Noll, 2013-03-14 This comprehensive classic textbook represents the most recent approaches to the biblical world by surveying Palestine's social political economic religious and ecological changes from Palaeolithic to Roman eras Designed for beginners with little knowledge of the ancient world and with copious illustrations and charts it explains how and why academic study of the past is undertaken as well as the differences between historical and theological scholarship and the differences between ancient and modern genres of history writing Classroom tested chapters emphasize the authenticity of the Bible as a product of an ancient culture and the many problems with the biblical narrative as a historical source Neither maximalist nor minimalist it is sufficiently general to avoid confusion and to allow the assignment of supplementary readings such as biblical narratives and ancient Near Eastern texts This new edition has been fully revised incorporating new graphics and English translations of Near Eastern inscriptions New material on the religiously diverse environment of Ancient Israel taking into account the latest archaeological discussions brings this book right up to date *A Companion to Aristophanes*

other literary critics researching ancient drama and sophisticated general readers interested in Aristophanes Greek drama classical Athens or the ancient Mediterranean world *Making Amulets Christian* Theodore de Bruyn, 2018-01-26 *Making Amulets Christian* Artefacts Scribes and Contexts examines Greek amulets with Christian elements from late antique Egypt in order to discern the processes whereby a customary practice the writing of incantations on amulets changed in an increasingly Christian context It considers how the formulation of incantations and amulets changed as the Christian church became the prevailing religious institution in Egypt in the last centuries of the Roman empire Theodore de Bruyn investigates what we can learn from incantations and amulets containing Christian elements about the cultural and social location of the people who wrote them He shows how incantations and amulets were indebted to rituals or ritualizing behaviour of Christians This study analyzes different types of amulets and the ways in which they incorporate Christian elements By comparing the formulation and writing of individual amulets that are similar to one another one can observe differences in the culture of the scribes of these materials It argues for conditioned individuality in the production of amulets On the one hand amulets manifest qualities that reflect the training and culture of the individual writer On the other hand amulets reveal that individual writers were shaped whether consciously or inadvertently by the resources they drew upon by what is called tradition in the field of religious studies *The Social History of Byzantium* John Haldon, 2009-02-23 With original essays by leading scholars this book explores the social history of the medieval eastern Roman Empire and offers illuminating new insights into our knowledge of Byzantine society Provides interconnected essays of original scholarship relating to the social history of the Byzantine empire Offers groundbreaking theoretical and empirical research in the study of Byzantine society Includes helpful glossaries of sociological theoretical terms and Byzantine medieval terms **Handbook for Classical Research** David Schaps, 2010-09-13 The Handbook for Classical Research offers guidance to students needing to learn more about the different fields and subfields of classical research and its methods and resources **Women's Letters from Ancient Egypt, 300 BC-AD 800** Roger Bagnall, Raffaella Cribiore, 2015-07-16 The private letters of ancient women in Egypt from Alexander the Great to the Arab conquest *Canaan and Israel in Antiquity* K. Bagnall, 2012-04-23 This is the most important and original study of literacy and the function of writing in ancient society to have appeared in the last twenty years In a masterly and detailed survey of evidence from across the ancient Mediterranean world Bagnall shows how and why routine writing was essential to social and administrative infrastructures from the Hellenistic to the Byzantine periods Essential reading for anyone interested in understanding the role and function of the written text in human social behaviour Alan Bowman Camden Professor of Ancient History Oxford University This richly illustrated and annotated book takes the reader on an extended tour from North Africa

to Afghanistan Bagnall's theme is the ubiquity and pervasiveness of writing in the long millennium from Alexander to the Arab conquests and beyond Briskly challenging the currently fashionable low estimates on the extent of literacy and the prevalence of writing in the ancient world Bagnall surveys and explains what has survived and what has been lost and why This is a book both for specialists and for the general reader sure to inspire admiration and reaction James G Keenan Professor of Classical Studies Loyola University Chicago Bagnall's book is not only a study of everyday writing in the Graeco Roman East but also an investigation into how our documentation has been distorted by patterns of conservation and discovery and the choices made by modern editors The sound reflections of an historian on the sources of history Jean Luc Fournet Ecole Pratique des Hautes Etudes Paris [The Roman Empire](#) James W.
