Rabelaisian Dialectic And The Platonic Hermetic Tradition:

Rabelaisian Dialectic and the Platonic-Hermetic Tradition George Mallary Masters, Timothy Carl McMasters, 1969-01-01 In this study Professor Masters looks beyond the few critical attempts that heretofore have analyzed only isolated aspects of Platonism and Hermetism in Rabelaisian literature He examines the closely related themes of Platonism the Dionysian mysteries and the Hermetic sciences in Rabelais's work and concludes that Rabelais shared with the Platonic Hermetic tradition both its dialectic and perception of man's position in the universe In the perspective of Platonic dialectic Professor Masters analyzes Rabelaisian allegory symbolism and imagery as a play on appearance and reality Through the allegorical myths of Gargantua and Pantagruel Rabelais rejects the seemingly dichotomous extremes of materialism and ascetic spiritualism while his philosophy of Pantagruelisme shows a positive acceptance of both the physical world and contemplative thought Through the symbolism of wine Rabelais manifests the Platonic ideal of Love Harmony Order on the literal level of conviviality in the philosophical dialogue of the symposium and in the intuitive dialectic of Socratic contemplation In Rabelais's view man can achieve self knowledge only through reasonable control and by actively establishing a balance with society nature and God The magus may diabolically use the sciences of astrology magic alchemy and the Cabala in an attempt to subject the world to his own will or he may achieve unity with himself and his total environment by restoring in himself the harmonious order he finds in the cosmos In an appendix Professor Masters examines the continuity of the several themes of the Platonic Hermetic tradition as they occur in the five books of the Rabelaisian corpus He concludes as two corollaries of the main thesis that their constant recurrence demonstrates the thematic unity of the five books and the authenticity of Book Five

The Cambridge Companion to Rabelais John O'Brien, 2011 An accessible readable account of Rabelais his work his thought and his world *Enter Rabelais, Laughing* Barbara C. Bowen, 1998 Francois Rabelais is a difficult and often misunderstood author whose reputation for coarse Rabelaisian jesting and Gargantuan indulgence in food drink and sex is highly misleading He was in fact a committed humanist who expressed strong views on religion good government education and much more through the mock heroic adventures of his giants While most books about Rabelais have relatively little to say about his comedic genius *Enter Rabelais Laughing* analyzes the many sides of Rabelais's humor focusing on why his writing was so hilariously funny to sixteenth century readers The author begins by discussing how the Renaissance defined laughter and situates Rabelais in a long tradition of literary laughter Subsequent chapters examine specific contexts relevant to Gargantua and Pantagruel beginning with the comic aspects of epic chronicle mock epic and farce and proceeding to Renaissance and Reformation humanist satire rhetoric medicine and law All of these chapters combine information much of it new on the humanist message Rabelais wanted to convey to his readers with an analysis of how he used his wit to reinforce his message Rarely is a writer's work treated in such illuminating detail On a broad level *Enter Rabelais Laughing* serves as an excellent introduction to French Renaissance literature and exhibits a

remarkably charming and lucid writing style free of jargon To Rabelais scholars in particular it offers a thorough and innovative analysis that corrects misconceptions and questions commonly held views *The Design of Rabelais's* Edwin M. Études rabelaisiennes François Cornilliat, 2003 **Essaying Montaigne** John O'Neill, 2001-05-01 John O'Neill reads Montaigne s Essays from their central principle of friendship as a communicative and pedagogical practice operative in society literature and politics The friendship between Montaigne and La Bo tie was ruled neither by plenitude nor lack but by a capacity for recognition and transitivity As an essayist Montaigne is an exemplary practitioner of a technique of difference and recognition that puts all certainties of history philosophy and culture in the balance of weighted comparison The essayist reveals how every absolute subjectivity or authority is shaken by its internal weakness once we move inside the contrastive structure of domination in politics gender and race O'Neill s reading of the Essays strives to be faithful to the phenomenology of their embodied practices of reading to write to re read and re write From this standpoint he engages the principal critical readings of the Essays over the last century that have examined with great brilliance their history structure and psychology Whether the structure is evolutionary structuralist Marxist or psychoanalytical O'Neill provides close readings of Montaigne s literary critics By bringing to bear the ethico critical practice of essaying to resist the subjection of the Essays to dominant criticism O'Neill reminds readers that Montaigne s appeal is in how he survived bloody cultural war with a balance of modesty and tolerance invoking compromise where others practice violence *The Rhetoric of Sexuality and the Literature of the French Renaissance* Lawrence D. Shakespeare and religio mentis Jane Everingham Nelson, 2022-08-22 Have you ever wondered why Cordelia has to die Or how Alonso talks and walks about the isle while his body lies full fathom five on the sea floor Ever wondered why the monument to Shakespeare in the Church of the Holy Trinity in Stratford upon Avon names three pagans Nestor Socrates and Virgil king philosopher and poet Or why Shakespeare is on Olympus home of the Greek gods This interdisciplinary study the

first to interpret the plays of Shakespeare in the light of the esoteric religious doctrines of the Corpus Hermeticum holds answers to these and other puzzling questions

Oscillation in Literary Modernism John Francis Harty, 2009 While the two modernist novels considered in this book Samuel Beckett's *Murphy* and Malcolm Lowry's *Under the Volcano* were initially understood within the categories of stoic and tragic despair more recent criticism has focused upon their carnivalesque dimension The identification of these hermeneutic polarities presented the author with the challenging problem which underlies the present analysis namely the question concerning the structural relationship between the contesting thematics Drawing upon the paradigm of oscillation as established within the natural sciences and adding a figurative dimension to the concept the author has adapted this model as a key to unravelling the narrative buoyancy and structural coherence which sustain these novels of Modernism The book elucidates how the carnivalesque challenge to despair contributes towards innovative narrative configurations galvanizing the thematic antipodes into vertiginous microcosms of defiant selfhood

Ghost Stories in Late Renaissance France Timothy Chesters, 2011-01-13 Caught in the grip of savage religious war fear of sorcery and the devil and a deepening crisis of epistemological uncertainty the intellectual climate of late Renaissance France c 1550 1610 was one of the most haunted in European history Although existing studies of this climate have been attentive to the extensive body of writing on witchcraft and demons they have had little to say of its ghosts Combining techniques of literary criticism intellectual history and the history of the book this study examines a large and hitherto unexplored corpus of ghost stories in late Renaissance French writing These are shown to have arisen in a range of contexts far broader than was previously thought whether in Protestant polemic against the doctrine of purgatory humanist discussions of friendship the growing ethnographic consciousness of New World ghost beliefs or courtroom wrangles over haunted property Chesters describes how over the course of this period we also begin to see emerge characteristics recognisable from modern ghost tales the setting of the haunted house the eroticised ghost or the embodied revenant Taking in prominent literary figures including Rabelais Ronsard Montaigne d'Aubign as well as forgotten demonological tracts and sensationalist pamphlets *Ghost Stories in Late Renaissance France* sheds new light on the beliefs fears and desires of a period on the threshold of modernity It will be of interest to any scholar or student working in the field of early modern European history literature or thought

Homer and the Question of Strife from Erasmus to Hobbes Jessica Wolfe, 2015-09-15 From antiquity through the Renaissance Homer's epic poems the *Iliad* the *Odyssey* and the various mock epics incorrectly ascribed to him served as a lens through which readers translators and writers interpreted contemporary conflicts They looked to Homer for wisdom about the danger and the value of strife embracing his works as a mythographic shorthand with which to describe and interpret the era's intellectual political and theological struggles *Homer and the Question of Strife from Erasmus to Hobbes* elegantly exposes the ways in which writers and thinkers as varied as Erasmus Rabelais Spenser Milton and Hobbes presented Homer as a great champion of conflict or its most eloquent critic

Jessica Wolfe weaves together an exceptional range of sources including manuscript commentaries early modern marginalia philosophical and political treatises and the visual arts Wolfe's transnational and multilingual study is a landmark work in the study of classical reception that has a great deal to offer to anyone examining the literary political and intellectual life of early modern Europe

A Marriage of Philosophy and Music Erich Welling, 2014-04 How to use philosophy and music to open your horizons and enjoy being yourself put theory to work and help you experience personal growth is discussed in A Marriage of Philosophy and Music It is all about after After having a liberal education you are comfortable in modern culture and after further education and becoming a specialist in some field you enjoy using your skills We learn the ideas and methods of many social cultures and our own chosen specialty but we often neglect the liberal art of disciplining and enjoying the ideas and methods of our own individuality This book offers a path toward the education of privacy with the key words being selection design and beauty The book relates five areas of general human interest spirituality philosophy science art and body awareness The interrelation is accomplished by using personal patterns of experience that are available from philosophy and music Because of the plurality of subject matters and methods used in philosophy and music their patterns of discipline are comparable to self discipline A Marriage of Philosophy and Music attempts to create a path in this direction because besides the enjoyment of social culture and personal skills there is enjoyment in being yourself which is a neglected liberal art
