Reading Race:

Reading Race Norman K Denzin, 2002-03-29 In this insightful book one of America's leading commentators on culture and society turns his gaze upon cinematic race relations examining the relationship between film race and culture. Acute, richly illustrated and timely, the book deepens our understanding of the politics of race and the symbolic complexity of segregation and discrimination.

Reading Race Clare Bradford, 2013-05-09 How do children's books relate to the cultures that produce them and how do they influence those cultures? In *Reading Race* Clare Bradford looks at representations of Australia's indigenous peoples in texts for children. She shows how these varying representations have helped to colour the attitudes, beliefs and assumptions of different generations of Australians. To what extent have children's books enabled readers to understand Aboriginal culture, relations between Aboriginal and non-Aboriginal people and relationships between Aboriginality and national identity? Bradford draws on examples from popular and literary children's books of all genres: fiction, non-fiction, picture books and school texts. She reveals that many children's books display the tensions and uncertainties inherent in relations between Aboriginal and non-Aboriginal people. Bradford also uncovers the different ideologies of race that have informed Australian children's texts from the nineteenth century to currently popular writers, demonstrating cultural shifts in the representation of Aboriginality over time. The result is a ground-breaking and intelligent picture of how Australian children's books by both white and Aboriginal writers have negotiated the matter of race. *Reading Race* will enhance the ways in which we come to read and understand the complex and delicate issues around Aboriginal-white relations. It will be an invaluable resource in the fields of post-colonial studies, Indigenous and Aboriginal studies, literary and cultural studies and children's literature.

Reading Race Aldon Lynn Nielsen, 1988 *Reading Race* examines the work of twentieth-century white American poets from Carl Sandburg to Adrienne Rich, from Ezra Pound to Allen Ginsberg, revealing within their poetry and casual writings a body of literature that transmits racism even as it sometimes speaks against it. Tracing the persistence of racial discourse, Aldon Nielsen argues that white Americans throughout their history have used a language of their own primacy, a language that treats blacks as an abstract other, an aggregate nonwhite to be acted upon and determined by whites. White discourse drapes over blacks an intricate veil of images and understandings, assertions of inferiority, metaphors of exoticism, similes of animals, tropes of fertility, nothingness and death through which whites read race and beneath which blacks remain imprisoned. Words, Nielsen writes, create and maintain relationships of power as surely as do prisons and arms. Speaking of the discourse of race in America, Nielsen identifies dead metaphors, words, images, ideas that operate in much the same way as the charged detail of Pound or the objective correlative of T. S. Eliot. Embedded in the language, they are instantly recognizable to the native speaker. Poets, when they draw upon these metaphors, demand racist thinking in order to be understood.

Reading Race in American Poetry Aldon Lynn Nielsen, 2000 Here inter-racial poets and critics join together to analyze the role that race plays in the reading and writing of American poetry.

Revisiting Racialized Voice David G Holmes, 2007-09-03 Revisiting Racialized Voice African American Ethos in Language and Literature argues that past misconceptions about black identity and voice codified from the 1870s through the 1920s inform contemporary assumptions about African American authorship and ethos Tracing elements of racial consciousness in the works of Frederick Douglass Charles Chesnutt W E B DuBois Zora Neale Hurston and others David G Holmes urges a revisiting of narratives from this period to strengthen and advance notions about

racialized writing and to shape contemporary composition pedagogies Pointing to the intersection of African American identity literature and rhetoric *Revisiting Racialized Voice* begins to construct rhetorically workable yet ideologically flexible definitions of black voice Holmes maintains that political pressure to embrace color blindness endangers scholars ability to uncover links between racialized discourses of the past and those of the present and he calls instead for a reassessment of the material realities and theoretical assumptions race represents and with which it has been associated
