Nature in the Middle Ages and the Early Modern Times Albrecht Classen, 2024-07-01 The study of pre modern anthropology requires the close examination of the relationship between nature and human society which has been both precarious and threatening as well as productive soothing inviting and pleasurable Much depends on the specific circumstances as the works by philosophers theologians poets artists and medical practitioners have regularly demonstrated It would not be good enough as previous scholarship has commonly done to examine simply what the various writers or artists had to say about nature While modern scientists consider just the hard core data of the objective world cultural historians and literary scholars endeavor to comprehend the deeper meaning of the concept of nature presented by countless writers and artists Only when we have a good grasp of the interactions between people and their natural environment are we in a position to identify and interpret mental structures social and economic relationships medical and scientific concepts of human health and the messages about all existence as depicted in major art works In light of the current conditions threatening to bring upon us a global crisis it matters centrally to take into consideration pre modern discourses on nature and its enormous powers to understand the topoi and tropes determining the concepts through which we perceive nature Nature thus proves to be a force far beyond all human comprehensibility being both material and spiritual depending on our critical approaches **American Book Publishing Record** ,1997 *Bibliographic Index* ,1997 **Readings in Italian Mannerism II** Liana De Girolami Cheney, 2019-12-24 This collection celebrates the 450th year anniversary of the publication of Giorgio Vasari's *Vite The Lives of the Most Excellent Painters Sculptors and Architects* Florence Giunti 1568 in which in the prolegomenon architects were highly praised along with the principles and technology of architecture To honor this significant event the selected articles in this book contain some published excerpts some revised and expanded some never published These articles demonstrate the extraordinary influence of the classical tradition in Renaissance and Mannerist architecture and its role in the education of architectural students In particular these essays discuss the materials employed and their functions as well as the architect's role in society These articles also address the impact of Mannerist architecture and art theory in sixteenth century European architecture and culture The Cumulative Book Index ,1997 A world list of books in the English language **Bibliographie D'histoire de L'art** ,1998 *Subject Guide to Books in Print* ,1997

Opening Bazin Dudley Andrew, Herve Joubert-Laurencin, 2011-04 Andr Bazin remains one of the most read most studied and most engaging figures ever to have written about film Fifty years after his death he is still widely recognized as cinema's most significant philosopher critic Always an important presence within cinema theory Bazin has seen a massive resurgence of interest among critics scholars and students now that an electronic archive of his entire critical output has been catalogued Opening Bazin assesses the great critic's influence and legacy with essays from several generations of the very best film scholars Gunning Frodon Margulies Conley MacCabe Narboni and Vernet to name just a few Ultimately these

essays reaffirm Bazin's relevance in this new century tracing his lineage debating his aesthetics locating him in the rich cultural moment of postwar France and tracking the effect of his thought around the world *Das Schweizer Buch*, 2005
