**Books in Print** ,1977 *Victorian Alphabet Books and the Education of the Eye* A. Robin Hoffman,2024-10-22 Victorian Alphabet Books and the Education of the Eye shows how the familiar genre went beyond mere reading instruction to offer nineteenth century British writers illustrators and publishers a site for representing and re thinking literacy itself This interdisciplinary study traces how individuals throughout the Victorian era deployed alphabet books to promote visual literacy or oral culture as a vital complement to textual literacy Their strategies ranged from puns and political allusions to elaborate designs that addressed adult audiences alongside or even instead of children As the format became more familiar in the first part of Victoria s reign George Cruikshank William Makepeace Thackeray Henry Cole and Edward Lear were quick to recognize its critical potential This history pivots around the mid 1860s and 1870s when the production of illustrated alphabet books exploded thanks to evolving printing technology and national education reform Case studies of individual works and makers show how a revolution in picture books reflected and responded to laws assuring children s access to schooling On the one hand Socialist artist Walter Crane was able to develop alphabetical illustration from a utilitarian mid century product into an aesthetically rich yet accessibly priced education of the eye On the other hand Kate Greenaway Hablot Knight Browne Phiz and their publishers tended to leverage commercialized nostalgia against pedagogy This survey concludes by showing how market oriented trends and the development of photographic reproduction toward the end of the century fed into interpretations of the alphabet including works by Rudyard Kipling and Hilaire Belloc that reflected growing ambivalence about industrialized print culture The Publishers' Trade List Annual ,1992 **Paperbound Books in Print** ,1991 **The Teaching of History in Primary Schools** Hilary Cooper,2014-05-22 Updated in response to the 2000

revision of the National Curriculum this text explores ways in which curriculum balance and coherence can be achieved and a rich and exciting primary history curriculum retained while not underestimating the demands of literacy numeracy and ICT

*Place and Progress in the Works of Elizabeth Gaskell* Lesa Scholl,Emily Morris,2016-03-09 Critical assessments of Elizabeth Gaskell have tended to emphasise the regional and provincial aspects of her writing but the scope of her influence extended across the globe Building on theories of space and place the contributors to this collection bring a variety of geographical industrial psychological and spatial perspectives to bear on the vast range of Gaskell s literary output and on her place within the narrative of British letters and national identity The advent of the railway and the increasing predominance of manufactory machinery reoriented the nation s physical and social countenance but alongside the excitement of progress and industry was a sense of fear and loss manifested through an idealization of the country home the pastoral retreat and the agricultural south In keeping with the theme of progress and change the essays follow parallel

narratives that acknowledge both the angst and nostalgia produced by industrial progress and the excitement and awe occasioned by the potential of the empire Finally the volume engages with adaptation and cultural performance in keeping with the continuing importance of Gaskell in contemporary popular culture far beyond the historical and cultural environs of nineteenth century Manchester
