Race in Ancient Egypt and the Old Testament Archibald H. Sayce, R. Peterson, 2004 *Race in Ancient Egypt and the Old Testament* R. Peterson, 1993 **The Races of the Old Testament** Archibald Henry Sayce, 1893 *Old Testament and Ancient Egypt Teacher's Manual* Laurie Detweiler, 2004 **'Race Is Everything'** David Bindman, 2023-07-17 A timely and revealing look at the intertwined histories of science art and racism *Race Is Everything* explores the spurious but influential ideas of so called racial science in the nineteenth and the first half of the twentieth centuries and how art was affected by it David Bindman looks at race in general but with particular concentration on attitudes toward and representations of people of African and Jewish descent He argues that behind all racial ideas of the period lies the belief that outward appearance and especially skull shape as studied in the pseudoscience of phrenology can be correlated with inner character and intelligence and that these could be used to create a seemingly scientific hierarchy of races The book considers many aspects of these beliefs including the skull as a racial marker ancient Egypt as a precedent for Southern slavery Darwin race and aesthetics the purported Mediterranean race the visual aspects of eugenics and the racial politics of Emil Nolde **The Cult of the Seer in the Ancient Middle East** V. MacDermot, 1971 A Contribution to Current Research on Hallucinations Drawn from Coptic and Other Texts *Cushites in the Hebrew Bible* Kevin Burrell, 2020-01-13 *Cushites in the Hebrew Bible* offers a reassessment of Cushite ethnographic representations in the biblical literature as a counterpoint to misconceptions about Africa and people of African descent which are largely a feature of the modern age Whereas current interpretations have tended to emphasize unfavourable portraits of the people biblical writers called Cushites Kevin Burrell illuminates the biblical perspective through a comparative assessment of ancient and modern forms of identity construction Past and present modes of defining difference betray both similarities and differences to ethnic representations in the Hebrew Bible providing important contexts for understanding the biblical view This book contributes to a clearer understanding of the theological historical and ethnic dynamics underpinning representations of Cushites in the Hebrew Bible **A Companion to Ancient Egyptian Art** Melinda K. Archaeological Evidence Gerard Gertoux,2016-02-27 Despite the fact that the name of many characters mentioned in the Old Testament like David King of Israel have been recently confirmed by archaeology as well as their epoch and the events in which they were involved most archaeologists continue to deny the historicity of the Bible they view as pious fiction or a mythical account They argue that the major events in the Bible such as the victory of Abraham against Chedorlaomer an unknown king of Elam around 2000 BCE the victory of Moses against an unknown Pharaoh around 1500 BCE or the victory of Esther an unknown Persian Queen against an unknown vizier of Xerxes never existed because they left absolutely no evidence They also explain that according to what we know today these events could not have occurred These logical arguments are impressive but a precise chronological analysis based on absolute dates coupled with a rigorous historical investigation shows that all those major events really took place at the dates and places indicated Ultimate Deceit of the Human Race Ezzrath Baht Shem,2001

Constructing Race on the Borders of Europe Marsha Morton, Barbara Larson, 2021-03-25 *Constructing Race on the Borders of Europe* investigates the visual imagery of race construction in Scandinavia, Austro-Hungary, Germany and Russia. It covers a period when historic disciplines of ethnography and anthropology were expanding and theorists of race were debating competing conceptions of biological, geographic, linguistic and cultural determinants. Beginning in 1850 and extending into the early 21st century, this book explores how paintings, photographs, prints and other artistic media engaged with these discourses and shaped visual representations of subordinate ethnic populations and material cultures in countries associated with theorizations of white identity. The chapters contribute to postcolonial research by documenting the colonial style treatment of minority groups by exploring the anomalies and complexities that emerge when binary systems are seen from the perspective of the fine and applied arts and by representing the voices of those who produced images or objects that adopted, altered or critiqued ethnographic and anthropological information. In doing so, *Constructing Race on the Borders of Europe* uncovers instances of unexpected connections, establishes the fabricated nature of ethnic identity and challenges the certainties of racial categorization.

The Archaeology of Race Debbie Challis, 2013-03-14 How much was archaeology founded on prejudice? *The Archaeology of Race* explores the application of racial theory to interpret the past in Britain during the late Victorian and Edwardian period. It investigates how material culture from ancient Egypt and Greece was used to validate the construction of racial hierarchies. Specifically focusing on Francis Galton's ideas around inheritance and race, it explores how the Egyptologist Flinders Petrie applied these in his work in Egypt and in his political beliefs. It examines the professional networks formed by societies such as the Anthropological Institute and their widespread use of eugenic ideas in analysing society. *Archaeology of Race* draws on archives and objects from the Petrie Museum of Egyptian Archaeology and the Galton collection at UCL. These collections are used to explore anti-Semitism, skull collecting, New Race theory and physiognomy. These collections give insight into the relationship between Galton and Petrie and place their ideas in historical context.

The Genesis of the Bible Shaka Saye Bambata Dolo, 2012-03-06 This book is about Christianity, Islam, Judaism and how the Arabs and Europeans took these African Religious Belief Systems from ancient Egypt, North Africa and used them during The Trans-Saharan African Slave Trade by the Arabs in the name of Allah and followed by The Transatlantic African Slave Trade by the Europeans in the name of Jesus to enslave the bodies, minds and souls of the African Race. This book is about the Jesus Deception that has been passed on down through history by European historians that is still being taught around the world today. This book identifies the names of the translators of the King James Bible of 1611 A.D. and when the chapters and verses in the Bible were created and who created them.
