Reading Visual Poetry After Futurism Marinetti Apollinaire Schwitters Cummings Literature And The Visual Arts:

Reading Visual Poetry After Futurism Michael Webster, 1995 Early in the century poets expanded the possibilities of their genre by creating sound poems by dispensing with syntax and punctuation and by arranging words and letters across the page in new visual patterns This book explores ways of reading the aesthetically challenging and semiotically subversive texts created by four poets F T Marinetti 1876 1944 Kurt Schwitters 1887 1948 and e e cummings 1894 1962 The book shows us how to read these experimental texts in a variety of interrelated ways as products of each poet s individual aesthetic as part of the avant garde s reaction to aestheticism as efforts to bring art closer to life and as attempts to create a new kind of semiotically and aesthetically open work The book concludes by emphasizing the individual invention of its four central figures rather than placing them in their usual roles as precursors to the concrete poetry movement of the fifties

Interart Poetics Ulla Britta Lagerroth, Hans Lund, Erik Hedling, 1997 An anthology containing 28 essays devoted to the interrelations between the arts and media Contributions promote interdisciplinary strategies in the study of such traditional arts as dance literature music and theater as well as more modern media such as film television and computer generated art Annotation copyrighted by Book News Inc Portland OR

E. E. Cummings' Modernism and the Classics J. Alison Rosenblitt, 2016-09-22 This volume is a major ground breaking study of the modernist E E Cummings engagement with the classics With his experimental form and syntax his irreverence and his rejection of the highbrow there are probably few current readers who would name Cummings if asked to identify 20th century Anglophone poets in the Classical tradition But for most of his life and even for ten or twenty years after his death this is how many readers and critics did see Cummings He specialised in the study of classical literature as an undergraduate at Harvard and his contemporaries saw him as a pagan poet or a Juvenalian satirist with an Aristophanic sense of humour In *E E Cummings Modernism and the Classics* Alison Rosenblitt aims to recover for the contemporary reader this lost understanding of Cummings as a classicizing poet The book also includes an edition of previously unpublished work by Cummings himself unearthed from archival research For the first time the reader has access to the full scope of Cummings translations from Horace Homer and Greek drama as well as two short pieces of classically related prose a short *Alcaics* and a previously unknown and classicizing parody of T S Eliot s *The Waste Land* This new work is exciting in its own right and essential to understanding Cummings development as a poet

Dramaturgy of Sound in the Avant-garde and Postdramatic Theatre Mladen Ovadija, 2013-07-01 Sound is born and dies with action In this surprising resourceful study Mladen Ovadija makes a case for the centrality of sound as an integral element of contemporary theatre He argues that sound in theatre inevitably betrays the dramatic text and that sound is performance Until recently theatrical sound has largely been regarded as supplemental to the dramatic plot Now however sound is the subject of renewed interest in theatrical discourse Dramaturgy of sound Ovadija argues reads and writes a theatrical idiom based on two inseparable intertwined strands the gestural corporeal power of the performer's voice and the structural value of stage sound His extensive research in experimental performance and his examination of the pioneering work by Futurists Dadaists

and Expressionists enable Ovadija to create a powerful study of autonomous sound as an essential element in the creation of synesthetic theatre *Dramaturgy of Sound in the Avant garde and Postdramatic Theatre* presents a cogent argument about a continuous tradition in experimental theatre running from early modernist to contemporary works The Written Poem Rosemary Huisman, 1998-09-01 This text discusses the visual and graphic conventions in contemporary poetry in English It defines contemporary poetry and its historical construction as a seen object and uses literary and social theory of the 1990s to facilitate the study In examining how a poem is recognized the interpretive conventions for reading it and how the spacial arrangement on the page is meaningful for contemporary poetry the text takes examples from individual poems There is also a focus on changes in manuscript conventions from Old to Middle English poetry and the change from a social to a personal understanding of poetic meaning from the late 18th through the 19th century *Media inter Media*, 2009-01-01 This interdisciplinary volume explores analyzes and celebrates intermedial processes It investigates the dynamic relations between media in contemporary artistic productions such as digitalized poetry and installations or musical scores by Walter Steffens and Hugh Davies in texts like Dieter Roth's diaries Ror Wolf's guidebooks Charles Baudelaire's art criticism or Lewis Carroll's Alice books and in inherently intermedial pieces like Stéphane Mallarmé's *Un Coup de Dés* and Augusto de Campos's poetry Through distinct and diverse methodological approaches to intermedial inquiry the contributors probe multiple forms of interaction between media adaptation appropriation transposition transfer recycling grafting recontextualization intertextualization transmedialization and transcreation In so doing they offer perspectives which refine our understanding of the term medium and demonstrate ways in which intermedial creations engage their audiences and stimulate creative responses Written in honor of Claus Clüver a groundbreaking leader in intermediality studies the essays participate in and broaden the scope of current discourses in the international forum The range of their subjects and methodologies will interest literary scholars art historians musicologists scholars of new media as well as those working in intermediality studies word and image or word and music studies and anyone whose interests cross traditional disciplinary boundaries
