***Confronting Urban Legacy*** Xiangming Chen,Nick Bacon,2013-10-18 *Confronting Urban Legacy* fills a critical lacuna in urban scholarship As almost all of the literature focuses on global cities and megacities smaller secondary cities which

actually hold the majority of the world's population are either critically misunderstood or unexamined in their entirety. This neglect not only biases scholars' understanding of social and spatial dynamics toward very large global cities but also maintains a void in students' learning. This book specifically explores the transformative relationship between globalization and urban transition in Hartford, Connecticut, while including crucial comparative chapters on other forgotten New England cities: Portland, Maine, along with Lawrence and Springfield, Massachusetts. Hartford's transformation carries a striking imprint of globalization that has been largely missed from its 17th-century roots as New England's first inland colonial settlement to its emergence as one of the world's most prosperous manufacturing and insurance metropolises to its present configuration as one of America's poorest post-industrial cities, which, by still retaining a globally lucrative FIRE Sector, is nevertheless surrounded by one of the nation's most prosperous metropolitan regions. The myriad of dilemmas confronting Hartford calls for this book to take an interdisciplinary approach. The editors' introduction places Hartford in a global comparative perspective. Part I provides rich historical delineations of the many rises and not quite falls of Hartford. Part II offers a broad contemporary treatment of Hartford by dissecting recent immigration and examining the demographic and educational dimensions of the city-suburban divide, and Part III unpacks Hartford's current social, economic, and political situation and discusses what the city could become. Using the lessons from this book on Hartford and other underappreciated secondary cities in New England, urban scholars, leaders, and residents alike can gain a number of essential insights, both theoretical and practical.

**Confronting the Color Line** Alan B. Anderson, George W. Pickering, 2008-01-01. In *Confronting the Color Line*, Alan Anderson and George Pickering examine the hopes and strategies, the frustrations and internal conflicts, the hard-won successes and bitter disappointments of the civil rights movement in Chicago. The scene of a protracted local struggle to force equality in education and open housing for blacks, the city also became the focus of national attention in the summer of 1966 as Martin Luther King Jr. and the Southern Christian Leadership Conference challenged the entrenched political machine of Mayor Richard J. Daley. The failure of King's campaign, a failure he would not live to redeem, marked the final unsuccessful attempt to secure significant social change in Chicago, and soon afterward the national civil rights movement itself would unravel amid white backlash and cries of black power. Picking up the threads of our own recent history, *Confronting the Color Line* examines a political movement that remains unfinished, a dilemma for America's system of democratic social change that remains unsolved.

finding and recommendation Individual views and dissents that sharpen differences of analysis and prescription are also encouraged Once formed Task Forces are independent Upon reaching a conclusion a Task Force issues a report which the Council publishes and posts on its website Task Force chairs directors and members are solely responsible for the content of their reports Book jacket
