Readings in World Politics American Foundation for Continuing Education,Robert A. Goldwin,1953 *Readings in World Politics* Robert A. Goldwin,1953 **The Power of Emotions in World Politics** Simon Koschut,2020-02-14 This book argues that the link between emotions and discourse provides a new and promising framework to theorize and empirically analyse power relationships in world politics Examining the ways in which discourse evokes reveals and engages emotions

the expert contributors argue that emotions are not irrational forces but have a pattern to them that underpins social relations. However, these are also power relations and their articulation as socially constructed ways of feeling and expressing emotions represent a key force in either sustaining or challenging the social order. This volume goes beyond the emotions matter approach to offer specific ways to integrate the consideration of emotion into existing research. It offers a novel integration of emotion discourse and power and shows how emotion discourses establish, assert, challenge or reinforce power and status difference. It will be particularly useful to university researchers, doctoral candidates and advanced students engaged in scholarship on emotions and discourse analysis in International Relations. On World Politics A.

Astrov, 2005-08-11. This book outlines an idea of world politics as an activity of thinking and speaking about the conditions of world order. World order is understood not as an arrangement of entities but as a complex of variously situated activities conducted by individuals as members of diverse associations of their own. Within contemporary International Relations, it entails a theoretical position, neotraditionalism, as a reformulation of the initial traditionalist approach in the wake of rationalism and subsequent reflectivist critique. **Power in World Politics** Felix Berenskoetter, M. J. Williams, 2007-11-06.

Featuring contributions from both upcoming and distinguished scholars including Steven Lukes, Joseph Nye and Stefano Guzzini, this volume explores the nature and location of power in international politics through a variety of conceptual lenses.
