Race, Ethnicity, and Minority Housing in the United States Jamshid Momeni, 1986-12-03 Although there has been general improvement in America's housing since 1949 when the U S Congress proclaimed the goal of a decent home and suitable living environment for every American family this stated national aim has clearly not been achieved Substandard housing conditions are still prevalent among various racial ethnic and economic groups This book edited by a leading population and housing scholar with contributions from nationally recognized housing experts reviews recent data derived from census reports and housing surveys It focuses on the reasons why the quality and quantity of housing available to blacks Hispanics Asian Americans and American Indians remains significantly below standards for whites **Bibliographic Index**, 2001

Race, Ethnicity, and Consumption Patricia A. Banks, 2020-07-08 *Race Ethnicity and Consumption A Sociological View* looks at the central concerns of consumer culture through the lens of race and ethnicity Each chapter illustrates the connections between race ethnicity and consumption by focusing on a specific theme identity crossing cultures marketing and advertising neighborhoods discrimination and social activism By exploring issues such as multicultural marketing cultural appropriation consumer racial profiling urban food deserts and racialized political consumerism students scholars and other curious readers will gain insight on the ways that racial and ethnic boundaries shape and are shaped by consumption This book goes beyond the typical treatments of race and ethnicity in introductory texts on consumption by not only providing a comprehensive overview of the major theories and concepts that sociologists use to make sense of consumption race and ethnicity but also by examining these themes within distinctly contemporary contexts such as digital platforms and activism Documenting the complexities and contradictions within consumer culture *Race Ethnicity and Consumption* is an excellent text for sociology courses on consumers and consumption race and ethnicity the economy and inequality It will also be an informative resource for courses on consumer culture in the broader social sciences marketing and the humanities Latino Empowerment Roberto E. Villarreal, Norma G. Hernandez, Howard Neighbor, 1988-11-17 This exemplary contribution to the literature on ethnic studies examines the issues surrounding Mexican American political empowerment in the United States The chapters originally contributions to a symposium at the University of Texas in El Paso are uniformly engaging rigorous in their analysis and richly suggestive in their conclusions This exceptionally fine collection discusses the political history of Mexican Americans the role of their interest groups educational models local bureaucracies and electoral strategies Noteworthy are the barriers to Chicano authority found in Los Angeles and Texas Strongly recommended Library Journal This timely book is among the first to be published that directly addresses the political empowerment of Hispanics The contributors concern themselves not only with the progress and problems of political empowerment but also with the prospects of future empowerment the political strategies and agendas for the next decade Conducted by a group of scholars well known for their research on Chicano politics the studies suggest that while substantial

progress has been made in opening political doors to Mexican Americans most of their political potential has yet to be realized The volume begins with an overview of the history of Mexican American political empowerment from 1850 to the present Institutional procedural and ideological barriers to success in American politics for Mexican Americans are reviewed An examination of two major politics for paradigms for educational achievement reflect different views on educational success and failure The bureaucracy of local government and its sensitivity in increasing political representation in Los Angeles the development of political organization and leadership and future legal issues are covered In the conclusion the various perspectives of the contributors are synthesized to point the way to the next level of Mexican American empowerment and ultimately to a general theory of political integration A London Bibliography of the Social Sciences

Owens Smith,1987-11-06 This work covers new ground by presenting a systematic comparative macro analysis of the historical experiences of thirteen race and ethnic groups with emphasis on their economic and political ties to government It starts with the colonial period Anglo Saxons French and Scots Irish and extends to 1970 which can be considered the date at which civil rights legislation began to have a significant effect **Forthcoming Books** Rose Arny,1998 Contemporary federal policy toward American Indians Emma R. Gross,1989 The historical record prior to 1970 clearly shows the failure of the U S government to protect Indian interests or to honor its treaty obligations as mandated under the Constitution In the 1970s however a radical reversal in U S policy took place That policy change and how and why it happened is the subject of the present study Focusing on policy making processes at the national level Emma Gross examines the various contributing factors and explores several theoretical models as a framework for understanding the federal government s new emphasis on promoting self determination and protecting Indian rights and resources The study is based on case analyses of major legislation enacted during the 1970s in areas such as land claims restoration health education and child welfare Following an analysis of the failures of earlier American Indian policy Professor Gross considers the elements that affected the policy shift She looks at the constitutional mandate and the role of legal protections and discusses self determination ideology which became an operative force in generating support for policies reflecting Indian preferences The importance of federal spending for domestic programs is considered together with presidential initiatives congressional advocacy and the role of Indian leaders and organizations functioning as a special interest group In assessing future prospects for the Indian political agenda Professor Gross stresses the need for Indians as a group to continue pursuing their policy goals and objectives through the mechanisms of democratic participation The first analysis to clarify the empirical basis of U S policy making in this area Professor Gross s book is relevant to a variety of specialties in political science as well as the fields of ethnic studies social work education American political history and sociology **Navigating the (Post)Colonial Pathways of Somali Migration to Scotland** Emma Hill,2025-01-06 What happens when migration takes place between sites defined by different types of colonial difference This book asks this question in the context of Somali migration to Scotland which it maps over a century of colonial relations independence movements and the reorganisation of the post colonial Somali and

British states Framing both Somalia and Scotland as sites of marginality in the matrices of colonial power it tracks through a combination of archival material and contemporary testimonies the operation development and divergence of the coloniality of power in shaping Somali migration and citizenship experiences in Scotland However whilst the book has a grounded and localised focus it makes the argument that Somali Scottish migration cases present the urgent need for a holistic approach to the operation of coloniality which not only emanates from the so called centre of Empire but also at and between its edges
