Neal, 2006-01-01 Employment protection in Britain once seen as resting on collective bargaining supported by public policy has increasingly come to be framed in terms of individual legal rights enforceable before judicial forums such as employment tribunals This dramatic shift towards juridification of the individual employment relationship has not only contributed towards significant changes to the institutional landscape of employment relations in Britain but also carries important implications for the future of employment law and regulation in the home of collective bargaining This comprehensive evaluation of current institutional reality and trends prepared to mark the 30th anniversary of the Advisory Conciliation and Arbitration Service Acas provides a unique look inside the key institutions of British employment relations Each contributor leading academics and senior practitioners all closely associated with particular institutions locates their institution in terms of purpose origins and context discusses its structure governance and composition and assesses its operation considering current challenges and future direction In the course of examining issues relating to institutional choice and roles the presentations offer contemporary views on the impact of decentralisation and the shrinking of collective bargaining decline in trade union membership and strength and the political effects of increasing global competition The influence of EU social policy initiatives upon British legislative policy is identified while attention is drawn to the consequences of an increased feminisation of the workforce along with an increasing incidence of non standard workers and continuing service sector growth Set alongside the evidence of decline in manufacturing restructuring of the public sector and the growth of the SME sector this volume demonstrates the remarkable pressures for change which have impacted upon the institutions of British employment relations over the past thirty years These essays offer an especially valuable mix of expert independent discussion along with personal insights gained from direct involvement in the operation of the key bodies As a much needed overview and basis for evaluation of the current institutional map of British employment relations as well as a contemporary consideration of lessons to be drawn from the changing institutional face of employment relations in Britain this book will be of inestimable value to policy makers and practitioners in the field as well as to students academics and more generally interested observers of the British experience **Race and Law in Great Britain** Anthony Lester, Geoffrey Bindman, 1972 **Immigration and Social Policy in Britain** Catherine Jones, 2013-10-11 Tavistock Press was established as a co operative venture between the Tavistock
