Racism From Slavery To Advanced Capitalism:

Racism Carter A. Wilson, 1996-08-20 An explanation of the phenomenon of racism throughout history is sought in this book Carter A Wilson draws on and integrates the considerable literature on racism which has originated from economic political and cultural realms In doing so he addresses four major goals to resolve the major debates surrounding racism to demystify racism to provide an understanding of how racism has been sustained in various historical eras and to discuss how racism takes on different forms throughout history

Decoding Racial Ideology in Genomics Johnny E.

Williams, 2016-05-27 Although the human genome exists apart from society knowledge about it is produced through socially created language and interactions As such genomicists thinking is informed by their inability to escape the wake of the race concept This book investigates how racism makes genomics and how genomics makes racism and race and the consequences of these constructions Specifically Williams explores how racial ideology works in genomics The simple assumption that frames the book is that race as an ideology justifying a system of oppression is persistently recreated as a practical and familiar way to understand biological reality This book reveals that genomicists preoccupation with race regardless of good or ill intent contributes to its perception as a category of differences that is scientifically rigorous

The Black Marxist Feminism of bell hooks Hue Woodson, 2024-12-27 This book explores bell hooks trajectory of work and cohesiveness of thought about the meaning and meaningfulness of black womanhood in terms of a Black Marxist feminism which uniquely confronts the dimensions of feminism and womanism the relations between the secular and the religious the problems of gender and sexism and the structural and systemic issues of oppression domination white supremacy and capitalism In making sense of black womanhood in its philosophical social cultural institutional and historical complexities hooks Black Marxist feminism constructs an intersectional theory about what hooks describes as white supremacist capitalist patriarchy In this sense hooks Black Marxist feminism conceptualizes the ways and means by which white supremacist capitalist patriarchy imposes intersectional predicaments upon black womanhood drawing foundationally on Karl Marx and Fredrich Engels working within the purview of a host of Marxisms in Antonio Gramsci Louis Althusser Karl Kautsky Nikolai Bukharin and Georgi Plekhanov and speaking to the Marxist proclivities of Cedric Robinson Cornel West Charles W Mills James H Cone Stuart Hall and Angela Y Davis

Color Struck Julius O. Adegunle, Hettie V. Williams, 2010-02-24 Color Struck Essays of Race and Ethnicity in Global Perspective is a compilation of expositions on race and ethnicity written from multiple disciplinary approaches including history sociology women s studies and anthropology This book is organized around a topical chronological framework and is divided into three sections beginning with the earliest times to the contemporary world The term race has nearly become synonymous with the word ethnicity given the most recent findings in the study of human genetics that have led to the mapping of human DNA Color Struck attempts to answer questions and provide scholarly insight into issues related to race and ethnicity

Islamophobia and Radicalisation Tahir Abbas, 2019 Since the

1970s there have been three challenges to traditional homogeneous national identities across the Western world political and socioeconomic inequality neoliberal globalization and more diverse multicultural societies As in the US and elsewhere in Western Europe the decline of an old masculinized national identity has now begun to open a new dark era for Britain Ever since the war on terror was added to the mix others in Britain have been brutally demonized Muslims routinely presented as the source of society's ills are subjected to both symbolic and actual violence Deep seated and structurally racialized norms amplify the isolation and alienation impeding Muslim integration Both these left behind Muslims and white British groups who perceive themselves as the true nation are under pressure from ongoing geopolitical concerns in the Muslim world as well as widening divisions at home Tahir Abbas argues that in this context the symbiotic intersections between Islamophobia and radicalization intensify and expand His book is a warning of the world that results a rise in hate crime the institutionalization of Islamophobia and the normalization of war and conflict **Natchitoches Parish** Rolonda D.

Teal, 2012-09-18 From 1722 to the present thousands of people of African descent have occupied the region that today encompasses Natchitoches Parish For almost 300 years African Americans have made significant contributions to the area's economic and social development In Natchitoches Parish the lives of some of those individuals are documented as they share their views on work religion education socialization and community leadership *Race and Place in Birmingham* Bobby M. Wilson, 2000 This pioneering book explores the implications of postmodernism for the black community through an analysis of the civil rights and neighborhood movements in Birmingham Alabama Grounded not only in class struggle the Civil Rights Movement was tied to the politics of racial identity the neighborhood movement to the politics of place identity Bobby M. Wilson critically examines these two movements which together transformed race and place in Birmingham He shows that although the civil rights struggle and neighborhood empowerment served a valuable purpose they cannot now overcome post-Fordist forces of domination and exclusion Successful political movements the author argues must venture beyond the politics of identity and difference based on race and neighborhood Racial Discrimination Masoud Kamali, 2010-08-18

There is an institutionalized dilemma in Europe that counteracts social cohesion and stability It is a result of the collision and incompatibility between declarations of universal values such as human rights and democracy and institutionalized actions which exclude and discriminate against Europeans of immigrant background and against ethnic minorities This book analyzes the institutional patterns and politics of racial discrimination in modern day Europe Based on a research project that has been carried out under the leadership of the author in eight European countries Racial Discrimination seeks the answers to some of the key questions posed by the latest developments in European political and public spheres concerning immigration and the increase in xenophobic sentiments and parties The book will appeal to all social and political scientists interested in the latest political developments in Europe and in the problems of democratic citizenship and the efforts to move toward an integrated European community **Globalization, Urbanization, and Civil Society** Bagoes

Wiryomartono,2023-05-15 Globalization Urbanization and Civil Society is an interdisciplinary compilation of chapters concerning civil society in the global geopolitical context The establishment of civil society is essential for urbanism and the global community because it is the sense and essence of development concerning what humankind is as a collective entity on the globe This thought provoking book covers the multidimensional aspects issues challenges and consequences of geopolitics and globalization on civil society including freedom in the public sphere alienation neo fascism social cohesion racial inequality political narcissism political economic exceptionalism Islamic radicalism social justice and resistance The author brings a fresh and essentially non Western critical perspective to bear on the fundamental challenges faced by civil society as a result of the globalization of corporate capitalism in the Digital Age as well as providing a rich perspective on colonialism This book will appeal to scholars and graduate students of geopolitics and globalization global development sociology international relations cultural studies psychology and philosophy as well as practitioners and policymakers who are interested in interdisciplinary approaches in the field of global studies

Globalization and the Critique of Political Economy Lucia Pradella,2014-11-27 The nature of the contemporary global political economy and the significance of the current crisis are a matter of wide ranging intellectual and political debate which has contributed to a revival of interest in Marx s critique of political economy This book interrogates such a critique within the broader framework of the history of political economy and offers a new appreciation of its contemporary relevance A distinctive feature of this study is its use of the new historical critical edition of the writings of Marx and Engels MEGA2 their partially unpublished notebooks in particular The sheer volume of this material forces a renewed encounter with Marx It demonstrates that the international sphere and non European societies had an increasing importance in his research which developed the scientific elements elaborated by Marx s predecessors This book questions widespread assumptions that the nation state was the starting point for the analysis of development It explores the international foundations of political economy from mercantilism to Adam Smith and David Ricardo and to Hegel and investigates how the understanding of the international political economy informs the interpretations of history to which it gave rise The book then traces the developments of Marx s critique of political economy from the early 1840s to Capital Volume 1 and shows that his deepening understanding of the laws of capitalist uneven and combined development allowed him to recognise the growth of a world working class Marx s work thus offers the necessary categories to develop an alternative to methodological nationalism and Eurocentrism grounded in a critique of political economy This book is essential reading for anyone interested in the development of Marx s thought and in the foundations of International Political Economy

American Slavery, American Imperialism Catherine Armstrong,2020-07-30 Details how Americans perceptions of the institution of slavery changed between the end of the Civil War and the onset of World War I

Marxist Humanism and Communication Theory Christian Fuchs,2021-03-16 This book outlines and contributes to the foundations of Marxist humanist communication theory It analyses the role of

communication in capitalist society Engaging with the works of critical thinkers such as Erich Fromm E P Thompson Raymond Williams Henri Lefebvre Georg Lukacs Lucien Goldmann G Nther Anders M N Roy Angela Davis C L R James Rosa Luxemburg Eve Mitchell and Cedric J Robinson the book provides readings of works that inform our understanding of how to critically theorise communication in society The topics covered include the relationship of capitalism racism and patriarchy communication and alienation the base superstructure problem the question of how one should best define communication the political economy of communication ideology critique the connection of communication and struggles for alternatives Written for a broad audience of students and scholars interested in contemporary critical theory this book will be useful for courses in media and communication studies cultural studies Internet research sociology philosophy political science and economics This is the first of five Communication and Society volumes each one outlining a particular aspect of the foundations of a critical theory of communication in society *Conceptualizing Racism* Noel A. Cazenave, 2015-11-19

Conceptualizing Racism is a provocative book that confronts the language we use to discuss and understand racism Author Noel A Cazenave argues that American social science has since its inception practiced linguistic racial accommodation that blurs our understanding of systemic racism and makes it difficult to effect meaningful change *Conceptualizing Racism* highlights how words matter in racism studies The author traces the history of linguistic racial accommodation through the development of sociology as a discipline and illustrates how it is at play today not only within the discipline but in public life

Contours of African American Politics Georgia A. Persons, 2017-07-05 *Contours of African American Politics* chronicles the systematic study of African American politics and its subsequent recognition as an established field of scholarly inquiry African American politics emanates from the demands of the prolonged struggle for black liberation and empowerment Hence the study of African American politics has sought to track codify and analyse the struggle that has been mounted and to understand the historic and changing political status of African Americans within American society This two volume set presents a selection of scholarship on African American politics as it appeared in *The National Political Science Review* from its initial launch in 1989 to the spring of 2009 Represented are contributions from some of the leading scholars of African American politics who have helped to establish and sustain the field The volumes are organised around themes that derive from the unfolding real life drama of African American politics and its subsequent scholarly treatment The result is a window into the political efforts that meld the historically disparate strands of black political expressions into a reconstructed and strategically nimble electoral based mass mobilisation necessary for optimising the impact of the African American vote Sections in the volumes also chronicle the evolution of the National Conference of Black Political Scientists as a professional organisation The two volumes illuminate a pivotal epoch in black political empowerment and provide a context for the future of black politics **Equality and Non-discrimination in South Africa** Shadrack Gutto, 2001 This study explores and critiques law and law making in the nascent constitutional democracy in the new South Africa with a focus on the complex

roles of the executive parliament political parties the media and civil society The capacity and potential in the judiciary and the legal profession in promoting and protecting values and rights of equality and non discrimination is examined Substantive equality and non discrimination law in theory and in practice is considered critically from a broad historical and social context that highlights areas of race gender disability harassment and hate speech socio economic rights and legal services International human rights law and comparative law aspects are skillfully interwoven in this pioneering scholarly work

Killing African Americans Noel A. Cazenave, 2018-05-16 Killing African Americans examines the pervasive disproportionate and persistent police and vigilante killings of African Americans in the United States as a racial control mechanism that sustains the racial control system of systemic racism Noel A Cazenave s well researched and conceptualized historical sociological study is one of the first books to focus exclusively on those killings and to treat them as political violence Few issues have received as much conventional and social media attention in the United States over the past few years or have for decades now sparked so many protests and so often strained race relations to a near breaking point Because of both its timely and its enduring relevance Killing African Americans can reach a large audience composed not only of students and scholars but also of Movement for Black Lives activists politicians public policy analysts concerned police officers and other criminal justice professionals and anyone else eager to better understand this American nightmare and its solutions from a progressive and informed African American perspective Beyond the Boundaries Georgia A. Persons, 2017-09-29 In the past African American aspirations for political office were assumed to be limited to areas with sizeable black population bases By and large black candidates have rarely been successful in statewide or national elections This has been attributed to several factors limited resources available to African American candidates or identification with a black liberationist ideological thrust Other factors have been a relatively small and spatially concentrated primary support base of black voters and the persistent resistance of many white voters to support black candidates For these reasons the possibility of black candidates winning elections to national office was presumably just a dream Conventional wisdom conceded a virtual cap on both the possible number of black elected officials and the level of elective office to which they could ascend But objective political analysis has not always made sufficient allowances for the more universal phenomenon of individual political ambitions The contributors to this volume explore the ways ambitious individuals identified and seized upon strategies that are expanding the boundaries of African American electoral politics This volume is anchored by a symposium that focuses on new possibilities in African American politics Both the electoral contests of 2006 and the Barack Obama presidential campaign represent an emergent dynamic in American electoral politics Analysts are beginning to agree that the contours of social change now make the electoral successes of black candidates who are perceived as ideologically and culturally mainstream increasingly likely The debate captured in this volume will likely inspire further scholarly inquiry into the changing nature and dimensions of the larger dynamic of race in American politics and the subsequent changing

political fortunes of African American candidates **American Masculinities: A Historical Encyclopedia** Bret Carroll, 2003-10-14 This is a highly recommended purchase for undergraduate medium sized and large public libraries wishing to provide a substantial introduction to the field of men's studies. Reference User Services Quarterly. Pleasing layout and good cross references make Carroll's compendium a welcome addition to collections serving readers of all ages. Highly recommended CHOICE. An excellent index, well chosen photographs and illustrations and an extensive bibliography add further value. American Masculinities is well worth what would otherwise be too hefty a price for many libraries because no other encyclopedia comes close to covering this growing field so well. American Reference Books Annual. American Masculinities: A Historical Encyclopedia is a first of its kind reference detailing developments in the growing field of men's studies. This up to date analytical review serves as a marker of how the field has evolved over the last decade especially since the 1993 publication of Anthony Rotundo's American Manhood. This seminal book opened new vistas for exploration and research into American History, society and culture. Weaving the fabric of American history, American Masculinities illustrates how American political leaders have often used the rhetoric of manliness to underscore the presumed moral righteousness and ostensibly protective purposes of their policies. Seeing U.S. history in terms of gender archetypes, readers will gain a richer and deeper understanding of America's democratic political system, domestic and foreign policies and capitalist economic system as well as the private sphere of the home and domestic life. The contributors to American Masculinities share the assumption that men's lives have been grounded fundamentally in gender, that is in their awareness of themselves as males. Their approach goes beyond scholarship which traditionally looks at men and women in terms of what they do and how they have influenced a given field or era. Rather, this important work delves into the psychological core of manhood which is shaped not only by biology but also by history, society and culture. Encapsulating the current state of scholarly interpretation within the field of Men's Studies, American Masculinities: A Historical Encyclopedia is designed to help students and scholars advance their studies, develop new questions for research and stimulate new ways of exploring the history of American life. Key Features: Reader's Guide facilitates browsing by topic and easy access to information. Extensive name, place and concept index gives users an additional means of locating topics of interest. More than 250 entries each with suggestions for further reading. Cross references direct users to related information. Comprehensive bibliography includes a list of sources organized by categories in the field. Topics Covered: Arts, Literature and Popular Culture, Body, Health and Sexuality, Class, Ethnic, Racial and Religious Identities, Concepts and Theories, Family and Fatherhood, General History, Icons and Symbols, Leisure and Work, Movements and Organizations, People, Political and Social Issues. About the Editor: Bret E. Carroll is Associate Professor of History at California State University Stanislaus. He received his Ph.D. from Cornell University in 1991. He is author of The Routledge Historical Atlas of Religion in America (1997), Spiritualism in Antebellum America (1997) and several articles on nineteenth century masculinity. **The role of dehumanisation during the Atlantic**

Slave Trade and the modern day implications Leila Fielding,2012-10-19 Essay from the year 2012 in the subject History Africa grade 1 1 First Class language English abstract In order to comprehend acts of oppression such as the slave trade not to mention the atrocities which accompanied it an investigation into the psychological reasoning of the oppressors must be considered People are not inherently evil however all human beings have the capacity to commit evil acts Dehumanisation is commonplace in instances of persecution John Wade describes dehumanisation as a psychological state and linguistic transition which occurs during conflict which both justifies past behaviour and encourages future aggressive conflict In another definition to dehumanise is to deprive a person or group of human qualities stripping them of their personal identity and individuality In instances of persecution dehumanisation serves as a justification and rationalisation of past and future behaviour With these definitions in mind slavery is the epitome of dehumanisation Many take for granted the dehumanisation of slaves However the power of this psychological spur must be considered in depth chiefly because dehumanisation is still taking place and leading to disastrous consequences such as genocide and mass murder in the twenty first century **Race, Class, and the State in Contemporary Sociology** Jack Niemonen,2002 Situating Wilson s work on race and class in the overall contexts of sociology and radical politics this book considers the contribution of and the debate surrounding each of his major works including The Declining Significance of Race The Truly Disadvantaged and When Work Disappears The crucial place of segregation in the critiques of Wilson s theory is emphasized and the role of the state is considered Annotation copyrighted by Book News Inc Portland OR
