conceptual project of harmonizing the one and its many Tagore's writings in Bengali and in English on religious and social themes are held together by the leitmotif of a harmony which operates across several existential religious and social polarities the finite and the infinite the temporal and the eternal and the individual and the universal Tagore creatively appropriated materials from diverse sources such as the classical Hindu Vedantic systems the folk piety of Bengal and others to configure a dialectic which shapes his writings on both religious and social themes On the one hand each individual is irreducibly distinct from everyone else and on the other hand each individual gains their spiritual depth precisely by being placed within the dynamic matrices of an interrelated whole Thus we find Tagore rejecting certain monastic forms of Hindu world renunciation and also certain ecstatic dimensions of devotional worship the former because they efface individuality and the latter because they can generate self absorbed styles of living Again Tagore is as sharply opposed to Bengali imitativeness of English modes of being in the world as he is to Bengali forms of insularity the former because it dilutes the concrete richness of indigenous lifeforms and the latter because it confines individuals to parochial enclosures Tagore's life long endeavor was to configure a third way by rejecting both the blank homogeneity of an undifferentiated one and the particularistic insularities of a multitude without a deeper center of coherence *Speaking with Nature* Norman

Wirzba, 2024-10-29 From one of the world's leading historians comes the first substantial study of environmentalism set in any country outside the Euro American world By the canons of orthodox social science countries like India are not supposed to have an environmental consciousness They are as it were too poor to be green In this deeply researched book Ramachandra Guha challenges this narrative by revealing a virtually unknown prehistory of the global movement set far outside Europe or America Long before the publication of Rachel Carson's *Silent Spring* and well before climate change ten remarkable individuals wrote with deep insight about the dangers of environmental abuse from within an Indian context In strikingly contemporary language Rabindranath Tagore Radhakamal Mukerjee J C Kumarappa Patrick Geddes Albert and Gabrielle Howard Mira Verrier Elwin K M Munshi and M Krishnan wrote about the forest and the wild soil and water urbanization and industrialization Positing the idea of what Guha calls livelihood environmentalism in contrast to the full stomach environmentalism of the affluent world these writers activists and scientists played a pioneering role in shaping global conversations about humanity's relationship with nature Spanning more than a century of Indian history and decidedly transnational in reference this book offers rich resources for considering the threat of climate change today *Tagore,*

Einstein and the Nature of Reality Partha Ghose, 2019-04-02 This volume consists of a selection of scholarly essays from literature philosophy and history on the conception of reality as understood by Rabindranath Tagore and Albert Einstein The nature of reality has been a long debated issue among scientists and philosophers Tagore 1861-1941 met Einstein 1879-1955 at the latter's house in Kaputh Germany on 14 July 1930 and had a long conversation on this issue This conversation has been widely quoted and discussed by scientists philosophers and scholars from the literary world The important question that

Tagore and Einstein discussed was whether the world is a unity dependent on humanity or the world is a reality independent of the human factor Einstein believed that reality is independent of the mind and the human factor On the other hand Tagore adopted the opposite view Nevertheless both Einstein and Tagore claimed to be realists their conceptions of reality were obviously fundamentally different Where does the difference lie Can it be harmonized at a deeper level This volume brings together for the first time a gamut of views on this subject from eminent scholars It presents some key reflections on reality language poetry truth science personality human sciences virtue ethics intelligibility and creativity It will be useful to scholars and researchers of philosophy literature history and political studies as also to those interested in Tagore

APPLICATION OF MOTIVATIONAL THEORY IN CLASSROOM SITUATION Gazala Bhoje, Children's Literature and Intergenerational Relationships Justyna Deszcz-Tryhubczak, Irena Barbara Kalla, 2021-04-23 Children's Literature and Intergenerational Relationships Encounters of the Playful Kind explores ways in which children's literature becomes the object and catalyst of play that brings younger and older generations closer to one another Providing examples from diverse cultural and historical contexts this collection argues that children's texts promote intergenerational play through the use of literary devices and graphic formats and that they may prompt joint play practices in the real world The book offers a distinctive contribution to children's literature scholarship by shifting critical attention away from the difference and conflict between children and adults to the exploration of inter age interdependencies as equally crucial aspects of human life presenting a new perspective for all who research and work with children's culture in times of global aging

Anti-Colonialism and the Crises of Interwar Fascism Michael Ortiz, 2023-01-12 What is fascism Is it an anomaly in the history of modern Europe Or its culmination In Anti Colonialism and the Crises of Interwar Fascism Michael Ortiz makes the case that fascism should be understood in part as an imperial phenomenon He contends that the Age of Appeasement 1935-1939 was not a titanic clash between rival socio political systems fascism and democracy but rather an imperial contest between satisfied and unsatisfied empires Historians have long debated the extent to which Western imperialisms served as ideological and intellectual precursors to European fascisms To date this scholarship has largely employed an inside out

methodology that examines the imperial discourses that pushed fascist regimes outward into Africa Asia and the Americas While effective such approaches tend to ignore the ways in which these places and their inhabitants understood European fascisms Addressing this imbalance Anti Colonialism adopts an outside in approach that analyses fascist expansion from the perspective of Indian anti colonialists such as Jawaharlal Nehru Subhas Bose and Mohandas Gandhi Seen from India the crises of Interwar fascism the Second Italo Ethiopian War Spanish Civil War Second Sino Japanese War Munich Agreement and the outbreak of the Second World War were yet another eruption of imperial expansion analogous although not identical to the Scramble for Africa and the Treaty of Versailles Whether fascist democratic or imperialist Europe s great powers collectively negotiated the fate of smaller nations The Turn to Ethics Marjorie B. different ways the authority and power of the father was invoked and constituted both metaphorically and in everyday experiences Exploring specific moments when educated men as biological fathers literary activists and educators assumed guardianship and became crucial agents of change Banerjee interrogates the connections between fatherhood and masculinity The last chapter of the book moves beyond Bengal and draws on the lives of Mohandas K Gandhi and Jawaharlal Nehru to provide a broader salience to its argument Reclaiming two missing links in Indian history fathers and children the book argues that biological and imaginary fathers assumed the moral guardianship of an incipient nation and rested their hopes and dreams on the future generation
