Flak-Catchers Lindsey Lupo, 2010-12-02. *Flak Catchers* explores the ways in which riot commissions, the institutional bodies appointed by an executive in the aftermath of a race riot to determine a riot timeline, investigate causes and offer prescriptions for change. It has dealt with racial violence in the United States over the last century. In studying five riots and their commissions: Chicago 1919, Harlem 1935, Los Angeles 1965, USA 1967, and Los Angeles 1992, this book shows that riot commissions only serve to give the appearance of strong and responsive government action during uncertain times. They primarily benefit the instituting body by focusing on a restoration of law and order while undermining any larger civil rights message. However, this book also challenges the prevalent idea that riot commissions are all the same by revealing how riot commissions have changed over the last century, shifting in their prominence, content, and focus. After the 1968 Kerner Commission, which studied the 1967 summer riots, it has become increasingly common for the riot commission to fail to answer fundamental questions posed by the crisis.

Hispanic Population of the United States Frank D. Bean, Marta Tienda, 1988-05-26. The Hispanic population in the United States is a richly diverse and changing segment of our national community. Frank Bean and Marta Tienda emphasize a shifting cluster of populations: Mexican, Puerto Rican, Cuban, Central and South American, Spanish, and Caribbean, as they examine fertility and immigration, family and marriage patterns, education, earnings, and employment. They discuss, for instance, the effectiveness of bilingual education, recommending instead culturally supportive programs that will benefit both Hispanic and non-Hispanic students. A study of the geographic distribution of Hispanics shows that their tendency to live in metropolitan areas may, in fact, result in an isolation which denies them equal access to schooling, jobs, and health care. Bean and Tienda offer a critical, much-needed assessment of how Hispanics are faring and what the issues for the future will be. Their findings reveal and reflect differences in the Hispanic population that will influence policy decisions and affect the Hispanic community on regional and national levels. This represents the state of the art for quantitative analysis of ethnic groups in the United States. *American Journal of Sociology*. A Volume in the Russell Sage Foundation Census Series.
