Reading Narrative:

Reading Narrative Fiction Seymour Benjamin Chatman, 1993 This short fiction anthology offers a more precise and extensive treatment of narrative technique than other books of its kind Targeting the needs and interests of today's readers the author uses down to earth language and builds on readers familiarity with narrative devices in film television and other popular media to teach this new approach to literary analysis While offering more technical depth Chatman never overwhelms He provides unusually clear and exact definitions of such terms as characterization and point of view along with many illustrations of how these techniques actually operate in short stories His explanations and examples enable readers to read narratives with a new awareness of how they are constructed *Children Reading Print and Television Narrative* Dr Muriel Robinson, Muriel Robinson, 2020-04-14 Contrary to the popular assumption that television viewing is a very different process from book reading and inhibits reading in a variety of ways the author argues that in fact the two activities can be mutually supportive and involve many of the same strategies It may have implications for teachers as the book offers a research based view and calls for a new emphasis in school practice which will include television as text and which supports children's developing abilities to make meaning from a range of texts The author highlights the need for teachers to consider television in the same way as print media *Reading Narrative* Joseph Hillis Miller, 1998 Reading Narrative is in the author's words a book about how to make sense of stories or how to identify the ways they may fail to make sense Hillis Miller presents discussions of narratives and dialogues in the Western European tradition the works of such writers as Sophocles Plato Shakespeare Henry James Kierkegaard Laurence Sterne Proust Balzac and Elizabeth Gaskell Miller's new readings of Aristotle's Poetics Sophocles Oedipus the King Gaskell's Cranford Pater's Apollo in Picardy and many other works generate a comprehensive and original theory of narrative as he addresses questions about the ends beginnings and middles of the narrative line Miller demonstrates the uses of multiple narrators abrupt shifts in syntax anacoluthon indirect discourse interwoven plots and figures of speech including irony the master trope that is not a trope His narrative analysis in which line images function as salient examples draws the reader's attention in the same way that a master storyteller holds an audience *Narrative as Rhetoric* James Phelan, 1996 The rhetorical theory of narrative that emerges from these investigations emphasizes the recursive relationships between authorial agency textual phenomena and reader response even as it remains open to insights from a range of critical approaches including feminism psychoanalysis Bakhtinian linguistics and cultural studies The rhetorical criticism Phelan advocates and employs seeks above all to attend carefully to the multiple demands of reading sophisticated narrative for that reason his rhetorical theory moves less toward predictions about the relationships between techniques ethics and ideologies and more toward developing some principles and concepts that allow us to recognize the complex diversity of narrative art **Writers Read Better: Narrative** M.
