Regional Economic Development The River Basin Approach In Mexico:

Regional Economic Development David Barkin, Timothy King, 1970-10-02 Economic research into regional planning in Mexico and the promotion of the economic development of developing areas by integrated river basin investment projects examines political aspects industrialization annual growth rate of gross national product population trends covers agricultural production and animal production the development of natural resources and includes an evaluation of government policies and a case study of the tepalcatepec project Maps references and statistical tables Selected Water Resources Abstracts ,1974 Selected Water Resources Abstracts ,1974 **Decentralized Development in Latin**

America Paul Lindert, Otto Verkoren, 2010-03-02 Much of the scholarly and professional literature on development focuses either on the macro level of national policies and politics or on the micro level of development projects and household or community socio economic dynamics By contrast this collection pitches itself at the meso level with a comparative exploration of the ways in which local institutions municipalities local governments city authorities civil society networks and others have demanded and taken on a greater role in planning and managing development in the Latin American region The book's rich empirical studies reveal that local institutions have engaged upwards with central authorities to shape their policy and resource environments and in turn been pressured from below by local actors contesting the ways in which the structures and processes of local governance are framed The examples covered in this volume range from global cities such as Mexico and Santiago to remote rural areas of the Bolivian and Brazilian Amazon As a result the book provides a deep understanding of the diversity and complexity of local governance and local development in Latin America while avoiding the stereotyped claims about the impact of globalisation or the potential benefits of decentralisation as frequently stated in less empirically grounded analysis **Planning and Managing Water Resources at the River-basin Level** François

Molle, 2006 The concept of a river basin as a management or planning unit has gone through several stages and is in a state of flux **Economic Development of Latin America** Celso Furtado, 1976 This is an introductory survey of the history and recent development of Latin American economy and society from colonial times to the establishment of the military regime in Chile In the second edition the historical perspective has been enlarged and important events since the Cuban Revolution such as the agrarian reforms of Peru and Chile the difficulties of the Central America Common Market and LAFTA the acceleration of industrialisation in Brazil and the consolidation of the Cuban economy are discussed The statistical information has been extended to the early 1970s and the demographic data to 1975 Back cover **The Lords of Tetzaco**

Bradley Benton, 2017-05-02 The book examines how the indigenous nobility of Tetzaco navigated the tumult of Spanish conquest and early colonialism **The Street Is Ours** Shawn William Miller, 2018-08-02 The streets of Rio de Janeiro have long been characterized as exuberant and exotic places for social commerce political expression and the production and dissemination of culture The Street is Ours examines the changing uses and meanings of Rio de Janeiro's streets and argues

that the automobile by literally occupying much of the street's space and by introducing death and injury on a new scale significantly transformed the public commons. Once viewed as a natural resource and a place of equitable access deep meaning and diverse functions the street has changed into a space of exclusion that prioritizes automotive movement. Taking an environmental approach Shawn William Miller surveys the costs and failures of this spatial transformation and demonstrates how Rio's citizens have resisted the automobile's intrusions and in some cases even reversed the long trend of closing the street against its potential utilities.

Letters and People of the Spanish Indies James Lockhart, Enrique Otte, 1976-03-26 This volume presents a selection of translated public and private letters written by Spanish officials, merchants and ordinary settlers aiming to illuminate the panorama of sixteenth century Spanish American settler society and its genres of correspondence. Letters written by Native Americans a few of whom at this time were beginning to practice European style letter writing are also included. It is hoped that readers will feel the colorful humanity of the letter writers and also see the wide array of social types and functions during this era in the United States Southwest.

Peopling for Profit in Imperial Brazil José Juan Pérez Meléndez, 2024-09-25 *Peopling for Profit* provides a comprehensive history of migration to nineteenth century imperial Brazil. Rather than focus on Brazilian slavery or the mass immigration of the end of the century Jos Juan P rez Mel ndez examines the orchestrated efforts of migrant recruitment transport to and settlement in post independence Brazil. The book explores Brazil's connections to global colonization drives and migratory movements unveiling how the Brazilian Empire's engagement with privately run colonization models from overseas crucially informed the domestic sphere. It further reveals that the rise of a for profit colonization model indelibly shaped Brazilian peopling processes and governance by creating a feedback loop between migration management and government formation. P rez Mel ndez sheds new light on how directed migrations and the business of colonization shaped Brazilian demography as well as enduring social racial and class inequalities.
