Rethinking Feminism in Early Modern Studies Ania Loomba, Melissa E Sanchez, 2016-07-12 Winner of the Society for the Study of Early Modern Women's Collaborative Book Prize 2017 Rethinking Feminism in Early Modern Studies is a volume of essays by leading scholars in the field of early modern studies on the history present state and future possibilities of feminist criticism and theory It responds to current anxieties that feminist criticism is in a state of decline by attending to debates and differences that have emerged in light of ongoing scholarly discussions of race affect sexuality and transnationalism work that compels us continually to reassess our definitions of women and gender Rethinking Feminism demonstrates how studies of early modern literature history and culture can contribute to a reimagination of feminist aims methods and objects of study at this historical juncture While the scholars contributing to Rethinking Feminism have very different interests and methods they are united in their conviction that early modern studies must be in dialogue with and indeed contribute to larger theoretical and political debates about gender race and sexuality and to the relationship between

these areas To this end the essays not only analyze literary texts and cultural practices to shed light on early modern ideology and politics but also address metacritical questions of methodology and theory Taken together they show how a consciousness of the complexity of the past allows us to rethink the genealogies and historical stakes of current scholarly norms and debates APPLICATION OF MOTIVATIONAL THEORY IN CLASSROOM SITUATION Gazala Bhoje, *Indian Literature in English* Satish Barbuddhe,2007 Most of the papers presented at various national and international seminars

South Africa and India Isabel Hofmeyr,Michelle Williams,2011-05-01 An innovative book about the relationship between South Africa and India South Africa s future is increasingly tied up with that of India While trade and investment between the two countries is intensifying they share long standing historical ties and have much in common apart from cricket colonialism and Gandhi both countries are important players in the global South As India emerges as a major economic power the need to understand these links becomes ever more pressing Can the two countries enter balanced forms of exchange What forms of transnational political community between these two regions have yet to be researched and understood The first section of *South Africa and India* traces the range of historical connection between the two countries The second section explores unconventional comparisons that offer rich ground on which to build original areas of study This innovative book looks to a post American world in which the global South will become ever more important Within this context the Indian Ocean arena itself and South Africa and India in particular move to the fore The book s main contribution lies in the approaches and methods offered by its wide range of contributors for thinking about this set of circumstances Empire and Poetic Voice Patrick Colm Hogan,2012-02-01 In *Empire and Poetic Voice* Patrick Colm Hogan draws on a broad and detailed knowledge of Indian African and European literary cultures to explore the way colonized writers respond to the subtle and contradictory pressures of both metropolitan and indigenous traditions He examines the work of two influential theorists of identity Judith Butler and Homi Bhabha and presents a revised evaluation of the important Nigerian critics Chinweizu Jemie and Madubuike In the process he presents a novel theory of literary identity based equally on recent work in cognitive science and culture studies This theory argues that literary and cultural traditions like languages are entirely personal and only appear to be a matter of groups due to our assertions of categorical identity which are ultimately both false and dangerous

Developmental and Cultural Nationalisms Radhika Desai,2013-10-18 Premature announcements of the eclipse of nation states under globalization and empire stand exposed as the 21st century s first economic crisis underlines their continuing importance A predominantly cultural study of nationalism was unable to resist the globalization thesis Focusing on selected Asian cases this book argues that nationalisms have always contained political economies as well as cultural politics Placing nation states centrally in our understanding of modern capitalism it challenges the globalization thesis Rather than eclipse nations and nationalisms have undergone changes under the impact of neoliberalism since the 1970s Classical 20th century developmental nationalisms emphasised citizenship economy and future orientations Later cultural nationalisms Asian values

Hindutva Confucianism or Nihonjiron stressed identity culture and past orientations Amid neoliberalism's flagrantly unequal political economy not primarily concerned with material production or productivity they glorified static conceptions of original cultures and identities whether religious ethnic or other and justified inequality as cultural difference In contrast to the popular mobilizations which powered developmental nationalisms cultural nationalisms thrive on neoliberalism's disengagement and disenfranchisement albeit partially compensated by the political baptism of newly enriched groups Extremist wings of cultural nationalism in some countries were a function of this lack of popular support This book was published as a special issue of Third World Quarterly
