Halberstam, 2010-01-26 How can humans ever attain the knowledge required to administer and implement divine law and render perfect justice in this world Contrary to the belief that religious law is infallible Chaya T Halberstam shows that early rabbinic jurisprudence is characterized by fundamental uncertainty She argues that while the Hebrew Bible created a sense of confidence and transparency before the law the rabbis complicated the paths to knowledge and undermined the stability of personal status and ownership and notions of guilt or innocence Examining the facts of legal judgments through midrashic discussions of the law and evidence Halberstam discovers that rabbinic understandings of the law were riddled with doubt and challenged the possibility of true justice This book thoroughly engages law narrative and theology to explicate rabbinic legal authority and its limits **Mine and Yours are Hers** Ilan, 2018-12-10 This book discusses the interaction between history rabbinic literature and feminist studies Recent

approaches to rabbinic literature have overturned the traditional view of these writings and new literary methods were suggested mostly denying them all historical value But rabbinic literature constitutes the main source for the lives of Jews in Palestine and Babylonia during the late Roman period and thus should not be totally rejected This study suggests a new post literary approach i e it discusses the residue of the texts after these have been analyzed and dissected by literary critics But mainly this is a book about women s history adopting many assumptions of feminist criticism about the androcentric nature of all ancient texts and approaches them with due suspicion The Rabbis treated women differently from the way they treated men This resulted in the former s marginalization and manipulation by the texts On the other hand however it created an ironic situation whereby principles useful for the recovery of historical information on women are useless when applied to men This study describes such principles and demonstrates them with the help of many examples

The Idea of History in Rabbinic Judaism Jacob Neusner, 2004 History provides one way of marking time but there are others like the Judaism of the dual Torah set forth in the Rabbinic literature from the Mishnah through the Talmud of Babylonia which tells the story of how a historical way of thinking about past present and future time and eternity the here and now in relationship to the ages gave way to another mode of thought altogether At stake are 1 a conception of time different from the historical one and 2 premises on how to take the measure of time that form a legitimate alternative to those that define the foundations of the historical way of measuring time Fully exposed those alternative premises may prove as logical and compelling as the historical ones
