Color Chart Ann Temkin, 2008 *Color Chart* celebrates a paradox the lush beauty that results when contemporary artists assign colour decisions to chance readymade source or arbitrary system Midway through the 20th century long held convictions regarding the spiritual truth or scientific validity of particular colours gave way to an excitement about colour as a mass produced and standardized commercial product The Romantic quest for personal expression instead became Andy Warhol s I want to be a machine the artistry of mixing pigments was eclipsed by Frank Stella s Straight out of the can it can t get better than that This book and the exhibition it accompanies is the first devoted to this pivotal transformation and features work by some forty artists ranging from Ellsworth Kelly and Gerhard Richter to Sherrie Levine and Damien Hirst
