Racism And Migration In Western Europe:

Racism and Migration in Western Europe John Wrench, 1993-12-21 In contemporary European societies the question of racism linked to the politicization of migration is a major issue in social and political debate This volume provides a critical overview of the processes that have led to the present situation and explores some of the options for the future **Europe's New Racism** Evens Foundation, 2002-06 Europe has seen a tremendous rise in popularity of new rightist political parties in the last two decades or so claiming cultural supremacy of the so called native Europeans over foreign immigrants In this volume European scholars from Russia to Britain have come together to examine the media and social and legal policies in an effort to determine the causes of this resurgence of rightist and anti democratic ideologies They furthermore suggest actions that might help combat racism more effectively The New Migration in Europe Khalid Koser, Helma Lutz, 1998-06-12 Recent migration in Europe has a whole range of characteristics which are said to distinguish it from earlier migration and the description new migration is often used Based on a wide range of empirical case studies of the new migration this book asks three critical questions To what extent is the description new conceptually valid How is the new migration defined and by whom How is the new migration experienced by migrants themselves *Europe's new racism? : causes, manifestations and solutions*, 2002 **Trade Unions, Immigration, and Immigrants in Europe, 1960-1993** Rinus Penninx, Judith Roosblad, 2000 Contains nine essays which discuss 1 resistance and cooperation regarding the employment of foreign workers 2 inclusion and exclusion of foreign workers within trade unions and 3 the adoption of equal treatment or special measures for foreign workers Caribbean Migration to Western Europe and the United States Margarita Cervantes-Rodriguez, Ramon Grosfoguel, Eric H Mielants, 2008-12-20 A novel and interdisciplinary volume on the dynamics of migration with comparative case studies of the Caribbean experience **Migration and Race in Europe** Martin Bulmer, John Solomos, 2020-05-21 Migration and Race in Europe covers various facets of the interplay between migration and race in Europe Over the past two decades there has been a growing public policy and political debate about questions linked to migration and refugee movements across the borders of Europe This has been evident in countries such as the UK France the Netherlands and Germany that have had long established experience with questions about immigration and race But what has also become clear is that these debates have also become an established part of political and civil society discourses across both Southern and Eastern European societies and beyond The contributions to this volume draw on the latest research in order to provide an insight into the changing dynamics of migration and race in a number of European societies This book was originally published as a special issue of Ethnic and Racial Studies **Immigrants and National Identity in Europe** Anna Triandafyllidou, 2003-08-29 The author reviews main theories of nationalism and criticises their lack of elaboration on the role of Others in nation formation Drawing upon anthropological sociological and social psychological perspectives she develops a dynamic relational perspective for the study of national theory

Comparative Perspectives on Racism Jessika ter Wal, Maykel Verkuyten, 2019-06-04 This title was first published in 2000 The book gives a discussion and many empirical examples of the possibilities for comparative research on racism In the book the questions and problems are discussed and the relative costs and benefits of comparative research are pointed out The question on what should be considered and solved when doing comparative research is central and the different chapters give specific answers Moreover the comparative issue is also raised with respect to the monitoring of racism in different countries and to initiatives for combating racism

Intercultural Europe Jagdish Gundara, Sydney Jacobs, 2019-06-11 This title was first published in 2000 The essays in this text examine interculturalism in Europe focusing on social diversity and social policy within the European Union Issues addressed include racism and social policy migrant communities in Europe ethnic diversity intercultural education and housing and segregation

Migration and the Refugee Dissensus in Europe Nicos Trimikliniotis, 2019-09-25 This book provides an explanation for the fundamental disagreement pertaining to immigration and asylum in Europe Since the collapse of consensus with the end of the Cold War immigration and asylum have increasingly emerged as a central socio political issue in Europe The present work attempts to move beyond the complexity of managing migratory flows by focusing on the most daunting issues arising from the response to the refugee crisis in Europe This debate is intimately connected to borders security belonging citizenship and labour precarity inequality The book addresses some crucial dimensions related to the migration and asylum dissensus by providing an integrated frame of analysis from the point of view of resistance rather than that of power It connects notions of belonging and the migrant integration with the processes of de democratisation racist populism citizenship and authoritarian migration regimes and contributes towards a theory of the asylum and immigration dissensus by examining the potential for transition towards a society of equality and rights The author proposes that the encounter s with surplus populations in Europe which result in the multiplication of liminal regimes as well as spaces for resistance generates potential for social imaginaries promising a society unimaginable in previous epochs This book will be of much interest to students of migration and border studies global governance European politics and International Relations

Moving Europeans, Second Edition Leslie Page Moch, 2003 Leslie Moch tells the story of the vast movements of people throughout Europe and examines the links between human mobility and the fundamental changes that transformed European life

Illegal Immigration in America David W. Haines, Karen Rosenblum, 1999-10-30 Few issues have provoked as much controversy over the last decade as illegal immigration While some argue for the need to seal America s borders and withdraw all forms of social and governmental support for illegal migrants and their children others argue for humanitarian treatment including legalization for people who fill widely acknowledged needs in American industry and agriculture and have left home country situations of economic hardship or political persecution The study of illegal immigration necessarily confronts a broad range of migrants from the familiar border crossers to those who enter illegally and overstay their visas to the many unrecognized refugees who enter

the country to seek protection under U S asylum law The subject also demands attention to American society s responses to these newcomers responses that often focus on limited elements of a complex issue A comprehensive up to date review of this volatile subject this book provides an accessible balanced introduction to the subject Covering the full range of illegal immigrants from Mexican border crossers to Central American refugees illegal Europeans and smuggled Chinese the book considers the kind of work the migrants do and the public response to them The work is divided into four parts Concepts Policies and Numbers The Migrants and Their Work The Responses and Illegal Immigration in Perspective *West European Immigration and Immigrant Policy in the New Century* Anthony M. Messina,2002-06-30 Few if any phenomena affecting Western Europe as a whole since 1945 have been more far reaching in their immediate effects or more potentially destabilizing to politics and society over the long term than the accumulative experience of immigration Messina and his contributors analyze why the major immigrant receiving states of Western Europe historically permitted and often abetted relatively high levels of postwar migration and they assess how contemporary governments attempt to govern immigration flows and manage the domestic social and political fallout which it inevitably yields The central purpose of the volume is to address these questions within the context of the decision making logics that have demonstratively governed postwar migration to Western Europe in each of its three distinct but interrelated waves or phases labor migration family migration and humanitarian or forced migration Messina demonstrates that postwar migration to Western Europe in all of its phases has been governed by a set of mutually reinforcing and mostly compatible logics Of these the economic the humanitarian and the political the political has predominated over time and is likely to continue doing so into the indefinite future A major cross disciplinary analysis that will appeal to political scientists sociologists and general researchers and scholars of ethnicity race relations and comparative public policy **The Impact of Radical Right-Wing Parties in West European Democracies** M. Williams,2006-09-02 This book contends that far right parties play pivotal roles in setting the tone of political debates shaping the political party system and structuring government policy Increasingly as national governments attempt to cope with new realities of greater global migration strained welfare states and threats of foreign terror opportunities have opened for parties of the far right to position themselves strategically **Racist Violence and the State** Rob Witte,2014-09-11 Racist Violence and the State is the first serious study to apply a comparative research based approach to the study of racist violence in Britain France and The Netherlands since 1945 Setting racist violence within a historical background of the post imperialist legacy the author presents an accessible fascinating and highly original analysis of the development of public and state attitudes to racist violence over the past 50 years *The Cambridge Survey of World Migration* Robin Cohen,1995-11-02 This extensive survey of migration in the modern world begins in the sixteenth century with the establishment of European colonies overseas and covers the history of migration to the late twentieth century when global communications and transport systems stimulated immense and complex flows of labour migrants and skilled

professionals In ninety five contributions leading scholars from twenty seven different countries consider a wide variety of issues including migration patterns the flights of refugees and illegal migration Each entry is a substantive essay supported by up to date bibliographies tables plates maps and figures As the most wide ranging coverage of migration in a single volume *The Cambridge Survey of World Migration* will be an indispensable reference tool for scholars and students in the field

Migrants, Ethnic Minorities and the Labour Market John Wrench, Andrea Rea, Nouria Ouali, 2016-07-27 This book examines racial and ethnic discrimination in the labour markets and workplaces of western Europe Scholars from ten different countries set out the experience and implications of this exclusion for two main groups the more established second and third generations of postwar migrant descent and the new migrants including seasonal and undocumented workers and refugees who are vulnerable to extreme exploitation and unregulated working environments The book finishes by addressing the implications of these issues for trade unions and employers in Europe

Philosophies of Integration Adrian Favell, 2016-02-17 A comprehensive comparative study of the distinct ideas and political arguments that have shaped French and British policies towards their ethnic minorities and the effects of these intellectual frameworks at local national and European levels Charting the politics and events that brought the respective institutional solutions together the author sets out the divergent conceptualisations of citizenship nationality pluralism autonomy public order and tolerance that make up the national philosophies in the two countries republican integration in France and multicultural race relations in Britain This new edition published in paperback contains a new preface bringing the volume up to date in the light of new legislation and progress

The European Ritual Anthony King, 2017-03-02 Football constitutes a vivid public ritual in contemporary European culture through which emergent social solidarities and new economic networks have come into being This fascinating and unique volume traces the transformation of European football from the 1950s to the present focusing in particular on the dramatic changes that have occurred in the last decade and linking them to the wider process of European integration The examination of football illuminates how the growing dominance of the free market has changed European society from an international order in which the nation state was dominant to a more complex transnational regime in which cities and regions are becoming more prominent than in the past The study is supported by detailed ethnographic accounts emerging from the author's fieldwork at Manchester United and interview data with some of the most important figures in European football at clubs including Juventus Milan Bayern Munich Schalke and Barcelona It also includes a highly topical examination of racism in European football
