Racial Representations in Asia Yasuko I. Takezawa, 2011 Though there is no biological validity to race it continues to play a central role in various aspects of our daily lives What then generates and reinforces the reality of race and in what ways In order to explore these questions this book examines racial representations from both scientific and humanistic perspectives taking into account both historical and contemporary views This incisive anthology is the product of an interdisciplinary collaboration among scholars from Japan Korea Singapore Germany Israel Iraq and the US The discussion consists of studies in history literature sociology cultural anthropology and genetics while the primary focus is on racial representations in Asia The book elucidates issues and phenomena that have been neglected or marginalized in the literature on racial representation and it serves to broaden our understanding both in the theoretical and empirical realms Looking at these phenomena it is realized that racism has become increasingly obscure and harder to identify and articulate thus posing the question Are we really beyond race and heading towards a future of integration

analyze the experiences of twentieth century American Jews not only in relation to other white groups of European descent but also African Americans and Asian Americans among others The essays presented here ranging from comparative studies of Jews and Asians as model minorities to the examination of postethnic Jews of color demonstrate that expanding ethnicity beyond the traditional Eurocentric frame can yield fresh insights into the character of Jewish life in the modern United States

Rights, Groups, and Self-Invention Eric J. Mitnick, 2018-01-18 Group differentiated rights or rights that attach on the basis of membership in a particular social or cultural group are an increasingly common and controversial aspect of modern pluralistic legal systems Eric Mitnick offers the first comprehensive treatment of this important form of right The book describes and critically assesses the group differentiated form of right from within analytical constitutive and liberal theory It further examines the extent to which group differentiated rights constitute aspects of human identity and it asks whether this should be a cause for concern from the perspective of liberal theory The more detailed normative work advanced in the book contextually applies the constitutive understanding of rights and the principles of liberal membership to particular examples of group differentiated citizenship Such examples range from ascriptive statuses such as slavery and alienage to more affirmative classifications such as those apparent in the contexts of civil unions and affirmative action finally to the claims of religious and other cultural groups for official recognition and accommodation of group based beliefs and practices

**Is Racial Equality Unconstitutional?** Mark Golub, 2018-02-02 More than just a legal doctrine color blind constitutionalism has emerged as the defining metaphor of the post Civil Rights era Even for those challenging its constitutional authority the language of color blindness sets the terms of debate Critics of color blind constitutionalism are in this sense captured by the object of their critique And yet paradoxically to enact a color blind rule actually requires a heightened awareness of race As such color blind constitutionalism represents a particular form of racial consciousness rather than an alternative to it Challenging familiar understandings of race rights and American law Is Racial Equality Unconstitutional explores how current equal protection law renders the pursuit of racial equality constitutionally suspect Identifying hierarchy rather than equality as an enduring constitutional norm the book demonstrates how the pursuit of racial equality historically has been viewed as a violation of white rights Arguing against conservative and liberal redemption narratives both of which imagine racial equality as the perfection of American democracy Is Racial Equality Unconstitutional calls instead for a break from the current constitutional order that it may be re founded upon principles of racial democracy

stood for a brief moment in the sun then moved back again toward slavery His words echo across the decades as the civil rights revolution marked by the passage of landmark civil rights laws in the 60s has seen those gains steadily and systematically whittled away As history testifies revolution nearly always triggers its antithesis counterrevolution In this book Steinberg provides an analysis of this backlash tracing the reverse flow of history that has led to the current national reckoning on race Steinberg puts counterrevolution into historical and theoretical perspective exploring the victim blaming and colorblind discourses that emerged in the post segregation era and undermined progress toward racial equality and led to the gutting of affirmative action This book reflects Steinberg s long career as a critical race scholar culminating with his assessment of our current moment and the possibilities for political transformation

**When Race Counts** John Edwards,2005-06-29 When Race Counts investigates the use of race conscious practices in social policy in Britain and America It questions the distinction between affirmative action and preferential treatment and evaluates the effectiveness of a range of education and employment policies designed to counteract both unintended and direct discrimination against ethnic minorities The book uses both empirical and moral analyses to examine the controversial dilemma of whether and in what circumstances preferential treatment may be used as a means of improving the condition of minority groups John Edwards looks at justifications for overriding the merit principle particularly in employment and shows who bears the costs of such a policy and where the benefits lie He argues that the merit principle is in itself so flawed that to override it would cause no great damage to justice He then sets out the requirements of an acceptable policy of minority preference tailored to the disadvantages of specific minority groups
