Race And Family In The Colonial South:

Race and Family in the Colonial South , **Race and Family in the Colonial South** Winthrop D. Jordan, Sheila L. Skemp, 2009-07-30 This volume of papers from the Porter M Fortune Chancellor s Symposium in Southern History held at the University of Mississippi in 1986 questions what was distinctively southern about the colonial South Though this region was a land of diversity and had the kind of provincialism that typified other English colonies during this period the editors find it nearly impossible to characterize the colonial South as unique The roots of southern distinctiveness however were taking hold in the years before the American Revolution as the papers here attest In the opening essay Tate surveys recent historical scholarship on the period and targets trends for further study Next Galloway examines Indian French relations in eastern Louisiana during the eighteenth century Smith describes the family unit and examines the various forces that worked against its formation In an examination of three slave owning families Morgan casts a new light on slavery in the colonies which he argues to have operated within a harsh patriarchal system that stressed domination order authority and unswerving obedience Menard s essay also is on the subject of slavery showing the unique system in the Low Country of South Carolina In the final paper Middlekauff assesses each of the preceding papers and suggests subjects for future studies of the colonial South

Woman of Color, Daughter of Privilege Kent Anderson Leslie, 2010-04-15 This fascinating story of Amanda America Dickson born the privileged daughter of a white planter and an unconsenting slave in antebellum Georgia shows how strong willed individuals defied racial strictures for the sake of family Kent Anderson Leslie uses the events of Dickson's life to explore the forces driving southern race and gender relations from the days of King Cotton through the Civil War Reconstruction and New South eras Although legally a slave herself well into her adolescence Dickson was much favored by her father and lived comfortably in his house receiving a genteel upbringing and education After her father died in 1885 Dickson inherited most of his half million dollar estate sparking off two years of legal battles with white relatives When the Georgia Supreme Court upheld the will Dickson became the largest landowner in Hancock County Georgia and the wealthiest black woman in the post Civil War South Kent Anderson Leslie's portrayal of Dickson is enhanced by a wealth of details about plantation life the elaborate codes of behavior for men and women blacks and whites in the South and the equally complicated circumstances under which racial transgressions were sometimes ignored tolerated or even accepted

Ensuring Inequality Donna L. Franklin,2015-04-01 There is a crisis today in the American family and this crisis has been particularly severe in the African American community Black women are more likely than ever to bear children as teenagers to remain single and to raise their children in poverty As a result a staggering number of African American

children are growing up without fathers and living in destitution In this insightful new book Donna L Franklin offers an in depth account of the history and development of the African American family revealing why the marriage and family experiences of African Americans differs from those of white America and highlighting the cultural and governmental forces that have combined to create this divide and to push the black family to the edge of catastrophe In *Ensuring Inequality* Franklin traces the evolution of the black family from slavery to the present showing the cumulative effects of centuries of historical change She begins with a richly researched account of the impact of slavery on the black family finding that slavery not only caused extreme instability and suffering for families but established a lasting pattern of poverty which made the economic advantages of marriage unattainable She provides a sharp critique of the policies of the Freedmen s Bureau during Reconstruction and demonstrates the mixed impact of the new pattern of sharecropping On one hand tenant farming allowed greater autonomy than the older gang labor system and tended to consolidate two parent families on the other hand it reinforced male authority and bound African Americans in debt peonage The twentieth century brought a host of changes for black families and Franklin incisively examines their effects First black women began to move to cities in search of jobs as domestic servants while men stayed behind to work the fields dividing the families Then two world wars sparked the great migration north as African Americans pursued employment in booming factories When the white soldiers returned home however many blacks found themselves out of work shunted to the least desirable lowest paying jobs Roosevelt s New Deal offered limited help in the North it tolerated the red lining of urban neighborhoods making it difficult for blacks to obtain home mortgages in the South blacks found that as agricultural laborers they were exempted from most labor laws while agricultural subsidies were administered in favor of white farmers And the distinction made between programs paid for by beneficiaries such as social security and those based on need such as Aid to Families with Dependent Children stigmatized the poor Most blacks found themselves living an ever more tenuous socially isolated existence Franklin brings her comprehensive nuanced study right up to the present showing the impact on the urban poor of changes in the economy and society from the dramatically shrinking pool of good jobs to the rise of the new right The increasing reliance on welfare by young black mothers she writes corresponded to the erosion of opportunities for young black males More important she offers new approaches to solving the crisis Not only does she recommend federal intervention to create new economic opportunity in urban ghettos but she also stresses the importance of black self help and proposes a plan of action In addition she outlines social interventions that can stabilize and strengthen poor mother only families living in ghetto neighborhoods Exhaustively researched and insightfully written *Ensuring Inequality* makes an important contribution to the central debate in American politics today
