Management Intellectual Capital and also many sectorial perspectives like Trade Economics Logistics Social Policy etc. However today the question about the applicability of all these studies remains unsolved. So it is like many of the words that will save the Knowledge Economy have already been written all we need is to save the Knowledge Economy. Or is it not? The idea behind TAKE Conference was to provide a multidisciplinary forum in which those multiple perspectives will come together. We believe it is a fruitful operation and we intend to continue the exercise in the future. The problem of the relation between theory and practice in the knowledge economy is getting more important and not less important with the development of the BRICS and other nations. TAKE main question will be one of the problems of the 21st century. Following the promising start of TAKE 2016 in Aveiro Portugal TAKE 2017 was organized by the Faculty of Economics of Zagreb University around Prof Blazenka Knezevic. I would like to thank her and her team for the massive effort in putting TAKE 2017 together. It will be a very nice and memorable conference. I would like also to thank the 5 keynotes the special sessions and workshop organizers the authors of the 60 papers and 5 posters the stream leaders the reviewers and the sponsors for the efforts. And to the 90 participants from 20 countries: Austria Bosnia Herzegovina Canada Croatia Germany Hong Kong Hungary Netherlands Mexico Portugal Poland Romania Russia South Africa Serbia Slovakia Spain Thailand United Kingdom United States. A special word to Prof Gaby Neumann from Wildau who organized the Proceedings. Let us make TAKE 2017 a great occasion and help save the knowledge economy a bit.
