Reinventing Germany German Political Development Since 1945:

Reinventing Germany Anthony Gies, 1996-08 In this stimulating book a leading expert on German affairs provides an overview of German political development since 1945 The key to the well being and prosperity of Europe after 1945 was the creation of a stable and democratic West Germany Unification in 1990 not only transformed Germany's role in Europe and the world but brought new political social and economic problems caused by the vast expense of unity and high labour costs The author argues that these great changes provide a new and daunting challenge to the Bonn system by calling into question the Berlin Republic's ability to meet the needs of the German nation The difficulties resulting from Germany's commitment to European integration are also addressed Within Europe German insistence on deeper integration is often seen as evidence of a German wish to dominate Europe even though the stated aim of Kohl's government is to prevent this from happening The author believes that Germany's new power is clearly visible and must be carefully managed if future conflict is to be avoided

Meddling in the Ballot Box Dov H. Levin, 2020 Why do world powers sometimes try to determine who wins an election in another country What effects does such meddling have on the targeted elections results Great powers have attempted for centuries to intervene in elections occurring in other states through various covert and overt methods with the American intervention in the 2013 Kenyan elections and the Russian intervention in the 2016 US elections being just two recent examples Indeed the Americans and the Soviets Russians intervened in one out of every nine national level executive elections between 1946 and 2000 Meddling in the Ballot Box is the first book to provide a comprehensive analysis of foreign meddling in elections from the dawn of the modern era to the 2016 Russian intervention in the US election Dov Levin shows that partisan electoral interventions are usually an inside job occurring only if a significant domestic actor within the target wants it Likewise a great power will not intervene unless it fears that its interests are endangered by an opposing party or candidate with very different preferences He also finds that partisan electoral interventions frequently have significant effects on the results sufficient in many situations to determine the winner Such interference also tends to be more effective when it is conducted overtly However it is usually ineffective if not counterproductive when done in a founding election A revelatory account that explains why major powers have meddled so frequently across the entire postwar era Meddling in the Ballot Box also provides us with a framework for assessing the cyber future of interference
