Race Consciousness:

Race Consciousness Judith Jackson Fossett, Jeffrey A. Tucker, 1997 Bringing together an impressive range of new scholarship deeply informed both by the legacies of the past and current intellectual trends Race Consciousness is a veritable Who's Who of the next generation of scholars of African American studies This collection of original essays representing the latest work in African American studies covers such trenchant topics as the culture of America as a culture of race the politics of gender and sexuality legacies of slavery and colonialism crime and welfare politics and African American cultural studies In his Foreword to the volume Robin D G Kelley presents a startling vision of the state of African American Studies and the world in general in the year 2095 Arnold Rampersad and Nell Irvin Painter chart the different disciplinary and theoretical paths African American Studies has taken since the 19th century in their Preface to the volume From publisher's description

Critical Race Consciousness Gary Peller, 2015-10-23 Despite the apparent racial progress reflected in Obama's election the African American community in the United States is in a deep crisis on many fronts economic intellectual cultural and spiritual This book sets out to trace the ideological roots of this crisis Challenging the conventional historical narrative of race in America Peller contends that the structure of contemporary racial discourse was set in the confrontation between liberal integrationism and black nationalism during the 1960s and 1970s Arguing that the ideology of integration that emerged was highly conservative apologetic and harmful to the African American community this book is sure to provide a new lens for studying and learning from American race relations in the twentieth century

Spirituality, Community, and Race Consciousness in Adult Higher Education Timothy Westbrook, 2016-12-08 Drawing on the lived experiences of Black students in adult degree completion programs at predominantly White Christian institutions in the southern United States this book presents a model for reimagining adult higher education Westbrook explores the reasons students enrolled in degree programs how they experience their predominantly white institutions and how their experiences affect their lives Employing Critical Race Theory and Christian theology as frameworks for evaluating the students' experiences the author sheds light on the ways African American experiences to inform critique and shape Christian adult learning in higher education

Race Conscious Pedagogy Todd M. Mealy, 2020-10-12 In 1935 W E B Du Bois asked Does the Negro need separate schools His stunning query spoke to the erasure of cultural relevancy in the classroom and to reassurances given to White supremacy through curricula and pedagogy Two decades later as the Supreme Court ordered public schools to desegregate educators still overlooked the intimations of his question This book reflects upon the role K-12 education has played in enabling America's enduring racial tensions Combining historical analysis personal experience and a theoretical exploration of critical race pedagogy this book calls for placing race at the center of the pedagogical mission

RAISING RACE CONSCIOUSNESS Audrye S. Arbe, 2019-04-30 What propelled me to write this book In addition to being nudged by Spirit and my own Inner Guidance I took a look around What is this fixation on race sex gender religion

class that preoccupies so many of our species Where is our plentiful joy and wonder at the magnificence of Creation More importantly what can we do about any lack of wonder Who are we anyway and why are we here Personally I am fascinated by the diversity and combinations in which we humans flourish with our multitude of talents looks and abilities I love our creativity our amazingly diverse yet similar energies and vibrations To me this variety is something to be honored and treasured a reflection of the artistry and abundance of Creation Despite the beauty that exists within diversity racial sexual gender and so on some of us appear to feel believe and act as if our variety is an issue going so far as to behave inimically toward others who outwardly look or seem different From where do these attitudes stem and where do these perceptions lead Is separation along color sex gender religious lines what anyone truly desires in the core of his or her being It is indicative of a culture with distorted ideas about race that people can even figure out what looking alike and looking different mean How are these differences of coloration interpreted In a culture that loved our multiplicity of being we would have a different conception of alike and different as well as different feelings and vibrations within ourselves We are in a new millennium We have the time space place resonance to be the enlightened beings that we are The choice is open to each and every one of us

Race Against the Court Girardeau A. Spann, 1994-02 Must reading for anyone who seeks a better understanding of the U S Supreme Court's role in race relations policy Choice Beware Those committed to the Supreme Court as the ultimate defender of minority rights should not read Race Against the Court Through a systematic peeling away of antimajoritarian myth Spann reveals why the measure of relief the Court grants victims of racial injustice is determined less by the character of harm suffered by blacks than the degree of disadvantage the relief sought will impose on whites A truly pathbreaking work Derrick Bell As persuasive as it is bold Race Against The Court stands as a necessary warning to a generation of progressives who have come to depend on the Supreme Court of the perils of such dependency It joins with Bruce Ackerman's We the People and John Brigham's Cult of the Court as the best in contemporary work on the Supreme Court Austin Sarat William Nelson Cromwell Professor of Jurisprudence and Political Science Amherst College The controversies surrounding the nominations confirmations and rejections of recent Supreme Court justices and the increasingly conservative nature of the Court have focused attention on the Supreme Court as never before Although the Supreme Court is commonly understood to be the guardian of minority rights against the tyranny of the majority Race Against The Court argues that the Court has never successfully performed this function Rather the actual function of the Court has been to perpetuate the subordination of racial minorities by operating as an undetected agent of majoritarian preferences in the political preferences In this provocative controversial and timely work Girardeau Spann illustrates how the selection process for Supreme Court justices ensures that they will share the political preferences of the elite majority that runs the nation Customary safeguards that are designed to protect the judicial process from majoritarian

predispositions Spann contends cannot successfully insulate judicial decisionmaking from the pervasive societal pressures that exist to discount racial minority interests The case most often cited as the icon of Court sensitivity to minority rights *Brown v Board of Education* has more recently served to lull minorities into believing that efforts at political self determination are futile fostering a seductive dependence and overreliance on the Court as the caretaker of minority rights *Race Against The Court* demonstrates how the Court has centralized the law of affirmative action in a way that stymies minority efforts for meaningful political and economic gain and how it has legitimated the legal status quo in a way that causes minorities never even to question the inevitability of their subordinate social status Spann contends that racial minorities would be better off seeking to advance their interests in the pluralist political process and proposes a novel strategy for minorities to pursue in order to extricate themselves from the seemingly inescapable grasp of Supreme Court protection Certain to generate lively heated debate *Race Against The Court* exposes the veiled majoritarianism of the Supreme Court and the dangers of allowing the Court to formulate our national racial policy

The End of Black Studies Clovis E. Semmes, 2016-08-12 Following a history of racial oppression and segregation Black Americans were able to move in greater numbers into previously all or predominantly White colleges and universities However they encountered normative structures that excluded or distorted the Black experience and denied Black perspectives As a result Black studies grew up reconstructing the humanity of a historically oppressed devalued and exploited group Knowledge production in Black studies offers distinct insights into the strength and resiliency of the human spirit and poses exemplary models for enlightened social change This book examines the foundational parameters and historical mission of the field of African American Studies which emerged from a broad based Black intellectual tradition defined by the metaproblem of cultural hegemony Semmes seeks to broaden our thinking about the scope and content of Black studies *The End of Black Studies* identifies Afrocentric or Black centered approaches to knowledge production that are distinctly different from yet inclusive of a historiographical emphasis on ancient Egypt but alternative to the claim of a singular African worldview This book will appeal to students and scholars interested in the field of Black Studies including African American studies Africana studies Africology and Pan African studies It will be a source of critical discussion for graduate seminars examining theory building and or knowledge production research and writing in Black studies *The End of Black Studies* has received the 2017 Outstanding Book Award from the National Council for Black Studies Read the Introduction for free online using our eBook widget

The Methodist Unification Morris L Davis, 2008-01-01 A ground breaking analysis of the intertwined political racial and religious dynamics in the early twentieth century Methodist Church Wendy J Deichmann Edwards United Theological Seminary Dayton Ohio In 1939 America s three major Methodist Churches sent delegates to Kansas City Missouri for what they called the Uniting Conference They formed the largest and arguably the most powerful Protestant church in the country Yet this newly unified denomination was segregated to its core In *The Methodist Unification* Morris L Davis examines this unification process and

how it came to institutionalize racism and segregation in unprecedented ways Davis shows that Methodists in the early twentieth century including high profile African American clergy were very much against integration Many feared that mixing the races would lead to interracial marriages and threaten the social order of American society The Methodist Unification illuminates the religious culture of Methodism Methodists self identification as the primary carriers of American Christian Civilization and their influence on the crystallization of whiteness during the Jim Crow Era as a legal category and cultural symbol

Rethinking Race Vernon J. Williams Jr.,2021-12-14 In this thought provoking reexamination of the history of racial science Vernon J Williams argues that all current theories of race and race relations can be understood as extensions of or reactions to the theories formulated during the first half of the twentieth century Williams explores these theories in a carefully crafted analysis of Franz Boas and his influence upon his contemporaries especially W E B DuBois Booker T Washington George W Ellis and Robert E Park Historians have long recognized the monumental role Franz Boas played in eviscerating the racist worldview that prevailed in the American social sciences Williams reconsiders the standard portrait of Boas and offers a new understanding of a man who never fully escaped the racist assumptions of 19th century anthropology but nevertheless successfully argued that African Americans could assimilate into American society and that the chief obstacle facing them was not heredity but the prejudice of white America

Mixed Race America and the Law Kevin R. Johnson,2003-02 This ground breaking anthology examines the mixed race experience and the impact of law on mixed race citizens in America

The Subject of Race in American Science Fiction Sharon DeGraw,2006-12-19 While the connections between science fiction and race have largely been neglected by scholars racial identity is a key element of the subjectivity constructed in American SF In his Mars series Edgar Rice Burroughs primarily supported essentialist constructions of racial identity but also included a few elements of racial egalitarianism Writing in the 1930s George S Schuyler revised Burroughs normative SF triangle of white author white audience and white protagonist and promoted an individualistic highly variable concept of race instead While both Burroughs and Schuyler wrote SF focusing on racial identity the largely separate genres of science fiction and African American literature prevented the similarities between the two authors from being adequately acknowledged and explored Beginning in the 1960s Samuel R Delany more fully joined SF and African American literature Delany expands on Schuyler s racial constructionist approach to identity including gender and sexuality in addition to race Critically intertwining the genres of SF and African American literature allows a critique of the racism in the science fiction and a more accurate and positive portrayal of the scientific connections in the African American literature Connecting the popular fiction of Burroughs the

controversial career of Schuyler and the postmodern texts of Delany illuminates a gradual change from a stable essentialist construction of racial identity at the turn of the century to the variable social construction of poststructuralist subjectivity today

Protecting Whiteness Cameron D. Lippard, J. Scott Carter, David G. Embrick, 2020-12-15 Insights into the racialized fear of change in US society The standoff at Cliven Bundy's ranch the rise of white identity activists on college campuses and the viral growth of white nationalist videos on YouTube vividly illustrate the resurgence of white supremacy and overt racism in the United States White resistance to racial equality can be subtle as well like art museums that enforce their boundaries as elite white spaces right on crime policies that impose new modes of surveillance and punishment for people of color and environmental groups whose work reinforces settler colonial norms In this incisive volume twenty four leading sociologists assess contemporary shifts in white attitudes about racial justice in the US Using case studies they investigate the entrenchment of white privilege in institutions new twists in anti equality ideologies and whitelash in the actions of social movements Their examinations of new manifestations of racist aggression help make sense of the larger forces that underpin enduring racial inequalities and how they reinvent themselves for each new generation

Encyclopedia of Race, Ethnicity, and Society Richard T. Schaefer, 2008-03-20 This encyclopedia offers a comprehensive look at the roles race and ethnicity play in society and in our daily lives Over 100 racial and ethnic groups are described with additional thematic essays offering insight into broad topics that cut across group boundaries and which impact on society

America in Denial Lori Latrice Martin, 2021-04-01 In *America in Denial* Lori Latrice Martin examines the myth of a race fair America by reviewing and offering alternatives to universal race neutral programs and policies as well as other allegedly race neutral initiatives By considering policies and programs related to wealth health education and criminal justice while presenting themselves as race neutral Martin reveals that black scholars and politicians in particular seemingly capitulate and have become proponents of these programs and policies that perpetuate the myth of a race fair America This mis use provides cover for elected officials and presidential hopefuls needed to garner the support and authenticity required to increase public support for their initiatives These issues must be unpacked and debunked and the material and nonmaterial harm historically done to black people and still felt today must be acknowledged The idea that programs available to all people will benefit black people is demonstratively untrue and the alternatives presented in *America in Denial* will generate much needed conversations

Performing Race and Erasure Shannon Rose Riley, 2016-06-22 In this book Shannon Rose Riley provides a critically rich investigation of representations of Cuba and Haiti in US culture in order to analyze their significance not only to the emergence of empire but especially to the reconfiguration of US racial structures along increasingly biracial lines Based on impressive research and with extensive analysis of various textual and performance forms including a largely unique set of skits plays songs cultural performances and other popular amusements Riley shows that Cuba and Haiti were particularly meaningful to the ways that people in the US re imagined themselves as black or white and that racial positions

were renegotiated through what she calls acts of palimpsest marking and unmarking racing and erasing difference Riley's book demands a reassessment of the importance of the occupations of Cuba and Haiti to US culture challenging conventional understandings of performance empire and race at the turn of the twentieth century **'Holy' Johnson, Pioneer of**

African Nationalism, 1836-1917 E.A. Ayandele, 2013-09-05 A biography of one of the great 19th century Africans and an insightful analysis of one of the earlier phases of African nationalism **Critical Race Theory** Kimberlé Crenshaw, Neil
