 the USAF had built up a sizable jet force in the Far East while the US Navy was in the early stages of getting F9F Panthers operational as replacements for its piston engined F8F Bearcats At about this time the Marine Corps had also begun using the Panthers in limited numbers Operating from aircraft carriers off the Korean coast F9Fs helped stop the North Korean invasion within two weeks of the communists crossing the 38th Parallel The Panthers escorting carrier based AD Skyraiders and F4U Corsairs penetrated as far north as Pyongyang where they bombed and strafed targets that the North Koreans thought were out of range The Panthers also took the battle all the way to the Yalu River long before the MiG 15s became a threat The F9F s basic tasking was aerial supremacy and combat air patrols but they also excelled in bombing and strafing attacks This illustrated volume charts the Panther s solid performance as a fighter bomber in Korea which accelerated the development of swept wing carrier fighters during the remainder of the 1950s and well into the Cold War with the Soviet Union **A-3**

Skywarrior Units of the Vietnam War Rick Morgan,2015-03-20 The Douglas A 3 Skywarrior though something of a cult favourite remains a largely unremarked classic of Naval Aviation Built for nuclear weapon delivery the A 3 made its name in Vietnam as a conventional bomber tanker and Electronic Warfare platform It was the largest aircraft ever regularly operated from the decks of aircraft carriers earning it the fleet wide nickname Whale It excelled in every mission area assigned to it and operated in the US Navy for more than four decades from 1956 through to 1991 Fully illustrated to depict the incredible

array of paint schemes and its awesome size this volume focuses on the type s Vietnam service which saw the aircraft briefly used as a bomber over both North and South Vietnam from March 1965 before the Skywarrior proved far more valuable as a multi role tanker KA 3B and tanker tactical jammer EKA 3B The title includes details on all of these operations as well as more clandestine reconnaissance missions and provides information about the men that flew them *USS Enterprise (CVN-65)* Mark L. Evans,2022-07-14 This is the thrilling story of USS Enterprise CVN 65 the world s first nuclear powered aircraft carrier Her story spans 51 years 1961 2012 of active service from the brink of nuclear war during the Cuban Missile Crisis to the first global cruise by nuclear powered ships to the first strikes during the Vietnam War battles against the Iranians and Iraqis in the 1980s and 1990s a pivotal role during 9 11 and the Global War on Terrorism and hunting pirates off the Horn of Africa More than just an operational history of Enterprise this book recounts the experiences of the men and women who served on board the pilots who flew from the flight deck the men who fought to save the ship during a fire in 1969 the sailors who brought retribution against Al Qaeda terrorists with detailed descriptions of sorties through flak filled skies and harrowing escapes from capture behind enemy lines This book is dedicated to the men and women who have served on board Big E and to those who paid the ultimate price for freedom **Flypast** ,2005 **The Aeronautical Journal** ,1988 *Airborne Maritime Surveillance in the North Atlantic* John O. Birkeland,2025-07-17 This book offers a comprehensive examination of historical Norwegian and allied airborne maritime surveillance operations in the North Atlantic after World War II until the present Russia s resurgent naval and submarine activity in the High North needs to be closely observed Norway together with her closest allies have monitored such activity in the High North since the end of World War II One of the key instruments in that effort has been Maritime Patrol Aircraft MPA with their Anti Submarine Warfare ASW capabilities However after the Cold War in many nations an atrophy took place within the MPA communities of knowledge resources and experience with airborne ASW This occurred just as the concept of intelligence surveillance and reconnaissance ISR came to play an increasingly important role in modern warfare but without sufficient attention being paid to the specific challenges of maritime airborne surveillance and reconnaissance This book addresses that gap and examines the entwined evolution of airborne maritime surveillance by MPA and ASW in the High North both during and after the Cold War with the main focus being on Norway The discussion identifies the fundamental building blocks of these historical surveillance operations through a portrayal of the development of airborne surveillance and reconnaissance operations These building blocks are then applied to make recommendations for the future for maritime surveillance in the High North This book will be of much interest to students of naval history strategic studies intelligence studies Nordic studies and International Relations **Aerospace** ,1988 **Naval Aviation News** ,1996 **US Navy A-1 Skyraider Units of the Vietnam War** Rick Burgess,Zip Rausa,2013-01-20 A detailed illustrated combat history of an aircraft described as a legend in its own time The A 1 was designed for use in World War 2 yet proved so versatile and capable that it saw service in the

Vietnam War some 20 years later Nicknamed the flying dump truck the A 1 was a key component in naval air wings from the end of World War II into the 1960s allowing the aircraft to play its part in the escalating conflict in Vietnam Both A 1 attack and EA 1F airborne early warning aircraft saw action in Southeast Asia from 1960 through 1969 when the last examples were finally retired from carrier decks The A 1s in particular bombed targets in both North and South Vietnam despite the aircraft being highly vulnerable to enemy flak and fighters Co written by a two tour Vietnam War combat veteran in the A 1 and featuring stunning profile artwork this is the first book that focuses exclusively on the aircraft s service in Vietnam
