Regulatory Bureaucracy Robert A. Katzmann, 1980 **Regulatory Bureaucracy - the Federal Trade Commission and Antitrust Policy** Katzmann, 1980 *Antitrust Law Journal*, 1986 **Healthcare Antitrust, Settlements, and the Federal Trade Commission** James Langenfeld, Edwin Galeano, 2018-08-30 This volume of Research in Law and Economics contains articles that address important legal and economic developments in the areas of healthcare intellectual property and labor settlements competitive effects cartel overcharges and the U S Federal Trade Commission FTC **The Federal Trade Commission** Robert V. Larabee, 2020-03-11 This annotated bibliography assists the reader in locating information about the United States Federal Trade Commission The book is divided into four chapters each reflecting the major functions and regulatory responsibilities of the FTC *Impact of OMB-proposed Budget Cuts for the Federal Trade Commission* United States. Congress. House. Committee on Government Operations. Commerce, Consumer, and Monetary Affairs Subcommittee, 1981 **The Causes and Consequences of Antitrust** Fred S. McChesney, William F. Shughart, 1995-03-15 Why has antitrust legislation not lived up to its promise of promoting free market competition and protecting consumers Assessing 100 years of antitrust policy in the United States this book shows that while the antitrust laws claim to serve the public good they are as vulnerable to the influence of special interest groups as are agricultural welfare or health care policies Presenting classic studies and new empirical research the authors explain how antitrust caters to self serving business interests at the expense of the consumer The contributors are Peter Asch George Bittlingmayer Donald J Boudreaux Malcolm B Coate Louis De Alessi Thomas J DiLorenzo B Epsen Eckbo Robert B Ekelund Jr Roger L Faith Richard S Higgins William E Kovacic Donald R Leavens William F Long Fred S McChesney Mike McDonald Stephen Parker Richard A Posner Paul H Rubin Richard Schramm Joseph J Seneca William F Shughart II Jon Silverman George J Stigler Robert D Tollison Charlie M Weir Peggy Wier and Bruce Yandle **The Design of Competition Law Institutions** Eleanor M Fox, Michael J Trebilcock, 2013 Significant power is exercised through webs created between different systems of national law influenced by governments but also by transnational actors such as global corporations and transnational NGOs and often with an overlay of formal international law or of substantial influence from international institutions Studying the procedures used by competition institutions dealing with specific cases concerning monopolies mergers anti competitive practices this volume uses a template to study practices of many national institutions and the EU and examines the interactions among these and with prescriptions of influential international bodies Together these form a web with existing procedural rules and practices in a particular institution criticized and alternatives championed and transmitted partly by prescription and partly by arguments of major global law firms of global corporations and of consultants dispatched by the ICN and other agencies This whole process examined for the first time in this book is the real global governance of the procedural law and practices of market supervision under competition rules Delving deeply into their jurisdictions and internationally the contributors

illuminate the inner workings of the systems and expose the procedure process and performance norms embedded within Case studies are drawn from Australia Canada Chile China Japan South Africa the USA and the EU as well as four leading international institutions involved in antitrust the World Trade Organization the Organization for Economic Cooperation and Development the United Nations Conference on Trade and Development and the International Competition Network The results reveal a convergence of these norms across the very different systems a procedural norms convergence that offers a necessary counterpart to studies on substantive rule convergence These results provide benchmarks for the field suggest possibilities for future development and offer lessons for all interested in competition law and global governance

Antitrust and the Triumph of Economics Marc Allen Eisner, 2017-11-01 Some of the chief aims of President Ronald Reagan's economic agenda were to reduce the regulatory burden minimize state intervention and reinvigorate market mechanisms Toward these ends his administration limited antitrust enforcement to technical cases of price fixing invoking the doctrine of the Chicago school of economics In *Antitrust and the Triumph of Economics* Marc Eisner shows that the so called Reagan revolution was but an extension of well established trends He examines organizational and procedural changes in the Antitrust Division of the Department of Justice and the Federal Trade Commission that predated the 1980 election and forced the subsequent redefinition of policy During their early years the Antitrust Division and the FTC gave little attention to economic analysis In the period following World War II however economic analysis assumed an increasingly important role in both agencies and economists rose in status from being members of support staff to being pivotal decision makers who in effect shaped the policies for which elected officials were generally assumed to be responsible In the 1960s and 1970s critical shifts in prevailing economic theory within the academic community were transmitted into the agencies This had a profound effect on how antitrust was conceptualized in the federal government Thus when Ronald Reagan became president in 1981 the antitrust agencies were already pursuing a conservative enforcement program Eisner's study challenges dominant explanations of policy change through a focus on institutional evolution It has important implications for current debates on the state professionalization and the delegation of authority Originally published in 1991 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

The Global Limits of Competition Law D. Daniel Sokol, Ioannis Lianos, 2012-06-13 Over the last three decades the field of antitrust law has grown increasingly prominent and more than one hundred countries have enacted competition law statutes As competition law expands to jurisdictions with very different economic social cultural and institutional backgrounds the debates over its usefulness have similarly evolved This book the first in a new series on global competition law critically assesses the importance of competition law its development and modern practice and the global limits that have emerged This volume will

Foreman, 1988-01-01 Does Congress do a good job of overseeing the work of the important legislative agencies the EPA FDA OSHA and others that it has established to protect the public from some of the risks of modern technology Combining analysis and anecdote Christopher H Foreman Jr looks into the oversight tools available to Congress the variety of interest groups involved the kinds of issues that arise between agencies and congressional committees and the personal networks that affect relations between them and he suggests what Congress can and should do to improve the process of social regulation Foreman adds substantially to our understanding of the role played by oversight A solid contribution toward understanding the nature of day to day congressional oversight Burdett Loomis Journal of Politics This book is presented clearly free from jargon whether academic or governmental A solid discussion of oversight Jan P Vermeer Perspective This is a thoughtful effectively organized and well written book Those concerned with legislative oversight will find it highly useful Morris S Ogul University of Pittsburgh Winner of the 1989 D B Hardeman Prize given by the Lyndon Baines Johnson Library for the best book on Congress in the twentieth century **International Bibliography of Social Science** International Committee for Social Science Information and Documentation, 1984-03-15 First published in 1984 Routledge is an imprint of

Taylor Francis an informa company **Regulating Land and Pollution in China** Benjamin van Rooij,2006 Annotation Many of China s rivers and lakes are strongly polluted the air in cities is amongst the worst in the world while some have warned that if the country is not careful it may soon have insufficient arable land to feed its population This book looks at why the protection of natural resources through stricter legislation and more stringent law enforcement has been so difficult It does so through a combination of a local case with comparative and theoretical insights about lawmaking compliance and enforcement It offers a unique view on how law functions in the world s largest legal system and how such law interacts with the social economic and political circumstances at hand This book offers an incomparable body of empirical and theoretical knowledge for those interested in how law functions in China as well as those interested in the workings of regulatory lawmaking compliance and enforcement in a comparative perspective This title can be previewed in Google Books <http://books.google.com/books/vid/ISBN9789087280130> **Antitrust Policy and Interest-Group Politics** William F. Shughart,1990-04-09 This groundbreaking study is the first to apply an analytical model derived from the interest group theory of regulation to the study of antitrust law and policy The application of this model which stresses that government intervention in the economy will always benefit some political groups at the expense of others to the analysis of antitrust enables Shughart both to identify important trends in the antitrust arena and demonstrate which groups have benefited most from antitrust legislation His analysis clearly shows that consumer welfare is often not enhanced by antitrust suits or legislation Rather well organized private interest groups have tended to benefit more even in cases where consumer welfare is the stated goal of legislation or policy Divided into three sections the volume begins by discussing normative and positive theories of antitrust The author provides an overview of the origins of antitrust law and policy and introduces the interest group theory of government The second section explores the various private interests that impinge on antitrust policy the business community the antitrust bureaucracy Congress the judiciary and the antitrust bar Finally Shughart examines the political economy of antitrust He shows how antitrust can be used to subvert competition and offers suggestions for reform in the realm of interest group politics Students of economics and business as well as professional economists corporate lawyers legislators and business consultants will find important new insights into the direction taken by antitrust policy during the last few decades Judges and Legislators Robert A. Katzmann,2010-12-01 The Judiciary and Congress not only do not communicate on their most basic concerns they do not know how they may properly do so writes Frank M Coffin a federal appeals court judge and former representative in Judges and Legislators The condition is that of a chronic debilitating fever Though the Senate lavishes it s attention from time to time on particular judicial nominees Congress remains largely oblivious of the wellbeing of the federal judiciary as an institution And the judiciary seems often unaware of the critical nuances of the legislative process This state of affairs has had an adverse effect not only on relations between the two branches but also on public policy more generally Some forty five people including a Supreme Court justice federal and state

court judges legislators and legislative staffers scholars and members of the private bar gathered for a series of discussion to identify fundamental issues affecting judicial congressional relations The articles published in this volume are an outgrowth of those discussions
