Before the West Was West Amy T. Hamilton, Tom J. Hillard, 2014-11-01 Before the West Was West examines the extent to which scholars have engaged in depth with pre 1800 western texts and asks what we mean by western American literature in the first place and when that designation originated Calling into question the implicit temporal boundaries of the American West in literature a literature often viewed as having commenced only at the beginning of the 1800s Before the West Was West explores the concrete meaningful connections between different texts as well as the development of national ideologies and mythologies Examining pre nineteenth century writings that do not fit conceptions of the Wild West or of cowboys cattle ranching and the Pony Express these thirteen essays demonstrate that no single unified idea or geography defines the American West Contributors investigate texts ranging from the Norse Vinland Sagas and Mary Rowlandson's famous captivity narrative to early Spanish and French exploration narratives an eighteenth century English novel and a play by Aphra Behn Through its examination of the disparate and multifaceted body of literature that arises from a broad array of cultural backgrounds and influences Before the West Was West apprehends the literary West in temporal as well as spatial and cultural terms and poses new questions about westernness and its literary representation **A Regional**

Contemporary C. J. W.-L. Wee, 2025-03-18 The first critical account of the enormous upsurge in cultural expression across Asian countries from 1979 2008 and the new possibilities it presented for the aesthetic and cultural re imagining of a unified contemporary Asia Biennial style art exhibitions New discourses in modern and contemporary art The production and circulation of increasingly debordered popular culture A Regional Contemporary by C J W L Wee is an investigative account of the dramatic increase in cultural expression in Asia from 1979 to 2008 with the 1990s as the focal point of this period The so called East Asian miracle Wee argues projected a fictive but shared contemporary regional identity onto Northeast and Southeast Asia collectively taken as East Asia The new cultural explosion was notably enabled by expanded capitalist

energies that reached a level critical enough to reposition the region's postcolonial and Cold War era nationalisms and this book examines the resulting implications. A sophisticated and compelling study, *A Regional Contemporary* is the first to examine the conjunction of high and popular culture in the region. Moreover, Wee reveals how the various cultural formations of this regional contemporary were able to traverse if not overcome uneven national economies, the memory of Japanese empire and the geopolitical rifts of post-Cold War nationalisms. While foregrounding new cultural expression, Wee simultaneously examines how novel economic conditions bolstered a more confident questioning of Western modernity's dominance and enhanced the capacity for regional dialogue in the bid to overcome colonial era legacies even as those legacies were being absorbed into the region. ^{VH1} ^{VH1} For the designer, if space is tight on the back, this can be deleted.

Sketch of the Floral Regions of South Africa Harry Bolus, 1905 **The Oxford History of the Novel in English** J. Gerald Kennedy, Leland S. Person, 2014-06-26

The Oxford History of the Novel in English is a 12-volume series presenting a comprehensive global and up-to-date history of English language prose fiction and written by a large international team of scholars. The series is concerned with novels as a whole, not just the literary novel, and each volume includes chapters on the processes of production, distribution and reception, and on popular fiction and the fictional sub-genres, as well as outlining the work of major novelists, movements, traditions and tendencies. In thirty-four essays, this volume reconstructs the emergence and early cultivation of the novel in the United States. Contributors discuss precursors to the U.S. novel that appeared as colonial histories, autobiographies, diaries and narratives of Indian captivity, religious conversion and slavery, while paying attention to the entangled literary relations that gave way to a distinctly American cultural identity. The Puritan past, more than two centuries of Indian wars, the American Revolution and the exploration of the West all inspired fictions of American struggle and self-discovery. A fragmented national publishing landscape comprised of small local presses often disseminating odd experimental forms eventually gave rise to major houses in Boston, New York and Philadelphia, and a consequently robust culture of letters. Dime novels, literary magazines, innovative print technology and even favorable postal rates contributed to the burgeoning domestic book trade in place by the time of the Missouri Compromise. Contributors weigh novelists of this period alongside their most enduring fictional works to reveal how even the most American of novels sometimes confronted the inhuman practices upon which the promise of the new republic had been made to depend. Similarly, the volume also looks at efforts made to extend American interests into the wider world beyond the nation's borders, and it thoroughly documents the emergence of novels projecting those imperial aspirations.

Albany Institute of History and Art Tammis K. Graft, Mary Alice Mackay, 1998-01-01

Founded in 1791, the Albany Institute of History and Art is one of the nation's oldest cultural institutions. Today it boasts outstanding collections largely focused on New York State's Upper Hudson Valley. These include Hudson River School landscape paintings, portraits by Ezra Ames and Charles Loring Elliott, sculpture by Erastus Dow Palmer, landscape and interior paintings by Walter Launt Palmer, and Albany-made silver and other crafts. This comprehensive
