one presents a number of illustrative case studies to help parents relate to and understand what they and their children might be experiencing internally The authors explain some typical emotional and physiological reactions that may arise during immediately after and some time after the trauma They provide parents and caregivers with the theoretical as well as some practical tools to guide their children and themselves towards recovery and healing All trauma although accompanied by loss often terrifying and terrible loss gives us an opportunity to put life into perspective encourages us to evaluate relationships and possibly to shed that which is toxic or unhelpful and to retain that which is healthy By presenting the theory and examining the therapeutic options available Meg Fargher and Helen Dooley draw on their extensive training and experience in this field to help parents and children access the resilience that is part of every human being allowing them to heal and move on different but potentially stronger

Emerging Infectious Diseases, 2009 Air Pollution in the 21st Century T. Schneider, 1999-03-12 This symposium was jointly organized by the United States Environmental Protection Agency and The Netherlands Ministry of Housing Spatial Planning and the Environment These proceedings will provide a stimulus for taking up the challenges of environmental policy development in the 21st century and will contribute to continuing co operation Clean air is a basic condition for health Air pollution aggravates respiratory problems leading to increased sickness absenteeism increased use of health care services and even premature mortality Air pollution is under intensive discussion in the United States and Europe In The Netherlands a wide range of policy instruments have been formulated which have reduced air pollution For example since 1975 sulphur dioxide and lead emissions have been reduced However emission reduction figures for many other substances are more modest Many air pollution problems persist because progress in countering these problems is nullified by growth in the economy and traffic Another important target is the prevention of climate change The international community is agreed that the increasing concentration of greenhouse gases in the atmosphere has led to a gradual increase in the earth s temperature In terms of the environmental consequences and social implications the greenhouse problem surpasses all other air quality problems Across Europe strategies are being developed to reduce acidification and photochemical air pollution An air emission ceiling for each country in the European Union is being agreed In the area of climate change there is good co operation between the United States The Netherlands and other EU Members States in the ongoing global negotiations This is the start of a new movement In the last century economies and societies developed through increasing human productivity In the next century they must develop through increasing the productivity of fuel and natural resources

Rabbits Susan Lumpkin, John Seidensticker, 2011-02-01 Did you know that there are more than 90 species of rabbits hares and pikas rabbits little known cousins And that new species are still being found Or that baby rabbits nurse from their mothers only once a day How about that some people brew medicinal tea from rabbit pellets Wildlife conservationists Susan Lumpkin and John Seidensticker have all the answers from the mundane to the unbelievable about the world s leaping lagomorphs To some rabbits are simply a docile pet for the classroom

or home To others they are the cute animals munching on clover or the pests plaguing vegetable gardens Whatever your interest in Rabbits The Animal Answer Guide you will discover that they are a more complex group than you might have first imagined Lumpkin and Seidensticker take these floppy eared creatures out of the cabbage patch and into the wild answering 95 frequently asked questions about these familiar and fascinating animals With informative photographs and an accessible format Rabbits The Animal Answer Guide is the one resource you will need to learn about rabbits anatomy and physiology evolutionary history ecology behavior and their relationships with humans Lumpkin and Seidensticker also talk about conservation because while rabbits may breed like well rabbits several species are among the most endangered animals on Earth
