Race State Armed Forces In Independenc:

Race, State, and Armed Forces in Independence-Era Brazil Hendrik Kraay, 2004-08-01 Focusing on the military institutions army militia and National Guard of Bahia Brazil this book analyzes the region's transition from Portuguese colony to province of the Brazilian Empire It examines the social racial and cultural dimensions of post independence state building in one of the principal slave plantation regions of the Americas Contrary to those who stress the autonomy of the Brazilian state this book documents the close connections between the locally organized armed forces and society in the late colonial period Racially segregated and mirroring the class hierarchies of the larger society these military institutions were profoundly transformed by the war for independence in the early 1820s In its aftermath the new Brazilian state gradually built a national army breaking the local orientation of the Bahian regulars by the 1840s The National Guard locally oriented and democratic in its 1831 organization was turned into a state controlled corporation in the 1840s These developments deeply affected the lives of the men and women involved in the armed forces and a main aim of this book is to examine their participation in the complex and convoluted process of state building The liberalism used to justify independence and the creation of an imperial state resonated among ordinary soldiers and officers as it provided an ideology and language with which to challenge important features of late colonial military organization such as racial segregation and corporal punishment Racial discrimination formally eliminated in the 1830s shaped racial politics in the military while the construction of a national army undermined the previously close connections of officers and soldiers to the mainstream of Bahian society

The First Wave of Decolonization Mark Thurner, 2019-05-16 The global phenomenon of decolonization was born in the Americas in the late eighteenth and early nineteenth centuries The First Wave of Decolonization is the first volume in any language to describe and analyze the scope and meanings of decolonization during this formative period It demonstrates that the pioneers of decolonization were not twentieth century Frenchmen or Algerians but nineteenth century Peruvians and Colombians In doing so it vastly expands the horizons of decolonization conventionally understood to be a post war development emanating from Europe The result is a provocative new understanding of the global history of decolonization

State and Nation Making in Latin America and Spain: Volume 1 Miguel A. Centeno, Agustín E. Ferraro, 2013-03-29 This book examines how Latin American countries and Spain tried to build modern and efficient state institutions for more than a century without much success The chapters tell how these countries went about constructing systems of authority that could manage their territories support economic development provide basic services and promote a sense of national community The book can serve as an introduction to nineteenth century Latin America and Spain as a historical guide to the process of state building and as a tool for experts looking for the latest work by leading scholars in the field

The Oxford Handbook of Latin American History Jose C. Moya, 2011 This Oxford Handbook comprehensively examines the field of Latin American history

Iberia and the Americas John Michael Francis, 2005-11-21 This

comprehensive encyclopedia covers the reciprocal effects that the politics foreign policy and culture of Spain Portugal and the American nations have had on one another since the time of Columbus From the discovery of Newfoundland and Labrador by Portuguese explorer Gaspar Corte Real in 1501 to the phenomenal Hollywood careers of Spanish movie stars such as Antonio Banderas and Penelope Cruz Iberia and the Americas traces 500 years of Iberian influence on the Americas and vice versa Featuring six introductory essays and a chronology of key events this three volume encyclopedia examines more than five centuries of transatlantic encounters Students of a wide range of disciplines as well as the lay reader will appreciate this exhaustive survey which traces Spanish and Portuguese influence throughout the Americas and highlights how Iberian cultures have in turn been enriched by the diverse cultures of the Americas Beyond Slavery Darién J. Davis, 2007 *Beyond Slavery* traces the enduring impact and legacy of the African diaspora in Latin America and the Caribbean in the modern era In a rich set of essays the volume explores the multiple ways that Africans have affected political economic and cultural life throughout the region The contributors engage readers interested in the African diaspora in a series of vigorous debates ranging from agency and resistance to transculturation displacement cross national dialogue and popular culture Documenting the array of diverse voices of Afro Latin Americans throughout the region this interdisciplinary book brings to life both their histories and contemporary experiences **The Human Tradition in Modern Brazil** Peter M. Beattie, 2004 *The Human Tradition in Modern Brazil* makes the last two centuries of Brazilian history come alive through the stories of mostly non elite individuals The pieces in this lively collection address how people experienced historical continuities and changes by exploring how they related to the rise of Brazilian national identity and the emergence of a national state By including a broad array of historical actors from different regions ethnicities occupations races genders and eras *The Human Tradition in Modern Brazil* brings a human dimension to major economic political cultural and social transitions Because these perspectives do not always fit with the generalizations made about the predominant attitudes values and beliefs of different groups they bring a welcome complexity to the understanding of Brazilian society and history *Race, State, and Armed Forces in Independence-Era Brazil* Hendrik Kraay, 2022 Focusing on the military institutions army militia and National Guard of Bahia Brazil this book analyzes the region s transition from Portuguese colony to province of the Brazilian Empire It examines the social racial and cultural dimensions of post independence state building in one of the principal slave plantation regions of the Americas Contrary to those who stress the autonomy of the Brazilian state this book documents the close connections between the locally organized armed forces and society in the late colonial period Racially segregated and mirroring the class hierarchies of the larger society these military institutions were profoundly transformed by the war for independence in the early 1820s In its aftermath the new Brazilian state gradually built a national army breaking the local orientation of the Bahian regulars by the 1840s The National Guard locally oriented and democratic in its 1831 organization was turned into a state controlled corporation in the 1840s These

developments deeply affected the lives of the men and women involved in the armed forces and a main aim of this book is to examine their participation in the complex and convoluted process of state building The liberalism used to justify independence and the creation of an imperial state resonated among ordinary soldiers and officers as it provided an ideology and language with which to challenge important features of late colonial military organization such as racial segregation and corporal punishment Racial discrimination formally eliminated in the 1830s shaped racial politics in the military while the construction of a national army undermined the previously close connections of officers and soldiers to the mainstream of Bahian society

Integration of the Armed Forces, 1940-1965 Morris J. MacGregor, 2020-06-18 In the quarter century that followed American entry into World War II the nation's armed forces moved from the reluctant inclusion of a few segregated Negroes to their routine acceptance in a racially integrated military establishment Nor was this change confined to military installations By the time it was over the armed forces had redefined their traditional obligation for the welfare of their members to include a promise of equal treatment for black servicemen wherever they might be In the name of equality of treatment and opportunity the Department of Defense began to challenge racial injustices deeply rooted in American society For all its sweeping implications equality in the armed forces obviously had its pragmatic aspects In one sense it was a practical answer to pressing political problems that had plagued several national administrations In another it was the services expression of those liberalizing tendencies that were permeating American society during the era of civil rights activism But to a considerable extent the policy of racial equality that evolved in this quarter century was also a response to the need for military efficiency So easy did it become to demonstrate the connection between inefficiency and discrimination that even when other reasons existed military efficiency was the one most often evoked by defense officials to justify a change in racial policy

x000D Morris J MacGregor Jr received the A B and M A degrees in history from the Catholic University of America He continued his graduate studies at the Johns Hopkins

University and the University of Paris on a Fulbright grant Before joining the staff of the U S Army Center of Military History in 1968 he served for ten years in the Historical Division of the Joint Chiefs of Staff Ethnicity, Integration And The Military Henry Dietz,2021-11-28 This book examines the role of the military in encouraging or impeding social integration and the ways in which the military enter into ethnic cleavages and conflicts It offers some conclusions concerning these and related topics based on studies of a variety of countries including the United States Israel Greece Turkey Ethiopia Nigeria India and the People s Republic of China Each chapter utilizes a common framework of questions as a basis for analysis facilitating cross national comparisons This book should prove of interest to students and observers of militaries around the world as well as anyone interested in questions of ethnicity and integration **Nationalism in the New World** Don Harrison Doyle,Marco Antonio Vilella Pamplona,2006 Nationalism in the New World brings together work by scholars from the United States Canada Latin America and Europe to discuss the common problem of how the nations of the Americas grappled with the basic questions of nationalism Who are we How do we imagine ourselves as a nation Debates over the origins and meanings of nationalism have emerged at the forefront of the humanities and social sciences over the past two decades However these discussions have been mostly about nations in Europe the Middle East Asia or Africa In addition their focus is usually on the violence spawned by ethnic and religious strains of nationalism which have been largely absent in the Americas The contributors to this volume Americanize the conversation on nationalism They ask how the countries of the Americas fit into the larger world of nations and in what ways they present distinctive forms of nationhood Such questions are particularly important because as the editors write the American nations that came into being in the wake of revolutions that shook the Atlantic world beginning in 1776 provided models of what the modern world might become American nations were among the first nation states to emerge on the world stage As former colonies with multiethnic populations American nations could not logically rest their claim to nationhood on ancient bonds of blood and history Out of a world of empires and colonies the independent states of the Americas forged new nations based on a varied mix of modern civic ideals instead of primordial myths on ethnic and religious diversity instead of common descent and on future hopes rather than ancient roots

The Reckoning Robin Blackburn,2024-02-20 Tremendously impressive the result of a lifetime of learning Historical writing at its best Marcus Rediker author of *The Slave Ship* A history of 19th century slavery in the US Brazil and Cuba from a critically acclaimed historian of slavery in the Americas *The Reckoning* offers the first rounded account of the rise and fall of the Second Slavery largescale plantation slavery in nineteenth century Brazil Cuba and the US South Robin Blackburn shows how a fusion of industrial capitalism and transatlantic war and revolution turbo charged racial oppression and the westwards expansion of the United States Blackburn identifies the new territories new victims and new battle cries of the Second Slavery He emphasises the role of financial credit in the spread of plantation agriculture traces the connections between slavery and the US Civil War and asks why Brazil threw off Portuguese rule whereas Cuba became one of imperial

Spain's final outposts The Second Slavery faced a fearful reckoning in the 1860s and after when the supposedly invincible Slave Power was defied by extraordinary cross class international and interracial alliances Blackburn narrates the abolitionists difficult victory over the enslavers while documenting the racial backlash which brought on Jim Crow and cheated the freedmen and freedwomen of the fruits of their struggle

Martial races of undivided India Vidya Prakash Tyagi, 2009

I Die with My Country Hendrik Kraay, Thomas Whigham, 2004-01-01

The Paraguayan War 1864-70 was the most extensive and profound interstate war ever fought in South America It directly involved the four countries of Brazil Argentina Uruguay and Paraguay and took the lives of hundreds of thousands combatants and noncombatants alike While the war still stirs emotions on the southern continent until today few scholars from outside the region have taken on the daunting task of analyzing the conflict In this compilation of ten essays historians from Canada the United States Germany Argentina Brazil and Uruguay address its many tragic complexities Each scholar examines a particular facet of the war including military mobilization home front activities the war's effects on political culture war photography draft resistance race issues state formation and the role of women in the war The editors introduction provides a balance to the many perspectives collected here while simultaneously integrating them into a comprehensible whole thus making the book a compelling read for social historians and military buffs alike

Encyclopedia of Race, Ethnicity, and Society Richard T. Schaefer, 2008-03-20

This ambitious undertaking touches all bases is highly accessible and provides a solid starting point for further exploration School Library Journal This three volume reference presents a comprehensive look at the role race and ethnicity play in society and in our daily lives The Encyclopedia of Race Ethnicity and Society offers informative coverage of intergroup relations in the United States and the comparative examination of race and ethnicity worldwide Containing nearly 600 entries this resource provides a foundation to understanding as well as researching racial and ethnic diversity from a multidisciplinary perspective

Key Features Describes over a hundred racial and ethnic groups with additional thematic essays discussing broad topics that cut across group boundaries and impact society at large Addresses other issues of inequality that often intersect with the primary focus on race and ethnicity such as ability age class gender and sexual orientation Brings together the most distinguished authorities possible with 375 contributors from 14 different countries Offers broad historical coverage ranging from Kennewick Man to the Emancipation Proclamation to Hip Hop Presents over 90 maps to help the reader comprehend the source of nationalities or the distribution of ethnic or racial groups Provides an easy to use statistical appendix with the latest data and carefully selected historical comparisons

Key Themes Biographies Community and Urban Issues Concepts and Theories Criminal Justice Economics and Stratification Education Gender and Family Global Perspectives Health and Social Welfare Immigration and Citizenship Legislation Court Decisions and Treaties Media Sports and Entertainment Organizations Prejudice and Discrimination Public Policy Racial Ethnic and Nationality Groups Religion Sociopolitical Movements and Conflicts

Uneasy Military Encounters Ruth Streicher, 2020-10-15 *Uneasy Military Encounters* presents a historically and theoretically grounded political ethnography of the Thai military's counterinsurgency practices in the southern borderland home to the greater part of the Malay Muslim minority. Ruth Streicher argues that counterinsurgency practices mark the southern population as the racialized religious and gendered other of the Thai, which contributes to producing Thailand as an imperial formation, a state formation based on essentialized difference between the Thai and their others. Through a genealogical approach, *Uneasy Military Encounters* addresses broad conceptual questions of imperial politics in a non-Western context: How can we understand imperial policing in a country that was never colonized? How is Islam constructed in a state that is officially secular and promotes Buddhist tolerance? What are the historical dynamics of imperial patriarchy in a context internationally known for its gender pluralism? The resulting ethnography excavates the imperial politics of concrete encounters between the military and the southern population in the ongoing conflict in southern Thailand. **International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences**, 2004. *United States Army Military Government, South Korea Interim Government Activities*. United States. War Department,

Decoding **Race State Armed Forces In Independenc**: Revealing the Captivating Potential of Verbal Expression
