Reading The Past In Late Antiquity:

Reading the Past in Late Antiquity Graeme Wilber Clarke, Brian Croke, Alanna Emmett Nobbs, Raoul Mortley, 1990

Imagining Emperors in the Later Roman Empire, 2018-07-10 Imagining Emperors in the Later Roman Empire offers new analysis of the textual depictions of a series of emperors in the fourth century within overlapping historical religious and literary contexts Drawing on the recent Representational Turn in the study of imperial power these essays examine how literary authors working in various genres both Latin and Greek and of differing religious affiliations construct and manipulate the depiction of a series of emperors from the late third to the late fourth centuries CE In a move away from traditional source criticism this volume opens up new methodological approaches to chart intellectual and literary history during a critical century for the ancient Mediterranean world

Gregory of Nyssa as Biographer Allison L.

Gray, 2021-05-17 The theologian Gregory of Nyssa wrote biographies of his sister a local bishop and Moses Allison L Gray shows that he adapts techniques from Greco Roman biographical writing in these texts to create narratives that are suited to a specifically Christian form of education focused on virtue and scriptural interpretation

The Roman Empire at Bay, AD 180-395

David Stone Potter, 2004 At the outset of the period covered by this book Rome was the greatest power in the world By its end it had fallen conclusively from this dominant position David Potter's comprehensive survey of two critical and eventful centuries traces the course of imperial decline

Procopius of Caesarea: Literary and Historical

Interpretations Christopher Lillington-Martin, 2017-07-06 This volume aims to encourage dialogue and collaboration between international scholars by presenting new literary and historical interpretations of the sixth century writer Procopius of Caesarea the major historian of Justinian's reign Although scholarship on Procopius has flourished since 2004 when the last monograph in English on Procopius was published there has not been a collection of essays on the subject since 2000 Work on Procopius since 2004 has been surveyed by Geoffrey Greatrex in his international bibliography Peter Sarris has revised the 1966 Penguin Classics translation of and introduced Procopius Secret History 2007 and Anthony Kaldellis has edited translated and introduced Procopius Secret History with related texts 2010 and revised and modernised H B Dewing's Loeb translation of Procopius Wars as The Wars of Justinian in 2014 This volume capitalises on the renaissance in Procopius related studies by showcasing recent work on Procopius in all its diversity and vibrancy It offers approaches that shed new light on Procopius texts by comparing them with a variety of relevant textual sources In particular the volume pays close

attention to the text and examines what it achieves as a literary work and what it says as an historical product The Poetics of Late Latin Literature Jaś Elsner, Jesús Hernández Lobato, 2017 For a host of reasons traditionalist scholarship has failed to give a full and positive account of the formal aesthetic and religious transformations of ancient poetics in Late Antiquity This collection of new essays attempts to capture the vibrancy of the living ancient tradition reinventing itself in a new context in the hands of a series of great Latin writers of the fourth and fifth centuries AD *A Companion to Byzantine Chronicles* , 2024-12-23 A Byzantine chronicle is a retelling of history usually beginning with the creation of the world written in simple language and enriched by colourful anecdotes or tantalizing details on political intrigues Though extremely popular in the Middle Ages these texts were long disregarded by scholars due to their historical unreliability and lack of originality Now however they are increasingly appreciated for the insights they provide into Byzantine ideology and the complex interaction of reading and writing in Byzantium This volume highlights and contributes to the radical re evaluation of this long neglected genre of medieval literature Contributors are Raimondo Tocchi William Adler Thomas M Banchich Albrecht Berger Richard W Burgess John Burke R ka Forrai Christian Gastgeber Martin Hinterberger Marek Jankowiak Ralph Johannes Lilie Athanasios Markopoulos Mischa Meier Federico Montinaro Diether Roderich Reinsch Fabian Schulz Roger Scott Paul Tuffin Staffan Wahlgren and Varvara Zharkaya *Encyclopedia of Rhetoric* Thomas O. Sloane, 2001 The Encyclopedia of Rhetoric is a comprehensive survey of the latest research as well as the foundational teachings in this broad field Featuring 150 original signed articles by leading scholars from many different fields of study it brings together knowledge from classics philosophy literature literary theory cultural studies speech and communications The Encyclopedia surveys basic concepts speaker style and audience elements genres terms fallacies figures of speech and the rhetoric of non Western cultures and cultural movements It covers rhetoric as the art of proof and persuasion as the language of public speech and communication and as a theoretical approach and critical tool used in the study of literature art and culture at large including new forms of communication such as the internet The Encyclopedia is the most wide ranging reference work of its kind combining theory history and practice with a special emphasis on public speaking performance and communication Cross references bibliographies after each article and synoptic and topical indexes further enhance the work Written for students teachers scholars and writers the Encyclopedia of Rhetoric is the definitive reference work on this powerful discipline Soldiering for God John F. Shean, 2010-08-23 This new study argues that the religious attitude of the Roman army was a crucial factor in the Christianization of the Roman world Specifically by the end of the third century there was a significant Christian presence within the army which was ready to act in the interests of the faith Conditions at this time were thus ripe for the coming to power of a Christian emperor when Constantine converted to Christianity he could rely upon the enthusiastic support of his Christian soldiers Constantine strengthened his Christian base by initiating policies which accelerated the Christianization of the army The continuation of these policies by Christian Roman emperors

eventually allowed them to use the military as a vehicle for the suppression of paganism and heretical Christian sects The Roman Empire at Bay, AD 180-395 David S. Potter, 2004-07-31 Skilfully weaving together cultural intellectual and political history this detailed survey of two critical and eventful centuries travels the course of imperial decline A striking achievement of historical synthesis with a compelling interpretative line **In Praise of Later Roman Emperors** C. masonry as both reflections and agents of those changes Jas Elsner's ground breaking account discusses both Roman and early Christian art in relation to such issues as power death society acculturation and religion By examining questions of reception viewing and the culture of spectacle alongside the more traditional art historical themes of imperial patronage and stylistic change he presents a fresh and challenging interpretation of an extraordinarily rich cultural crucible in which many fundamental developments of later European art had their origins This second edition includes a new discussion of the Eurasian context of Roman art an updated bibliography and new full colour illustrations

Vision and Meaning in Ninth-Century Byzantium Leslie Brubaker, 1999-02-25 The Byzantines used imagery to communicate a wide range of issues In the context of Iconoclasm the debate about the legitimacy of religious art conducted between c AD 730 and 843 Byzantine authors themselves claimed that visual images could express certain ideas better than words Vision and Meaning in Ninth Century Byzantium deals with how such visual communication worked and examines the types of messages that pictures could convey in the aftermath of Iconoclasm Its focus is on a deluxe manuscript commissioned around 880 a copy of the fourth century sermons of the Cappadocian church father Gregory of Nazianzus which presented to the Emperor Basil I founder of the Macedonian dynasty by one of the greatest scholars Byzantium ever produced the patriarch Photios The manuscript was lavishly decorated with gilded initials elaborate headpieces and a full page miniature before each of Gregory's sermons Forty six of these including over 200 distinct scenes survive Fewer than half however were directly inspired by the homily that they accompany Instead most function as commentaries on the ninth century court and carefully deconstructed both provide us with information not available from preserved written sources and perhaps more important show us how visual images communicate differently from words
