The SAGE Encyclopedia of African Cultural Heritage in North America Mwalimu J. Shujaa,Kenya J. Shujaa,2015-07-13 The Encyclopedia of African Cultural Heritage in North America provides an accessible ready reference on the retention and continuity of African culture within the United States Our conceptual framework holds first that culture is a form of self knowledge and knowledge about self in the world as transmitted from one person to another Second that African people continuously create their own cultural history as they move through time and space Third that African descended people living outside of Africa are also contributors to and participate in the creation of African cultural history Entries focus on illuminating Africanisms cultural retentions traceable to an African origin and cultural continuities ongoing practices and processes through which African culture continues to be created and formed Thus the focus is more culturally specific and less concerned with the broader transatlantic demographic political and geographic issues that are the focus of similar recent reference works We also focus less on biographies of individuals and political and economic ties and more on processes and manifestations of African cultural heritage and continuity

Across eight parts, the essays in this collection explore topics both highbrow and low, including Parody and satire, Humor in rock and global music, Gender, sexuality, and politics, The music mockumentary, Novelty songs. Humor has long been a fixture of the popular music soundscape, whether on stage in performance, on record, or on film. *The Routledge Companion to Popular Music and Humor* covers it all, presenting itself as the most comprehensive treatment of the topic to date.

Donald Rodney Richard Hylton, 2025-01-23 Donald Rodney 1961-1998 was one of the most gifted, perceptive, and innovative contemporary British artists of his time. A protagonist from the first generation of Black British-born art students in the early 1980s, Rodney and his peers brought a new dynamic to British art, a hitherto unseen interplay between aesthetics, politics, humour, and Black consciousness. *Donald Rodney: Art, Race, and the Body Politic* is the first book-length study of a protean practice which spanned the early 1980s to the late 1990s and included a prodigious output of work across painting, photography, collage, assemblage, sculpture, installation, and new technologies. Across eight meticulously researched chapters, the book examines the social and cultural events which inspired Rodney's artwork and the responses it elicited. From his formative years in the West Midlands as a leading exponent of Black Art to a subsequent decade of unbridled visual innovation and social critique, the book ventures new, detailed analyses of key works, exhibitions, artistic influences, and collaborations. Deploying recurring metaphors of the diseased, traumatised, and raced body, Rodney addressed racial and social inequality, legacies of slavery, police brutality, sport, and Black male identity in novel and powerful ways. Attending to the artist's material dexterity and visual acuity, the book considers how and why Rodney's innovative practice uniquely challenged delineations between the political and non-political, personal and public, representation and visibility. Over a generation has passed since Rodney's premature death from the effects of the hereditary blood disorder sickle cell anaemia at aged thirty-six. Despite this, Rodney's work continues to speak to our contemporary moment in a multiplicity of ways. As such, the book provides a much-needed critical perspective and insight to the work and legacy of a nonpareil British artist.
