

RACIAL FACTORS IN AMERICAN INDUSTRY

HERMAN FELDMAN

*Professor of Industrial Relations
The Johns Hopkins School of Administration and Finance
Baltimore, Md.*

Raymond B. Foxdick

In his Foreword, says of this book:

"The evidence which the authors have marshalled in regard to present conditions is far from reassuring. Their picture of the economic exploitation of the Negro and the Oriental, of the racial prejudice which determines the work and pay of these 'inferior' races, of the careless descriptions and easy going indifference which fix their status and environment in the communities where they live, is not a picture in which Americans can take any pride.

"Fortunately the authors do not limit their discussion to a portrayal of existing misadjustments. Part II is an outline of social and industrial remedies—a constructive statement on the possible steps to be taken both by the community and by industry.

"If we succeed in achieving some measure of tolerance in the future and leading a fairer economic life for all within our borders, it will be because research of this type has developed an understanding of the problem and a technique for meeting it.

"On the whole I doubt if a more thought-provoking and more significant book has been published in many months.

Racial Factors In American Industry:

Racial Factors in American Industry Herman Feldman, Bruno Lasker, 1931 *Poverty, Ethnicity and the American City, 1840-1925* David Ward, 1989-02-24 David Ward examines the geographical relationship between migrants and the inner city and the creation of slums and ghettos **Industrial and Labor Problems ...** Russell Sage Foundation. Library, 1928

Racial Factors in American Industry Herman Feldman, 1931 *Black Americans and Organized Labor* Paul D. Moreno, 2008-01-01 In *Black Americans and Organized Labor* Paul D. Moreno offers a bold reinterpretation of the role of race and racial discrimination in the American labor movement. Moreno applies insights of the law and economics movement to formulate a powerfully compelling labor race theorem of elegant simplicity. White unionists found that race was a convenient basis on which to do what unions do: control the labor supply. Not racism pure and simple but the economics of discrimination explains historic black absence and underrepresentation in unions. Moreno's sweeping reexamination stretches from the antebellum period to the present, integrating principal figures such as Frederick Douglass and Samuel Gompers, Isaac Myers and Booker T. Washington and W. E. B. Du Bois and A. Philip Randolph. He traces changing attitudes and practices during the simultaneous black migration to the North and consolidation of organized labor's power through the confusing and conflicted post-World War II period, during the course of the civil rights movement and into the era of affirmative action. Maneuvering across a wide span of time and a broad array of issues, Moreno brings remarkable clarity to the question of the importance of race in unions. He impressively weaves together labor policy and African American history into a cogent persuasive revisionist study that cannot be ignored. **On Work, Race, and the Sociological Imagination** Everett C.

Hughes, 1994-09-15 The writings in this volume highlight Hughes's contributions to the sociology of work and professions, race and ethnicity and the central themes and methods of the discipline. Hughes was the first sociologist to pay sustained attention to occupations as a field for study and wrote frequently and searchingly about them. Several of the essays in this collection helped orient the first generation of Black sociologists, including Franklin Frazier, St. Clair Drake and Horace Cayton. [American Journal of Public Health](#), 1924 Includes section Books and reports **Journal of the American**

Public Health Association, 1924 *Monthly Labor Review*, 1974 Publishes in depth articles on labor subjects, current labor statistics, information about current labor contracts and book reviews **Breeding Better Vermonters** Nancy L.

Gallagher, 1999 The disturbing story of eugenics in Vermont and the dark side of progressive social reform **Beyond Resistance** Robert Fletcher, 2007 This thought-provoking book is divided into two parts, each of which contains four chapters. In Part I, titled *Rethinking Resistance*, contributors assert that resistance continues to hold utility as both an analytic concept and mode of action in the world and therefore demands renewed engagement. Part II contains essays that offer novel frames for addressing progressive social change that might serve to replace resistance entirely and thus is entitled *Thinking Beyond*

Opportunity Elmer Anderson Carter, 1929 *Working Toward Whiteness* David R. Roediger, 2006-08-08 How did

immigrants to the United States come to see themselves as white David R Roediger has been in the vanguard of the study of race and labor in American history for decades He first came to prominence as the author of *The Wages of Whiteness* a classic study of racism in the development of a white working class in nineteenth century America In *Working Toward Whiteness* Roediger continues that history into the twentieth century He recounts how ethnic groups considered white today including Jewish Italian and Polish Americans were once viewed as undesirables by the WASP establishment in the United States They eventually became part of white America through the nascent labor movement New Deal reforms and a rise in home buying Once assimilated as fully white many of them adopted the racism of those whites who formerly looked down on them as inferior From ethnic slurs to racially restrictive covenants the real estate agreements that ensured all white neighborhoods Roediger explores the mechanisms by which immigrants came to enjoy the privileges of being white in America A disturbing necessary masterful history *Working Toward Whiteness* uses the past to illuminate the present In an Introduction to the 2018 edition Roediger considers the resonance of the book in the age of Trump showing how *Working Toward Whiteness* remains as relevant as ever even though most migrants today are not from Europe
