John Gower, Poetry and Propaganda in Fourteenth-century England David Richard Carlson,2012 John Gower s works examined as part of a tradition of official writings on behalf of the Crown Richard II Anthony Goodman,James Gillespie,2003 In this reassessment of Richard II an outstanding group of international contributors re evaluates the frequently biased evidence to create a new and rounded portrait of this fascinating and much maligned king They investigate Richard s contemporary reputation and key aspects of his policies covering topics which include the conventions of co operation between kings and communities discourse on the nature and purpose of rule monarchy as spectacle the cultural

expression of royal personality and the fiscal basis of government They highlight the seriousness of the problems affecting the exercise of kingship and show how the traditional and innovative panaceas attempted by a conventionally minded prince resulted in his downfall It is a study which repositions the reign within the evolution of English kingship *Johannes XXII., Avignon und Europa* Sebastian Zanke, 2013-09-12 Die Studie Johannes XXII Avignon und Europa widmet sich mit einem innovativen Ansatz einem kontrovers diskutierten Pontifikat und ordnet hierbei anhand der in den päpstlichen Registerserien berlieferten kurialen Korrespondenz klassische Themen wie die Auseinandersetzung zwischen Kaisertum und Papsttum in einen europäischen Vergleichshorizont ein Fallstudien die von den Britischen Inseln bis zum Mittelmeer reichen geben daneben den Mechanismen Strukturen und Akteuren der päpstlichen Politik eine deutliche Kontur wobei auch die grundsätzliche Rolle des Papsttums im spätmittelalterlichen Europa aus einem neuen Blickwinkel betrachtet wird By implementing a European approach the study offers a new view on the controversial pontificate of John XXII Through examination of the correspondence preserved in the papal registers classic topics like the dispute between papacy and empire can be interpreted within a broader context while case studies ranging from the British Isles to the Mediterranean reveal the mechanisms and actors of papal politics in late medieval Europe *English Identity and Political Culture in the Fourteenth Century* Andrea Ruddick, 2013-11-21 A study of the nature of national sentiment in fourteenth century England in its political and constitutional context **England and Iberia in the Middle Ages, 12th-15th Century** M. and terms encountered in reading or during study the Encyclopedia offers an excellent starting point for classroom or personal research on subjects relating to the course causes and consequences of the Hundred Years War All entries conclude with suggested further readings A comprehensive bibliography completes the encyclopedia which is fully indexed **Crisis and Survival in Late Medieval Ireland** Brendan Smith,2013-06-20 This volume explores the ways in which the English settlers in Louth maintained their English identity in the face of plague and warfare through the turbulent decades between 1330 and 1450 **The Long Process of Development** Jerry F. Popular Protest in Late Medieval English Towns Samuel Kline Cohn,Douglas Aiton,2013 Draws new attention to popular protest in medieval English towns away from the more frequently studied theme of rural revolt *Shipping the Medieval Military* Craig L. Lambert,2011 Mariners made a major but neglected contribution to England s warfare in the middle ages Here their role is examined anew showing their importance During the fourteenth century England was scarred by famine plague and warfare Through such disasters however emerged great feats of human endurance Not only did the English population recover from starvation and disease butthousands of the kingdom s subjects went on to defeat the Scots and the French in several notable battles Victories such as Halidon Hill Neville s Cross Cr cy and Poitiers not only helped to recover the pride of the English chivalrous class but also secured the reputation of Edward III and the Black Prince Yet what has been underemphasized in this historical narrative is the role played by men of more humble origins none more so than the medievalmariner This is unfortunate because during the fourteenth century the manpower and ships provided by the English merchant fleet underpinned every military expedition The aim of this book is to address this gap Its fresh approach to the sources allows the enormous contribution of the English merchant fleet to the wars conducted by Edward II and Edward III to be revealed the author also explores the complex administrative process of raising a fleet andprovides career profiles for many mariners examining the familial relationships that existed in port communities and the shipping resources of English ports Craig L Lambert is Research Assistant at the University ofHull *Power and Identity in the Middle Ages* Huw Pryce,John Watts,2007-07-12 Collecting sixteen thought provoking new essays by leading medievalists this volume celebrates the work of the late Rees Davies Reflecting Davies interest in identities political culture and the workings of power in medieval Britain the essays range across ten centuries looking at a variety of key topics Issues explored range from the historical representations of peoples and the changing patterns of power and authority to the notions of core and periphery and the relationship between local conditions and international movements The political impact of words and ideas and the parallels between developments in Wales and those elsewhere in Britain Ireland and Europe are also discussed Appreciations of Rees Davies a bibliography of his works and Davies own farewell speech to the History Faculty at the University of Oxford complete this outstanding tribute to a much missed scholar *Disunited Kingdoms* Michael Brown,2014-07-10 In the last

decades of the thirteenth century the British Isles appeared to be on the point of unified rule dominated by the lordship law and language of the English However by 1400 Britain and Ireland were divided between the warring kings of England and Scotland and peoples still starkly defined by race and nation Why did the apparent trends towards a single royal ruler a single elite and a common Anglicised world stop so abruptly after 1300 And what did the resulting pattern of distinct nations and extensive borderlands contribute to the longer term history of the British Isles In this innovative analysis of a critical period in the history of the British Isles Michael Brown addresses these fundamental questions and shows how the national identities underlying the British state today are a continuous legacy of these years Using a chronological structure to guide the reader through the key periods of the era this book also identifies and analyses the following dominant themes throughout the changing nature of kingship and sovereignty and their links to wars of conquest developing ideas of community and identity key shifts in the nature of aristocratic societies across the isles the European context particularly the roots and course of the Hundred Years War This is essential reading for undergraduates studying the history of late Medieval Britain or Europe but will also be of great interest for anyone who wishes to understand the continuing legacy of the late medieval period in Britain

The Commercialisation of English Society, 1000-1500 R. H. Britnell, 1996 The commercialisation of English society offers a major new interpretation of social and economic change in England over five centuries By 1500 English livelihoods depended more upon money and commercial transactions than ever before the institutional framework of markets had been transformed and urban development was more pronounced These changes were not however caused by any unilinear development of population output or money supply This pioneering study examines both institutional and economic transformation and the social changes that resulted and stresses the limited importance of formal trading institutions for the development of local trade Commercial transition is throughout analysed from a broader perspective that looks at the changing power relations within medieval society which might loosely be described as feudal and considers how these relations were affected by such commercial development

The Black Prince and the Capture of a King Marilyn Livingstone, Morgen Witzel, 2020-01-10 This taut narrative of the fourteenth century conflict between England and France offers a detailed climactic account of a legendary battle Publishers Weekly The epic fourteenth century Battle of Poitiers marked a major turn in the Hundred Years War between England and France Prince Edward known to all as the Black Prince not only won a surprising victory in his first campaign as commander but managed the nearly impossible feat of taking the French monarch King Jean II prisoner In the summer of 1356 Prince Edward drove toward the Loire Valley deep in French territory There he met the full French army led by King Jean and a number of French nobles including veterans of the defeat at Cr cy ten years before Outnumbered the Prince fell back but in September he turned near the city of Poitiers to make a stand Historians Witzel and Livingstone provide a day by day description of the campaign of July to September 1356 climaxing with a vivid description of the Battle of Poitiers itself The detailed account and analysis of the

battle and the campaigns that led up to it has a strong focus on the people involved in the campaign ordinary men at arms and noncombatants as well as princes and nobles
