Cooper, 2001 If a picture is worth a thousand words then the 200 historic views in Delaware in Vintage Postcards provide eloquent commentary on the First State in the early part of the twentieth century Capturing the era between 1905 and 1925 this charming retrospective takes readers on a journey from Selbyville and Fenwick Island to Claymont Arden and Hockessin and down the picturesque Main Streets of more than fifty Delaware towns Illustrated postcards which became popular at the turn of the last century highlight the economic importance of land and sea the state's varied architectural beauty and the everyday lives of Delaware citizens *America's Boardwalks* Jim Lilliefors, 2006 This richly documented and illustrated tale takes readers on a journey along the edges of the country to 12 of its most famous beach towns to reveal the vitality of the American boardwalk as an idea rather than just a place *Wallops Island* Nan DeVincent-Hayes, Bo Bennett, 2001-03-14 Located in Accomack County on Virginia's Eastern Shore Wallops Island was once a primitive swath of land uncivilized but by the wild ponies and mosquitoes that made its scrub covered shores their home But as the centuries passed the wildness of the island was radically altered by the influx of colonists then vacationers and eventually some of the brightest scientific minds in the country The history of Wallops Island has been one of transition In the colonial period John Wallop an industrious man and self made millionaire was granted much

of the island's acreage by the English Crown for providing assistance to new colonists trying to reach Virginia. In 1889 Wallops Island was bought and converted into a vacation destination for a handful of wealthy families from Pennsylvania who in turn sold the island to the federal government in the 1940s. Once in the hands of NASA the island was transformed into a center for the high tech development of rockets, missiles, and the means for space travel. From weather balloons and Tiamat missiles to aerodynamics and hurricane research, the Wallops Island Flight Facility and its predecessors have been instrumental in the evolution and success of the American space program. *Lexington* Bo Bennett, 2006-06-07

Lexington, North Carolina, heralded as the Barbecue Capital of the World, is located in the heart of the Triad, just 30 miles from High Point, Winston-Salem, and Greensboro. Along with barbecue, the town enjoys a rich history in the furniture business and textile industry. Legend claims that the European families who made Lexington their home in the early 1700s named it after a battle of the American Revolution. On April 19, 1775, the brave soldiers of Lexington, Massachusetts, armed themselves and courageously fought the British, losing seven American lives. News of their courage reached North Carolina, and it was decided to name the town in honor of the place where one of the first known British resistances occurred. **A Delaware Album, 1900-1930** George David Miller, 2011-04-15

A Delaware Album, 1900-1930, contains over 300 postcard photographs from the entire state taken during the period from 1900 to 1930. Arranged by subjects: City and Town Views, Delaware Beaches, Amusements, Industry and Agriculture, Signs of the Times, Trains, Trolleys, and Automobiles, Water Transportation, Schools, Religion, Businesses, Hotels, and Motels, each photo has a caption ranging from a sentence or two to several paragraphs. The book's introduction details how the cards were produced, analyzes the subject matter depicted on the cards, documents the history of several of the most prominent local photographers in the state whose work is found almost only on postcards, and traces the evolution and popularization of postcard photography. Through the photographs, readers can witness the development of Delaware agriculture and fisheries, the expansion of the railroad into southern Delaware, the declining days of steamship service on Delaware rivers and creeks, the fate of Middletown's last trolley, and Delaware's unsuccessful campaign against King Alcohol. They can see how Delawareans worshiped, worked, and shopped. They can visit local amusement parks and beaches from New Castle County to Sussex County. For the early decades of the twentieth century, the postcard recorded every aspect of American life. As local historians will tell you, the photographic record of small town America during the period from 1900 to 1930 exists almost only on postcards. That is why historical societies, libraries, and museums have begun to amass postcard collections. In the last twenty years, historians and scholars have increasingly turned to the postcard as a way of seeing what our past literally looked like, what we enjoyed doing, where we worked and played, how we viewed one another, what we thought was important, and what prejudices we held. **Moon Virginia & Maryland** Michaela Riva Gaaserud, 2020-07-14
