Reading Hardy's Landscapes:

Reading Hardy's Landscapes M. Irwin, 2000-03-23 Reading Hardy's Landscapes locates the essential energy of the novels in the descriptive details as much as in the story. The emphasis is on the author's habits of vision and imagination. It is instinctive in Hardy to locate his tales between the huge abstractions of time and space and the minute particularities of nature: a leaf, a minnow, a gnat. His human dramas unfold in a landscape and are part of that landscape caught up in larger patterns of movement and change.

Reading Hardy's Landscapes Michael Irwin, 2000. This book proposes that a Hardy novel should be read very much as a Constable painting is read: the landscape as significant as the figures who traverse it; the background as important as the story. It analyses the recurring emphases and implications in Hardy's innumerable descriptions of birds, plants, insects, light, weather, sound, movement. The ephemeral lives of his human protagonists are seen to be half dissolved in the ceaseless patterns of motion, change, and dissolution in the teeming world they inhabit. Hardy emerges as no mere story teller in the nineteenth-century tradition but as a poet and a modernist who dramatizes a vision, a way of seeing and understanding the world. So far from being, as has often been claimed, an unsophisticated writer, he is a supremely coherent artist whose work everywhere shows the shaping power of his idiosyncratic habit of imagination.

Reading and Mapping Hardy's Roads Scott Rode, 2006-06-23. This book examines Thomas Hardy's representations of the road and the ways the archaeological and historical record of roads inform his work. Through an analysis of the uneven and often competing road signs found within three of his major novels, *The Return of the Native*, *Tess of the D'Urbervilles*, and *Jude the Obscure*, and by mapping the road travels of his protagonists, this book argues that the road as represented by Hardy provides a palimpsest that critiques the Victorian construction of social and sexual identities. Balancing modern exigencies with mythic possibilities, Hardy's fictive roads exist as contested spaces that channel desire for middle-class assimilation even as they provide the means both to reinforce and to resist conformity to hegemonic authority.

The Ashgate Research Companion to Thomas Hardy Rosemarie Morgan, 2016-03-23. In *The Ashgate Research Companion to Thomas Hardy*, some of the most prominent Hardy specialists working today offer an overview of Hardy scholarship and suggest new directions in Hardy studies. The contributors cover virtually every area relevant to Hardy's fiction and poetry, including philosophy, palaeontology, biography, science, film, popular culture, beliefs, gender, music, masculinity, tragedy, topography, psychology, metaphysics, illustration, bibliographical studies, and contemporary response. While several collections have surveyed the Hardy landscape, no previous volume has been composed especially for scholars and advanced graduate

students This companion is specially designed to aid original research on Hardy and serve as the critical basis for Hardy studies in the new millennium Among the features are a comprehensive bibliography that includes not only works in English but in acknowledgment of Hardy's explosion in popularity around the world also works in languages other than English

Thomas Hardy and Animals Anna West, 2017-04-19 Thomas Hardy and Animals examines the human and nonhuman animals who walk and crawl and fly across and around the pages of Hardy's novels Animals abound in his writings yet little scholarly attention has been paid to them so far This book fills this gap in Hardy studies bringing an important author within range of a new and developing area of critical inquiry It considers the way Hardy's representations of animals challenged ideas of human animal boundaries debated by the Victorian scientific and philosophical communities In moments of encounter between humans and animals Hardy questions boundaries based on ideas of moral sense or moral agency language and reason the possession of a face and the capacity to suffer and perceive pain Through an emphasis on embodied encounters his writings call for an extension of empathy to others human or nonhuman In this accessible book Anna West offers a new approach to Hardy criticism

Hardy's Geography R. Pite, 2002-09-13 Hardy's Geography reconsiders a familiar element in Hardy's novels their use of place and specifically of Dorset Hardy said his Wessex was a partly real partly dream country This study examines how reality and dream interact in his work Should we look for a real place corresponding to Casterbridge What is the relation between one person's feelings for a place and society's view of it Pite concludes that Hardy addresses these issues through a distinctive regional awareness

Re-Reading the Age of Innovation Louise Kane, 2022-07-28 The period of 1830-1950 was an age of unprecedented innovation From new inventions and scientific discoveries to reconsiderations of religion gender and the human mind the innovations of this era are recorded in a wide range of literary texts Rather than separating these texts into Victorian or modernist camps this collection argues for a new framework that reveals how the concept of innovation generated forms of literary newness that drew novelists poets and other creative figures working across this period into dialogic networks of experiment The 14 chapters in this volume explore how inventions like the rotary print press or hot air balloon and emergent debates about science trade and colonialism evolved new forms and genres Through their examinations of a wide range of texts and writers from well known novelists like Conrad Dickens Hardy and Woolf to less canonical figures like Charlotte Mew Elsie Mar and Walter Frances White the chapters in this collection re-read these texts as part of an age of innovation characterized not by division and divide but by collaboration and community

Thomas Hardy, Metaphysics and Music Mark Asquith, 2005-08-02 This fascinating new study by Mark Asquith offers an original approach to Hardy's art as a novelist and entirely new readings of certain musical scenes in Hardy's works Asquith utilizes a rich seam of original archival research both scientific and musicological which will be of use to all Hardy scholars and discusses a range of Hardy's major works in relation to musical metaphors from early fiction *The Poor Man and the Lady* to later major works *Jude the Obscure* *Far From the Madding Crowd* *The Mayor of*

Casterbridge Deviant Landscapes Fivos Papadimitriou, Olaf Kühne, 2025-04-11 Deviant landscapes can be physical or digital or outright fictitious Whatever their nature or context they do not conform to normality Deviant landscapes can be encountered on the face of the earth on computer screens in people s minds This anthology presents varying perspectives on deviant landscapes widening the theoretical framework of spatial and landscape research by delving into the hitherto almost uncharted realm of deviant landscapes in a way that is missing in the academic literature It exposes a variety of perspectives on deviant landscapes from disparate scientific domains i e geography literary studies sociology game studies cultural studies and delivers useful insights into the diverse theoretical approaches that can be adopted to examine such landscapes neopragmatist social constructivist scientometric art theoretical etc Thomas Hardy P. Mallett, 2002-10-23 In Thomas Hardy Texts and Contexts distinguished critics from Canada Japan the USA and the UK offer fresh and challenging readings of Hardy s works They also raise far wider and far reaching questions about Hardy s attitude to his art his relation to such contemporary forms as melodrama and his response to the ongoing scientific debates from Darwin to Einstein about sexuality personal identity the meaning of suicide and the nature of time *The Victorian Novel Dreams of the Real* Audrey Jaffe, 2016-03-08 Critical discussions of the Victorian realist novel tend to focus on its vivid representations of everyday life The Victorian Novel Dreams of the Real proposes that the genre is founded in desire moving the novels not towards a shared reality but rather toward distinct fantasies dreams of the real Rather than simply redefine Victorian realism or propose a new canon for it The Victorian Novel Dreams of the Real argues that the real is inevitably for the Victorian realist novel an object of desire what the novel seeks to capture and represent A novel s construction of the real is therefore inseparable from its fantasy of the real a formulation Audrey Jaffe refers to as realist fantasy One way in which this simultaneity manifests itself is that the conventions novels frequently use to represent characters dreams daydreams and fantasies overlap with those each novel uses to create its realist effects In new readings of Victorian novels including Eliot s Adam Bede Dickens s Oliver Twist Hardy s The Mayor of Casterbridge and The Return of the Native Trollope s Orley Farm and Wilkie Collins s Armadale The Victorian Novel Dreams of the Real demonstrates that one of the signal effects of this overlapping is Victorian realism s construction of the real as an object of readerly desire Jaffe shows that realism and fantasy in the Victorian realist novel are not opposed but rather occupy the same space and are shaped by the same conventions Revisiting and reconsidering key elements of realist novel theory including metonymy the insignificant detail character interiority the representation of everyday life and the idea of disillusionment The Victorian Novel Dreams of the Real also uncovers and anatomizes representational strategies unique to each text The Grounds of the Novel Daniel Wright, 2024-01-16 What grounds the fictional world of a novel Or is such a world peculiarly groundless In a powerful engagement with the latest debates in novel theory Daniel Wright investigates how novelists reckon with the ontological status of their works Philosophers who debate whether fictional worlds exist take the novel as an ontological problem to be solved instead Wright reveals the novel as a

genre of immanent ontological critique Wright argues that the novel imagines its own metaphysical grounds through figuration understanding fictional being as self sufficient cohesive and alive rather than as beholden to the actual world as an existential anchor Through philosophically attuned close readings of novels and reflections on writerly craft by Thomas Hardy Olive Schreiner Colson Whitehead Virginia Woolf Zadie Smith Henry James and Akwaeke Emezi Wright shares an impassioned vision of reading as stepping into ontologically terraformed worlds and of literary criticism as treading and re treading the novel s grounds

Landscape and Gender in the Novels of Charlotte Brontë, George Eliot, and Thomas Hardy Dr Eithne Henson,2013-05-28 Examining a wide range of representations of physical metaphorical and dream landscapes in Charlotte Bront George Eliot and Thomas Hardy Eithne Henson explores the way in which gender attitudes are expressed both in descriptions of landscape as the human body and in ideas of nature Henson discusses the influence of

eighteenth century aesthetic theory particularly on Brontë and Eliot and argues that Ruskinian aesthetics Darwinism and other scientific preoccupations of an industrializing economy changed constructions of landscape in the later nineteenth century Henson examines the conventions of reading landscape including the implied expectations of the reader the question of the gendered narrator how place defines the kind of action and characters in the novels the importance of landscape in creating mood the pastoral as a moral marker for readers and the influence of changing aesthetic theory on the implied painterly models that the three authors reproduce in their work She also considers how each writer defines the concept of Englishness against an internal or colonial Other Alongside these concerns Henson interrogates the ancient trope that equates woman with nature and the effect of comparing women to natural objects or offering them as objects of the male gaze typically to diminish or control them Informed by close readings Henson's study offers an original approach to the significances of landscape in the realist nineteenth century novel
