Race, Class, & Gender Esther Ngang-ling Chow, Doris Wilkinson, Maxine Baca Zinn, 1996-05-21 Resource added for the Psychology includes Sociology 108091 courses **Interactions and Intersections of Gendered Bodies at Work, at Home, and at Play** Marcia Texler Segal, 2010-07-16 Includes articles that examine the intersection of gender with other characteristics in a variety of settings including factory floors and corporate offices welfare offices state legislatures the armed forces universities social clubs and playing fields [The Elgar Companion to Feminist Economics](#) Janice Peterson, Margaret Lewis, 2001-01-01 Comprehensive reference work introducing readers to the field of feminist economics It addresses key concepts as well as feminist economic critiques and reconstructions of major economic theories and policy debates *Workable Sisterhood* Michele Tracy Berger, 2010-07-28 Workable Sisterhood is an empirical look at sixteen HIV positive women who have a history of drug use conflict with the law or a history of working in the sex trade What makes their experience with the HIV AIDS virus and their political participation different from their counterparts of people with HIV Michele Tracy Berger argues that it is the influence of a phenomenon she labels intersectional stigma a complex process by which women of color already experiencing race class and gender oppression are also labeled judged and given inferior treatment because of their status as drug users sex workers and HIV positive women The work explores the barriers of stigma in relation to political participation and demonstrates how stigma can be effectively challenged and redirected The majority of the women in Berger's book are women of color in particular African Americans and Latinas The study elaborates the process by which these women have become conscious of their social position as HIV positive and politically active as activists advocates or helpers She builds a picture of community based political participation that challenges popular medical and scholarly representations of crack addicted prostitutes and HIV positive women as social problems or victims rather than as agents of social change Berger argues that the women's development of a political identity is directly related to a process called life reconstruction This process includes substance abuse treatment the recognition of gender as a salient factor in their lives and the use of nontraditional political resources *The Affirmative Action Puzzle* Melvin I. Urofsky, 2022-02-22 A rich multifaceted history of affirmative action from the Civil Rights Act of 1866 through today's tumultuous times From an acclaimed legal historian a history of affirmative action from its beginning with the Civil Rights Act of 1866 to the first use of the term in 1935 with the enactment of the National Labor Relations Act the Wagner Act to 1961 and John F Kennedy's Executive Order 10925 mandating that federal contractors take affirmative action to ensure that there be no discrimination by race creed color or national origin down to today's American society Melvin Urofsky explores affirmative action in relation to sex gender and education and shows that nearly every public university in the country has at one time or another successfully or not instituted some form of affirmative action plan Urofsky traces the evolution of affirmative action through labor and the struggle for racial equality writing of World War I and the exodus that began when some six million African

Americans moved northward between 1910 and 1960 one of the greatest internal migrations in the country's history He describes how Harry Truman after becoming president in 1945 fought for Roosevelt's Fair Employment Practice Act and surprising everyone appointed a distinguished panel to serve as the President's Commission on Civil Rights as well as appointing the first black judge on a federal appeals court in 1948 and by executive order later that year ordering full racial integration in the armed forces In this important ambitious far reaching book Urofsky writes about the affirmative action cases decided by the Supreme Court cases that either upheld or struck down particular plans that affected both governmental and private entities We come to fully understand the societal impact of affirmative action how and why it has helped and inflamed people of all walks of life how it has evolved and how and why it is still needed [Making Of Asian](#)

Distinct Identities Nadia E. Brown,Sarah Allen Gershon,2016-04-14 Minority women in the United States draw from their unique personal experiences born of their identities to impact American politics Whether as political elites or as average citizens minority women demonstrate that they have a unique voice that more often than not centers on their visions of justice equality and fairness In this volume Dr Nadia E Brown and Sarah Allen Gershon seek to present studies of minority women that highlight how they are similar and dissimilar to other groups of women or minorities as well as variations within groups of minority women Current demographic and political trends suggest that minority populations specifically minority women will be at the forefront of shaping U S politics Yet scholars still have very little understanding of how these populations will behave politically This book provides a detailed view of how minority women will utilize their sheer numbers collective voting behavior policy preferences and roles as elected officials to impact American politics The scholarship on intersectionality in this volume seeks to push beyond disciplinary constraints to think more holistically about the politics of identity

Is Apartheid Really Dead? Pan Africanist Working Class Cultural Critical Perspectives Julian Kunnie,2018-02-23 *Is Apartheid Really Dead* Pan Africanist Working Class Cultural Critical Perspectives is an engaging and incisive book that radically challenges the widespread view that post apartheid society is a liberated society specifically for the Black working class and rural peasant populations Julian Kunnie s central contention in this book is that the post apartheid government was the product of a serious compromise between the former ruling white led Nationalist Party and the African National Congress resulting in a continuation of the erstwhile system of monopoly capitalism and racial privilege albeit revised by the presence of a burgeoning Black political and economic elite The result of this historic compromise is the persistent subjugation and impoverishment of the Black working class by the designs of global capital as under apartheid this time managed by a Black elite in collaboration with the powerful white capitalist establishment in South Africa *Is Apartheid Really*

Dead engages in a comprehensive analysis of the South African conflict and the negotiated settlement of apartheid rule and explores solutions to the problematic of continued Black oppression and exploitation Rooted in a Black Consciousness philosophical framework unlike most other works on post apartheid South Africa this book provides a carefully delineated history of the South African struggle from the pre colonial era through the present What is additionally distinctive is the author s reference to and discussion of the Pan Africanist movement in the global struggle for Black liberation highlighting the aftermath of the 1945 Pan African meeting in Manchester The author analyzes the South African struggle within the context of Pan Africanism and the continent wide movement to rid Africa of colonialism s legacy highlighting the neo colonial character of much of Africa s post independence nations arguing that South Africa has followed similar patterns One of the attractive qualities of this book is that it discusses correctives to the perceived situation of neo colonialism in South Africa by delving into issues of gender oppression and the primacy of women s struggle working class exploitation and Black worker mobilization environmental despoliation and indigenous religio cultural responses and educational disenfranchisement and the need for radically new structures and policies in educational transformation Ultimately *Is Apartheid Really Dead* postulates revolutionary change as a solution undergirded with all of the aforementioned ingredients While anticipating and articulating a revolutionary socialist vision for post apartheid South Africa this book is tempered by a realistic appraisal of the dynamics of the global economy and the legacy of colonial oppression and capitalism in South Africa

The Chinese Triangle of Mainland China, Taiwan, and Hong Kong Alvin Y. So, Nan Lin, Dudley Poston, 2001-07-30 The Chinese triangle of mainland China Hong Kong and Taiwan constitutes one of the most dynamic regions in the world economy Since the late 1970s these three societies have experienced increasing economic integration however studies aimed at analyzing and explaining this integration have often overlooked the very important role social institutions have played in the shaping of this process To fill this gap this book adopts a systematic institutional approach designed to examine the different patterns of institutions in the three countries and to discuss how such social institutions as the economy gender social networks and the Chinese diaspora have exerted a profound impact on all three societies The chapters taken together argue that different patterns of institutional configuration have led to divergent paths of development and that this divergence will have significant implications on the prospects for Chinese national reunification in the twenty first century The Introductory chapter provides a historical discussion on the origins and the transformation of the Chinese triangle during the second half of the twentieth century The remainder of the volume is broken into four topics considered crucial for understanding the transformation of the Chinese triangle economic transformation gender social networks and the Chinese diaspora As globalization impacts the Chinese triangle studies that consider the issues from the perspective of social institutions will be increasingly important to understanding the area as it develops in the world economy
