Barbara Emerson, 2001 Reiki is a Japanese hands on method of bodywork that channels energy through seven chakras energy centers to attune the body to its optimal energy level Emerson s radical approach allows practitioners to pass from level to level without a master Illustrations charts Reiki I., II., & III. Res Cogitans, 2024-03-31 Reiki is a Japanese technique for stress reduction and relaxation that promotes healing It is administered by laying on hands and is based on the idea that an unseen life force energy flows through us and is what causes us to be alive If one s life force energy is low then we are more likely to get sick or feel stress and if it is high we are more capable of being happy and healthy The word Reiki is made of two Japanese words Rei which means God s Wisdom or the Higher Power and Ki which is life force energy So Reiki is actually spiritually guided life force energy Reiki treats the whole person including body emotions mind and spirit creating many beneficial effects that include relaxation and feelings of peace security and wellbeing Reiki is a simple natural and safe method of spiritual healing and self improvement that everyone can use An amazingly simple technique to learn the ability to use Reiki is not taught in the usual sense but is transferred to the student during a Reiki class This ability is passed on during attunement given by a Reiki master and allows the student to tap into an unlimited supply of life force energy to improve one s health and enhance the quality of life While Reiki is spiritual in nature it is not a religion It has no dogma and there is nothing you must believe to learn and use Reiki In fact Reiki is not dependent on belief at all and will work whether you believe in it or not Because Reiki comes from God many people find that using Reiki puts them more in touch with the experience of their religion rather than having only an intellectual concept of it While Reiki is not a religion it is still important to live and act in a way that promotes harmony with others The three pillars which comprise the foundation of Reiki are the bringing together of hands at the heart center which helps to ground the individual center their energy and focus intention the invocation of Reiki to begin flowing and Chiryō which involves either placing the hands in various positions along the body or beaming energy to the recipient so that they may receive the healing and loving energy that is Reiki There are three levels of Reiki and each level has its own associated symbols The first level focuses on physical healing

and uses the Power Symbol Cho Ku Rei to increase the flow of Reiki energy The second level focuses on mental and emotional healing and uses the Mental Emotional Included are detailed instructions for levels I II and III master practitioner attunements
