Regionalism And Revision:

Politics and Society in Mid Thirteenth-Century England Peter Coss, 2024-09-03 Despite the multidirectional nature of modern research the interpretation of the political history of thirteenth century England has remained locked into a traditional framework bequeathed by the mid twentieth century historian R F Treharne and embellished by the emphases and accentuations of his present day successors Characterised by its conception of community its constitutionalism its ready identification of a national enterprise and its predilection for idealism and progressive thinking this framework remains close to the Whig interpretation of English history It is reinforced by the continuation of reverence for the baronial leader Simon de Montfort In contrast Peter Coss offers here an alternative approach to the period which is anchored in social mores and cultural values More emphasis is placed upon the interests ambitions and needs of contemporaries upon social networks of various kinds and upon how interests both clashed and cohered as people strove to improve or preserve their situations This was a crisis born of political instability but in the context of institutional administrative and legal growth that is to say at a particular point in the evolution of the state Drawing on a wide range of sources the book reconsiders the generation of the crisis the factors which influenced its course and its partial resolution In short it explores the anatomy and physiology of a troubled realm

A Primer on Theory in Architecture Karen Cordes Spence, 2016-12-01 A Primer on Theory in Architecture discusses how theory is defined in architecture how it is identified its location in larger perspectives or worldviews its relationships to other areas in architecture and how it can be constructed The book explores the definition elements and characteristics of theory along with subjects associated with theory and how these associations are recognized In addition case studies tackle both individual theorists and common approaches to the topic Aimed at the new student of architectural theory if you are just beginning to tackle this subject begin with this book

English Identity and Political Culture in the Fourteenth Century Andrea Ruddick, 2013-11-21 A study of the nature of national sentiment in fourteenth century England in its political and constitutional context

Political culture in later medieval England Michael J. Braddick, 2020-01-03 This is an important collection of pioneering essays penned by the late Simon Walker a highly respected historian of late medieval England One of the finest scholars of his generation Walker's writing is lucid inspirational and has permanently enriched our understanding of the period The eleven essays featured here examine themes such as kingship lordship warfare and sanctity There are specific studies on subjects such as the changing fortunes of the family of Sir Richard Abberbury Yorkshire's Justices of the Peace the service of medieval man at arms Janico Dartasso Richard II's views on kingship political saints and an investigation of rumour sedition and popular protest in the reign of Henry IV An introduction by G L Harriss looks back across Walker's career and discusses the historiographical context of his work Both the new and previously published pieces here will be essential reading for those working on the late medieval period

J. Pollard,2007 Is North East England really a coherent and self conscious region The essays collected here address this topical issue from the middle ages to the present day [The Regionalist Movement in France, 1890-1914](#) Julian Wright,2003 This is the first full academic study of the political thought of the French regionalist movement in the Belle Epoque Julian Wright has examined the private papers of Jean Charles Brun founder of the Federation Regionaliste Francaise in detail He has rethought the conceptual basis of regionalism through Charles Brun s intellectual biography showing that it penetrated the political debates of the period as a commonplace in Republican arguments about state reform Despite the often made association of regionalism with the right Dr Wright reveals the diversity of political views expressed and demonstrates that the connection to left wing federalism was emphatically present in the intellectual background Interwoven with this discussion is an examination of the personal mission of Charles Brun He saw himself as a reconciler using his regionalism within a mission to heal the divisions of French politics and society He argued that France s instability stemmed from an obsession with reforms that followed a priori political models and that politicians who sought to rethink the shape of the Republic needed to attend to the cultural or economic realities expressed in France s regions Charles Brun and his regionalist movement continue to have resonance in current debates about decentralization in France **Hybridisation of Political Order and Contemporary Revisionism** Nik Hynes,Vít Štřítecký,2022-08-01 This volume argues that contemporary political and security revisionism should not be considered a homogenous attack against the international order but rather a bag of tailor made strategies to

exploit opportunities found in various highly localised contexts Scholars with backgrounds in Security Studies Area Studies International Relations and Political Theory are brought to examine revisionist tendencies in Central Eastern Europe Post Soviet Space China and the Transatlantic Space In doing so they try to remedy the existing disciplinary separatism or policing which has obfuscated any theorisation of the connections between international and domestic politics for many decades Part of the analytical focus is on novel phenomena especially the utilization of cyberspace and new social media and technological innovation One of the conclusions of this volume is that the rise in contemporary revisionism shows the oft forgotten importance of the first image of international politics political leaders in other words do indeed matter The fact that they matter is only reinforced when they represent regional or even great powers and especially revisionist regimes and states with the propensity to produce complex effects The chapters in this book were originally published as a special issue of the journal *Europe Asia Studies*
