International Social Work: Themes and Perspectives Karen Lyons, 2016-12-05 This book advocates the development of international social work both as offering an important perspective on practice at local level and as a distinct form of cross border and supra national activity The author argues that the effects of globalization and regional policies on the welfare sector have implications for the users of social services and community development programmes which require all social professionals to have a better understanding of these processes and consequences and of the international networks through which they themselves might operate Some of the material used is of a comparative nature for instance in relation to the education of social professionals or their relationship with the state or the family and examples are drawn from a wide range of countries But there is also a thematic treatment of three phenomena which are seen to have significant international dimensions that is poverty migration and disasters The book considers the role of social professionals in relation to these themes and identifies greater scope for intervention in relation to a range of social problems

at international levels **The history of youth work in Europe - volume 6** Howard Williamson,Tanya Basarab,Filip Coussée,2018-08-01 A better understanding of youth work s historical links with social work can help us to shape its relationship with social work in the future This sixth publication in the History of Youth Work in Europe project based on the workshop held in Malta Connections Disconnections and Reconnections The Social Dimension of Youth Work in History and Today looks at the relationship between youth work and social work and the role youth work can play in the social inclusion of young people Contributors have reflected on concepts tools and support measures for more vulnerable and often socially excluded young people and have sought to promote a common understanding of youth work as a social practice The workshop that led to this book sought to understand where youth work has positioned itself from its origins through its development to its contemporary identity Is youth work as much a social practice as a non formal educational one Where does the balance between these two dimensions lie What are the mutually enriching dimensions of these two fields in terms of their impact on young people s lives While most agree that youth work needs to be further defined as a practice or profession in itself and that the process of shaping its identity continues in different ways in different countries it is clear that when it comes to a cross sectoral perspective and youth work s interaction with social work the picture becomes significantly more complex arguably much richer and certainly more dynamic than might have hitherto been foreseen **After the Nazi Racial State** Rita Chin,Heide Fehrenbach,Geoff Eley,Atina Grossmann,2010-02-22 An investigation of the concept of race in post Nazi Germany **Crisis, Austerity, and Everyday Life** Gargi Bhattacharyya,2015-10-29 Will austerity never end This timely and insightful book argues that austerity seeks to set the terms of political and economic life for the foreseeable future extending techniques of exclusion to ever greater sections of the population *Populism, Democracy and Community Development* Sue Kenny,Jim Ife,Peter Westoby,2020-12-02 Using international perspectives and case studies this book discusses the relationships between community development and populism in the context of today s widespread crisis of democracy It investigates the development meanings and manifestations of contemporary forms of populism and explores the synergies and contradictions between the values and practices of populism and community development Contributors examine the ways that the ascendancy of right wing populist politics is influencing the landscapes within which community development is located and they offer new insights on how the field can understand and respond to the challenges of populism **Beyond the National Curriculum** Professor David Coulby,David Coulby,2002-01-04 The National Curriculum is due for review This is a central area of educational debate in England and Wales Increasingly politicians and their entourages are looking for quick fixes from abroad to solve what they see to be problems in the educational system of the UK Drawing on insights from other European curricular systems this provocative book will contribute in a timely way to the debate on reformations of the National Curriculum The style is concise with points for discussion and lists of further reading debate in England and Wales Increasingly politicians are looking for quick fixes from abroad to solve what they see to be

problems in the educational system Drawing on insights from other European curricular systems this volume will contribute in a timely way to the debate on the reformations of the National Curriculum The style is short and concise with points for discussion and lists of further reading _ **Racism** Albert J. Wheeler,2005 Of all mankind's vices racism is one of the most pervasive and stubborn Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul This bibliography brings together the literature

Education Pack "all different - all equal" 2021 Rui Gomes,Anca-Ruxandra Pandea,Patricia Brander,Laure de Witte,Gavan Titley,2021-11-22 It is easy to say I have no prejudices I m not racist so it has nothing to do with me I didn t invite those refugees It is hard to say I may not be to blame for what happened in the past but I want to take responsibility for making sure it doesn t continue in the future The Education Pack all different all equal was originally produced in 1995 as an educational resource for the European youth campaign against racism antisemitism xenophobia and intolerance Soon after its publication it became a reference work for those involved in intercultural education and training with young people across Europe and beyond Translated into many languages it remains today one of the most successful and most sought after publications of the Council of Europe The usefulness of the pack stems from the variety and creativity of the methodologies proposed More than twenty years after the all different all equal campaign the role plays simulation exercises case studies and cooperative group work that it proposes remain an inspiration to many youth workers trainers teachers and other people actively involved in intercultural education European societies continue to suffer from a growth of racist hostility and intolerance towards minorities and foreigners the necessity for intercultural youth work remains undiminished and the relevance of this pack remains unquestionable Little bit has been changed in this new edition of the pack apart from an updating of references Most changes are visible and usable only in the online version which offers relevant links with other resources for human rights education which continue the legacy of the campaign equality in dignity and rights respect for broader appreciation of diversity
