Emergence of African American Culture in the Plantation South      **Urban Triage** James Kyung-Jin Lee, 2004 In the 1980s America witnessed an explosion in the production popularity and influence of literary works by people of color and a decade long economic downturn that severely affected America's inner cities and the already disadvantaged communities of color that lived there. Marked by soaring levels of unemployment, homelessness, violence, drug abuse, and despair, this urban crisis gave the lie to the American dream, particularly when contrasted with the success enjoyed by the era's iconic stockbrokers and other privileged groups whose fortunes increased dramatically under Reaganomics. In *Urban Triage*, James Kyung Jin Lee explores how these parallel trends of literary celebration and social misery manifested themselves in fictional narratives of racial anxiety by focusing on four key works: Alejandro Morales's *The Brick People*, John Edgar Wideman's *Philadelphia Fire*, Hisaye Yamamoto's *A Fire in Fontana*, and Tom Wolfe's *The Bonfire of the Vanities*. Each of these fictions, he finds, addresses the decade's racial, ethnic, and economic inequities from differing perspectives. Morales's revisions of Chicano identity, Yamamoto's troubled invocation of the affinities between African Americans and Asian Americans, the problematic connections between black intellectuals and the black community aired by Wideman, and Wolfe's satirization of white privilege. Drawing on the fields of literary criticism, public policy, sociology, and journalism, Lee deftly assesses the success with which these multicultural fictions engaged in the debates over these issues and the extent to which they may actually have alienated the very communities that their creators purported to represent. Challenging both the uncritical celebration of abstract multiculturalism and its simpleminded vilification, Lee roots *Urban Triage* in specific instances of multiracial contact and deeply informed readings of works that have been canonized within ethnic studies and of those that either remain misunderstood or were misguided from the start. James Kyung Jin Lee is assistant professor of English and Asian American studies at the University of Texas at Austin.

**Flak-Catchers** Lindsey Lupo, 2010-12-02 *Flak Catchers* explores the ways in which riot commissions, the institutional bodies appointed by an executive in the aftermath of a race riot to determine a riot timeline, investigate causes and offer prescriptions for change. Have they dealt with racial violence in the United States over the last century? In studying five riots and their commissions: Chicago 1919, Harlem 1935, Los Angeles 1965, USA 1967, and Los Angeles 1992, this book shows that riot commissions only serve to give the appearance of strong and responsive government action during uncertain times. They primarily benefit the instituting body by focusing on a restoration of law and order while undermining any larger civil rights message. However, this book also challenges the prevalent idea that riot commissions are all the same by revealing how riot commissions have changed over the last century, shifting in their prominence, content, and focus. After the 1968 Kerner Commission, which studied the 1967 summer riots, it has become increasingly common for the riot commission to fail to answer fundamental questions posed by the crisis.
