Discrimination and Privacy in the Information Society Bart Custers, Toon Calders, Bart Schermer, Tal Zarsky, 2012-08-11
Vast amounts of data are nowadays collected stored and processed in an effort to assist in making a variety of administrative and governmental decisions These innovative steps considerably improve the speed effectiveness and quality of decisions Analyses are increasingly performed by data mining and profiling technologies that statistically and automatically determine patterns and trends However when such practices lead to unwanted or unjustified selections they may result in unacceptable forms of discrimination Processing vast amounts of data may lead to situations in which data controllers know many of the characteristics behaviors and whereabouts of people In some cases analysts might know more about individuals than these individuals know about themselves Judging people by their digital identities sheds a different light on our views of privacy and data protection This book discusses discrimination and privacy issues related to data mining and profiling practices It provides technological and regulatory solutions to problems which arise in these innovative contexts The book explains that common measures for mitigating privacy and discrimination such as access controls and anonymity fail to properly resolve privacy and discrimination concerns Therefore new solutions focusing on technology design transparency and accountability are called for and set forth

Measuring Racial Discrimination National Research Council, Division of Behavioral and Social Sciences and Education, Committee on National Statistics, Panel on Methods for Assessing Discrimination, 2004-06-24 Many racial and ethnic groups in the United States including blacks Hispanics Asians American Indians and others have historically faced severe discrimination pervasive and open denial of civil social political educational and economic opportunities Today large differences among racial and ethnic groups continue to exist in employment income and wealth housing education criminal justice health and other areas While many factors may contribute to such differences their size and extent suggest that various forms of discriminatory treatment persist in U S society and serve to undercut the achievement of equal opportunity Measuring Racial Discrimination considers the definition of race and racial discrimination reviews the existing techniques used to measure racial discrimination and identifies new tools and areas for future research The book conducts a thorough evaluation of current methodologies for a wide range of circumstances in which racial discrimination may occur and makes recommendations on how to better assess the presence and effects of discrimination

Multiracials and Civil Rights Tanya Katerí Hernandez, 2021-01-19 Narratives of mixed race people bringing claims of racial discrimination in court illuminating traditional understandings of civil rights law As the mixed race population in the United States grows public fascination with multiracial identity has promoted the belief that racial mixture will destroy racism However multiracial people still face discrimination Many legal scholars hold that this is distinct from the discrimination faced by people of other races and traditional civil rights laws built on a strict black white binary need to be reformed to account for cases of discrimination against those identifying as mixed race In *Multiracials and Civil Rights* Tanya Kater Hernandez debunks this idea and draws on a plethora of court cases to demonstrate that multiracials face the same types of discrimination as other racial groups Hernandez argues that multiracial people are primarily targeted for discrimination due to their non whiteness and shows how the cases highlight the need to support the existing legal structures instead of a new understanding of civil rights law The legal and political analysis is enriched with Hernandez s own personal narrative as a mixed race Afro Latina Coming at a time when explicit racism is resurfacing Hernandez s look at multiracial discrimination cases is essential for fortifying the focus of civil rights law on racial privilege and the lingering legacy of bias against non whites and has much to teach us about how to move towards a more egalitarian society

Adolescence, Discrimination, and the Law Roger J.R. Levesque, 2017-05 Explores the shifts and the research used to support civil rights claims of discrimination particularly relating to minority youths rights to equal treatment In the wake of the civil rights movement the legal system dramatically changed its response to discrimination based on race gender and other characteristics It is now showing signs of yet another dramatic shift as it moves from considering difference to focusing on neutrality Rather than seeking to counter subjugation

through special protections for groups that have been historically and currently disadvantaged the Court now adopts a colorblind approach Equality now means treating everyone the same way This book explores these shifts and the research used to support civil rights claims particularly relating to minority youths rights to equal treatment It integrates developmental theory with work on legal equality and discrimination showing both how the legal system can benefit from new research on development and how the legal system itself can work to address invidious discrimination given its significant influence on adolescents especially those who are racial minorities at a key stage in their developmental life Adolescents Discrimination and the Law articulates the need to address discrimination by recognizing and enlisting the law s inculcative powers in multiple sites subject to legal regulation ranging from families schools health and justice systems to religious and community groups The legal system may champion ideals of neutrality in the goals it sets itself for treating individuals but it cannot remain neutral in the values it supports and imparts This volume shows that despite the shift to a focus on neutrality the Court can and should effectively foster values supporting equality especially among youth
