Race and Politics in South Africa Ian Robertson, Phillip Whitten,

Racial Politics in Post-Revolutionary Cuba Mark Q. Sawyer, 2005-11-28 This book analyzes the triumphs and failures of the Castro regime in the area of race relations It places the Cuban revolution in a comparative and international framework and challenges arguments that the regime eliminated racial inequality or that it was profoundly racist Through interviews historical materials and survey research it provides a balanced view The book maintains that Cuba has not been a racial democracy as some have argued However it also argues that Cuba has done more than any other society to eliminate racial inequality The contemporary outlook of the book demonstrates how much of Cuban racial ideology was unchanged by the revolution Thus the current implementation of market reforms and in particular tourism has exacerbated racial inequalities Finally it holds that despite these shortcomings the regime remains popular among blacks because they perceive their alternatives of the US and the Miami Exile community to be far worse

Politics South Africa Heather Deegan, 2014-05-22 South Africa's democratic transformation in 1994 captured the attention of the international community *Politics South Africa* provides an acute appraisal of the critical moments in the history of South Africa and examines the political environment in the years following the shift to democracy Under the leadership of the revered figure of Nelson Mandela the rainbow nation achieved the transition with less violence than had been feared A new generation of post Apartheid young people has grown up and the socio political environment is maturing However the country still has immense challenges to overcome in delivering services to its diverse populations faced with the impact of HIV AIDS on communities and the economic demands of development This fully revised second edition includes two entirely new chapters based on the authors recent research and interviews within the country dealing with the legacy of the President Mbeki years the implications of the 2009 election and the challenges now facing the country under Jacob Zuma *Politics South Africa* is an accessible guide for students and a fascinating appraisal of a nation which has travelled a long journey but is still trying to reconcile its past Features include

boxed discussions of key subject areas chronology of important events maps appendices of critical documents and speeches

Dr Heather Deegan is a Reader in Comparative Politics at Middlesex University London She was a Fellow of the Africa Institute of South Africa Pretoria and was a Visiting Lecturer at the University of Witwatersrand She is the author of six books including the recently published *Africa Today Culture Economics Religion Security* 2009 *Institutions, Ethnicity, and Political Mobilization in South Africa* J. Piombo, 2009-08-03 An investigation of post apartheid South Africa which is notable for a history of politicized ethnicity a complicated network of ethnic groups and for an expectation that ethnic violence would follow the 1994 political transition that did not occur following democratization *Framing the Race in South Africa* Karen E. Ferree, 2010-11-15 Post apartheid South African elections have borne an unmistakable racial imprint Africans vote for one set of parties whites support a different set of parties and with few exceptions there is no crossover voting between groups These voting tendencies have solidified the dominance of the ruling African National Congress ANC over South African politics and turned South African elections into racial censuses This book explores the political sources of these outcomes It argues that although the beginnings of these patterns lie in South Africa's past in the effects apartheid had on voters beliefs about race and destiny and the reputations parties forged during this period the endurance of the census reflects the ruling party's ability to use the powers of office to prevent the opposition from evolving away from its apartheid era party label By keeping key opposition parties white the ANC has rendered them powerless solidifying its hold on power in spite of an increasingly restive and dissatisfied electorate **Race, Class & the Apartheid State** Harold Wolpe, 1990

Race and Regionalism in the Politics of Taxation in Brazil and South Africa Evan S. Lieberman, 2003-09-01 Nationally specific definitions of citizenship proved decisive for the development of the Tax State in Brazil and South Africa in the twentieth century Although both countries had been divided along racial and regional lines in the late nineteenth century watershed constitutions addressed these political problems in very different ways South Africa's institutionalized white supremacy created a level of political solidarity that contributed to the development of a highly progressive and efficient tax system In Brazil federalism and official non racialism proved more divisive making the enactment and collection of progressive taxes much more difficult The legacy of these divergent state building processes remains evident at the beginning of the twenty first century Lieberman extends this analysis to a wider group of country cases and finds similar patterns and causal relationships between the politics of race region and taxation The findings are based on field research large scale national surveys macroeconomic data and various archival sources *Race and Politics in South Africa* Ian Robertson, Phillip Whitten, 1978 **Making Race** Ian Goldin, 1987 *South Africa* Newell Maynard Stultz, 1989 **Race and American Political Development** Joseph E. Lowndes, Julie Novkov, Dorian T. Warren, 2012-11-12 Race has been present at every critical moment in American political development shaping political institutions political discourse public policy and its denizens political identities But because of the nature of race its evolving and dynamic status as a structure of

inequality a political organizing principle an ideology and a system of power we must study the politics of race historically institutionally and discursively Covering more than three hundred years of American political history from the founding to the contemporary moment the contributors in this volume make this extended argument Together they provide an understanding of American politics that challenges our conventional disciplinary tools of studying politics and our conservative political moment s dominant narrative of racial progress This volume the first to collect essays on the role of race in American political history and development resituates race in American politics as an issue for sustained and broadened critical attention

Race and Reconciliation in South Africa William E. Van Vugt, G. Daan Cloete, 2000-01-01 In the mid 1990s the Truth and Reconciliation Commission disclosed its findings on the awful reality of the apartheid era in South Africa The Commission inspired scholars from Europe North America and South Africa to convene a group of their own to investigate in multicultural scholarly dialogue the history theology philosophy and politics of race and reconciliation in South Africa This volume is the product of that important dialogue And while the focus is the particular environment of South Africa the contributors work within a comparative perspective using examples from other nations and cultures to explore that which makes South Africa unique Ultimately the book aims to offer not only a better understanding of the depth of injustice in South Africa s past but also a deeper appreciation for the achievement of the present and the promise of the future in South Africa and in every other multiethnic region in the world

Negotiating Racial Politics in the Family Barbara Henkes, 2020-05-06 This book is situated at the cutting edge of the political ethical dimension of history writing Henkes investigates various responsibilities and loyalties towards family and nation as well as other major ethical obligations towards society and humanity when historical subjects have to deal with a repressive political regime In the first section we follow pre war German immigrants in the Netherlands and their German affiliation during the era of National Socialism The second section explores the positions of Dutch emigrants who settled after the Second World War in Apartheid South Africa The narratives of these transnational agents and their relatives provide a lens through which changing constructions of national identities and the acceptance or rejection of a nationalist policy on racial grounds can be observed in everyday practice

Women's Sport in Africa John Bale, Michelle Sikes, 2016-04-14 In recent decades Africa has emerged as a sporting giant. The African sporting phenomenon has been addressed in the popular press and it has also attracted scholarly interest; however, this interest is almost entirely focussed on men. Yet women's participation in recreational and elite sport is worthy of exploration and research. This path-breaking collection of essays provides an introduction to a variety of dimensions of women's participation in African sports. Several key concepts are addressed in the book: women and media, women and sport, migration, sport and empowerment, sporting and social development, women's sport and postcolonial Africa, and professional sport and economic development. This collection, authored by established scholars, will attract readership from students from Sports Studies to African Studies and from undergraduate students to university teachers. This book was published as a special issue of *Sport in Society*.

Socio-political and Psychological Perspectives on South Africa Christopher R. Stones, 2001 South Africa is a society that sadly has been divided against itself even at the best of times. Beginning with the initial advent of colonialism on the southern tip of the African continent through to the later spawning of apartheid as well as in its nascent democracy, divisions have continually been manifest in varying form and content along racial, ethnic, class, religious, language, political, or other socio-economic and cultural lines. Unlike most societies, South Africa is a natural laboratory for psycho-social research, yet it has been foreign researchers who have conducted most of the behavioural studies on the human condition in the country. South African psychologists seem to have steered clear of involvement in researching any major policy impact, especially in recent times when the re-shaping of South African society has been at its height. Each of the authors in this book is South African and appropriately has lived through the transition in South Africa and has attempted to understand the changes at both professional and personal levels. The contributors were each asked to write a chapter that would explore the South African socio-political terrain from within their fields of expertise and so help others navigate the uncharted future with less trepidation.
