Borderlands Hastings Donnan, Thomas M. Wilson, 2012-07-10 Borderlands are often seen as zones of instability uncertainty marginality and danger Yet they increasingly attract the attention of ethnographers as a unique lens through which to view the intersections of the national transnational and global forces that shape the securities and insecurities of our globalizing age The contributors to this volume examine how different kinds of insecurity manifest and interconnect at state borders encompassing the personal and the political the social and the economic in ways that reinforce or undermine the identities of those whose lives these borders frame Drawing upon case studies from the Southern Cone the U S Mexico border and borders in Greece Ireland and southeast Asia the authors show that borders raise questions of security not just for those who live and cross them including ethnographers but also for the sustainability of the physical environments and wildlife disturbed by the passage movement and containment borders generate

The Practical Guide to Aging for Beginners Su Jun Wei, Chen Hui-Chung, 2021-09-01 An Illustrated Guide to the Aging Phenomena in Life Aging will slowly penetrate every aspect of life My favorite foods no longer taste as good as they once did The place I live in felt very noisy all in a sudden After finally retiring I start to have personal time but nothing seems to arouse my interest Have you or your family ever had these problems In fact these troubles are all caused by aging Aging is a natural process If you don't pay special attention to it in time these small troubles will snowball into big ones Long repressed psychological pressure will eventually burst out and transform into behaviors that others find annoying Gradually you will become a difficult old man/woman who you don't even like A problem that neither patience nor companionship can solve Long term suppression may cause greater emotional rebound making pure companionship hard to last long Everything has a lifespan and the body isn't an exception However in the face of the various troubles in life caused by aging people still subconsciously encourage them to hang in there or ask the people around them to be with them more However what is required isn't short term tolerance but rather day after day and year after year of patience The so-called accompaniment often hurts each other since they don't know how to do it right The life of the person involved is filled by these sufferings caused by aging and may in turn make the family members accompanying them feel uncomfortable Aging is not a disease Only by understanding the aging of the body and the various possible behaviors after aging can we better respond to it When encountering problems related to aging the author noticed

that many people may intuitively think Is there any way to cure aging If the problem isn't cured it is not a good way This notion may cause many people to go all the way from regular medical treatment to unpopular remedies and eventually delay the time for rehabilitation When facing the problem of aging many people see it as a disease If it cannot be cured there's nothing else to do However the author does not agree with this statement In fact many problems in life are not simply caused by aging but the result of the interaction between aging and the environment Although the human body ages it still retains considerable flexibility in adapting to the environment Even if the aging situation is severe many of the problems encountered in life can still be improved As long as we understand the mechanism of body aging and take appropriate countermeasures against the tendency of aging we can immediately improve the current quality of life and effectively delay the symptoms of aging

Public Roads, 1930 Raising Parents Patricia M. Crittenden, 2013-04-03 This book provides a systematic account of parental behaviour and the means of identifying and addressing inadequate parenting It is intended for professionals who work with children or adults who were harmed as children and its central concern is with parents who endanger their children or whose children may endanger themselves or others Understanding and helping troubled parents to become secure and balanced people is of crucial importance for the parents themselves for their children and for society at large This book is a guide to understanding parents as people who have children as opposed to seeing them as existing solely in terms of their ability to fulfill their children's needs The book shares equally a respect for theory empirical science and social values and applications It aims to provide a springboard for new lines of research e.g. around the role of danger in eliciting inadequate parental behavior and the interdependency of parent and child behaviour as well as a guide for clinicians and professionals who must protect both disturbed individuals and the public to understand their clients/patients better both parents and children Raising Parents will be essential reading for professionals and practitioners in the field including psychologists psychotherapists psychiatrists and social workers as well as those taking courses in attachment and psychopathology developmental psychology clinical psychology and behavioural courses in psychiatry

Ebook: Theories of Personality Jess Feist, Gregory Feist, Tomi-Ann Roberts, 2014-10-16 The 8th edition of Theories of Personality follows in the tradition of the previous versions by centering on the premise that personality theories are a reflection of the unique cultural background family experiences personalities and professional training of their originators The book begins by acquainting students with the meaning of personality and providing them with a solid foundation for understanding the nature of theory as well as its crucial contributions to science The chapters that follow present twenty-three major theories coverage of each theory also encompasses a biographical sketch of each theorist related research and applications to real life Changes in the 8th edition included a new chapter 8 on evolutionary personality theory focusing on the work of David Buss The Related Research sections in each chapter have also been updated

biographical speculations How can Barnes s hybrid eccentric and unconventional corpus be read as part of literary modernism when it often seems to sever itself from it How can an oeuvre reject the labels of feminist and lesbian literature whilst nevertheless holding at its centre the relationships between language sexuality and the real How can Barnes s work help us to rethink the relation between simplicity and difficulty within literary modernism Caselli concludes by arguing that Barnes s complex and bewildering work is committed to a high modernist notion of art as a supremely difficult undertaking whilst refusing to conform to standards of modernist acceptability
