The New Politics of Regionalism Ulf Engel, Heidrun Zinecker, Frank Mattheis, Antje Dietze, Thomas Plötze, 2016-10-04

This edited volume approaches regionalism as one potential pattern in a changing global order. Since the end of the Cold War, different forms of territorialization have emerged, and we are confronted with an increasing number and variety of actors that are establishing regional projects. This volume offers an innovative contribution to the study of this new complexity by exploring constellations of regional actors, spatial scales, and imaginations beyond state-centred perspectives, as well as on multiple, often overlapping levels. The chapters analyse the emergence, trajectories, and outcomes of regionalisms from the perspective of the Global South, specifically concentrating on regional projects in Latin America and Africa, but also in the Asia Pacific. They attempt to identify the specific conditions and junctures of different forms of region-making in their external, global, and internal, local, national dimensions. The volume also places special emphasis on interactions, spatial entanglements, and comparisons between regionalisms in different parts of the world. By expanding beyond the perspective of North-South transfers, this book seeks to better understand the dynamics and diversity of interregional interactions. This volume will appeal to scholars of global studies, international political economy, international relations, human geography, and development studies, as well as area studies specialists who focus on Latin America and Africa. **Political Encyclopedia of**

U.S. States and Regions Donald P. Haider-Markel, Michael A. Card, 2009. Providing expert analysis of government and politics in all 50 states and the U.S. territories, this innovative two-volume reference fills the critical need for information and analysis of the roles and functions of state government through accessible state-by-state and regional overviews of government and politics. South American Policy Regionalism Leslie Elliott Armijo, Markus Fraundorfer, Sybil D.

Rhodes, 2024-09-30. Regional cooperation exists but looks different in the global South than in the European Union, claim the contributors to *South American Policy Regionalism*, which offers novel theory, methods, and Latin American case studies of joint governance efforts in nine international policy arenas ranging from illegal drugs to artificial intelligence. Contrasting three major schools of thought in international relations, highlighting power, institutions, and ideas, this book introduces the idea of international policy regionalism as a framework for informed debate about international policy sector interactions in a regional space. Beginning with a conceptual approach applicable to any world region, it includes a brief history of Western Hemisphere regionalism to aid in future cross-regional comparisons. An international group of contributors constructs rich narratives of the politics of Latin American policy sector evolution since the Cold War. Besides the aforementioned, included sectors span regional development, banking, infrastructure, planning, electricity distribution, migration, governance, climate action, neglected tropical diseases, and food policies. This volume equips readers from various academic disciplines and the policy world to understand the relevance of core international relations theory for the analysis of policy sectors that cross

national borders both within Latin America and elsewhere and especially throughout the global South

The Rise of Post-Hegemonic Regionalism Pía Riggirozzi, Diana Tussie, 2012-01-07 This book offers a timely analysis and a novel and nuanced argument about post neoliberal models of regional governance in non European contexts It provides the first in depth empirically driven analysis of current models of regional governance in Latin America that emerged out of the crisis of liberalism in the region It contributes to comparative studies of the contemporary global political economy as it advances current literature on the topic by analysing distinctive overlapping and conflicting trajectories of regionalism in Latin America The book critically explores models of transformative regionalism and specific dimensions articulating those models beyond neoliberal consensus building As such it contests the overstated case of integration as converging towards global capitalism It provides an analytical framework that not only examines the what how who and why in the emergence of a specific form of regionalism but sets the ground for addressing two relevant questions that will push the study of regionalism further What factors enable or constrain how transformative a given regionalism is or can be with respect to the powers and policies of states

 Three trends have dominated the political economy of integration during the last two decades globalization economic
 nationalism and regionalization This book explores comparative regional integration focusing on both intra regional
 integration and relations among regions in the context of power The most common focus of integration studies has been on
 the logic of cooperation but there is another logic of integration power The relevance of power today is represented by the
 relations within the Eurozone especially between creditors and debtors By the same line of reasoning integration in Asia
 cannot ignore the respective roles of China Japan and Korea nor the unresolved disputes about Taiwan Hong Kong and the
 islands in the South China Sea This edited volume addresses the role of power in regional integration in three contexts 1 the
 role of hegemonic external actors the US and China in regional integration 2 the role of core states within regions Germany
 China Japan and Brazil and 3 the role of noncore states smaller and middle range powers Italy and Greece in Europe South
 Korea and Malaysia in Asia and Argentina Colombia Uruguay and Paraguay in Latin America This book will benefit students
 and scholars of international relations and comparative political economy especially those with an interest in integration
 studies and comparative regionalism **Regional Organizations and Social Policy in Europe and Latin America**
 Andrea C. Bianculli, Andrea Ribeiro Hoffmann, 2016-01-26 The contributors assess to what extent regional organizations in
 Europe and Latin America provide a space for the regulation and provision of social policies in the area of social protection
 higher education and health They analyse the impact of regional organizations on social citizenship following political
 struggle and contestation *American Regionalism* Congressional Quarterly, inc, 1980 **The New Regional Politics of
 Development** Anthony Payne, 2019-08-09 The New Regional Politics of Development assesses the various development
 strategies being pursued in each of the major regions of the world While huge inequalities in wealth and capacity remain a
